

RURAL ENTERPRISE SUPPLEMENT

Halsey, Oregon, March 31, 1927

(Continued on last page)

to spend the spring vacation at their homes here. They returned to Monmouth Sunday.

Mr. and Mrs. E. E. Hover were at Harrisburg Friday.

Mr. and Mrs. Fred Lowry jr. and the senior Lowrys of Corvallis spent Sunday at Waldport.

The four Blood pupils who last week went to Eugene with their parents make thirteen who have moved out of the district this term, but there are still twenty-four pupils and all eight grades in the school.

Alford Arrows

(Enterprise correspondent)

L. H. Armstrong and family were Sunday afternoon callers at A. E. Whitbeck's.

Frank Williams visited his sister, Mrs. Kump, at Eugene one day last week.

Wilma Falk and Velda Curtis spent Friday with the latter's aunt, Mrs. Riggs, in Harrisburg and attended the operetta.

C. E. Mercer of Eugene visited at E. D. Isom's Sunday.

The infant son of M. O. Banich of Albany was buried in the Alford cemetery Thursday.

F. M. Bond and family of Rowland were callers at E. D. Isom's Monday evening.

Mr. and Mrs. A. E. Whitbeck were Sunday evening callers at John Rolfe's.

Mr. and Mrs. John Rolfe spent Sunday at George Godwin's, near Buena Vista.

A. N. Smith of Portland is spending some time at his ranch, making fences.

Mrs. B. E. Cogswell and son Philip of Portland called at their farm Saturday on their way to Eugene, taking Mr. Cogswell with them. He has been here for some

time looking after his sheep. On Sunday they returned to Portland, taking their daughter, Mrs. Dorothea Stanton, and three children, of Eugene with them for a visit.

Mr. and Mrs. A. F. Robnett of Eugene spent Tuesday at E. D. Isom's.

Mr. and Mrs. Sam Ringler visited at J. D. Brubaker's Sunday.

Electricity Winning the Crown

(Herbert Hoover)

The output of electricity by steam plants has been increased sixty-seven per cent. in the last five years with an increased fuel consumption of only fifteen per cent.

Of the 8,300,000 hydro-electric horsepower now installed 2,500,000 have been put to work in that same period.

The number of homes served with electricity has increased in six years from 5,700,000 to more than 15,000,000. The number of farms served is increasing rapidly. The average price of power throughout the country is now less than before the war one of the few commodities delivered on less than pre-war basis.

This transformation has increased the productivity of our workmen beyond that of any other country; it contributes to our maintenance of high real wages; it relieves the home makers of many irksome tasks; and it adds immeasurably to home comforts.

In walnut growing in western Oregon the gross expenses of bearing orchards run from \$50 to \$75 an acre; the returns from an average orchard are 1000 pounds to the acre; the average price has been 25 cents per pound, giving a gross income of about \$250 per acre, and a net income of \$150 to \$200.

Thirty million dollars' worth of eggs were marketed co-operatively in this country in 1925; there was a great increase in these figures in 1926 and the volume is expected to further increase in 1927. The poultry industry is increasing in nearly every state as is also the consumption of eggs. Canada eats more eggs per capita than any other country in the world — 230 eggs per person

per year. During the past six years the Canadian consumption has increased about ten dozen for each person, while in this country the increase has been only about one-fifth this amount.

Men in Idaho who are putting out poison and collecting and skinning on the average 250 rabbits a day not only help to keep down the numbers of the pest, but gain a good income. About 140,000 skins have been marketed this winter in Idaho. This plan is being followed in several other states where jack-rabbits are troublesome.

Riches Not Everything

Riches are gotten with pain, kept with care and lost with grief. The care of riches lies heavier upon a good man than the inconveniences of an honest poverty.—L. Estrenge.

"Wear-Ever"

Aluminum Baking Pan

Reg. price \$1.95

for

baking ham, apples, bread, rolls, and making candy
