all pain instantly**

CORNS

Dr. Scholl's Zino-pads stop all pain quicker than any other known method. Takes but a minute to quiet the worst corn. Healing starts at once. When the corn is gone it never comes back. If new shoes make the spot "touchy" again, a Zino-pad stops it instantly. That's because Zino-pads remove the cause—pressing and rubbing of shoes.

Dr. Scholl's Zino-pads are medicated, antiseptic, protective. At all druggists and shoe dealer's—35c.

FLUSH TANK TROUBLES EASILY REPAIRED

Flush Valve and How to Repair It.

(Prepared by the United States Department of Agriculture.)
Very often trouble in the flush tank of the toilet may be easily located by a member of the family and corrected at little cost without sending for a plumber, says the United States Department of Agriculture.

Probably no other plumbing in the home needs attention so often as the flush valve. It is under water and subject to fouling and neglect. The hollow rubber ball gets out of shape and fails to drop squarely into the hollow seat. The handle and lever fail to work smoothly or the lift wires get out of plumb, causing the ball to remain up when it should drop to its seat. To remove these difficulties, stop inflow to the tank by holding up the float of the ball cock or supporting it with a stick. Drain the tank by raising the rubber ball. If the ball is worn, out of shape, or has lost its elasticity, unscrew the lower lift wire from the ball and replace with a new one. A two and one-half-inch rubber ball costs about 25 cents, and a new one should always be kept in the home. The lift wires should be straight and plumb. The lower lift wire is readily centered over the center of the valve by means of the adjustable guide holder. By loosening the thumbscrew, the holder is raised, lowered, or rotated about the overflow tube. By loosening the lock nut and turning the guide screw, the horizontal position of the guide is fixed exactly over the center of the valve. These adjustments are very important. The upper lift wire should loop into the lever arm hole nearest to a vertical from the center of the valve. A tank should empty within ten seconds. Owing to lengthening of the rubber ball and insufficient rise from its seat, the time may be longer than ten seconds with a correspondingly weak flush. This trouble may be overcome by shortening the loop in the upper lift wire. A drop or two of lubricating oil on the lever mechanism makes it work more smoothly.

SEVERAL KINDS OF SMALL TEA CAKES

Good Plan to Have on Hand Few Tempting Goodies.

(Prepared by the United States Department of Agriculture.)
Are cookies and little cakes popular in your household? Whether you put up many school lunches or have people dropping in frequently for a sojourn afternoon call, you have no doubt found it a sensible plan to keep a few tempting goodies on hand to add to sandwiches or afternoon tea.

Here are four quite different kinds of small cakes, any of which can be easily made at home. The first kind, "rocks," may be made in fairly large quantities, because they keep well. They should be kept in tight tin or glass containers. The date bars also should be kept in a tight container. Chocolate drop cakes will be found popular with the children for their lunch boxes, especially if spread with hot with a thin coating of white or chocolate icing. This may be cooked or made of confectioner's sugar. Any sort of flaked breakfast food may be used for the macarons. All four recipes have been tested by the bureau of home economics.

Chocolate Drop Cookies.
1/4 cupful butter 1 1/2 cupfuls flour
1 cupful of sugar 2 teaspoonfuls of (white or brown) baking powder
1 egg 1/2 teaspoonful of salt
1/2 cupful milk
2 squares chocolate (melted) 1 cupful chopped nuts

Melt the chocolate and add the butter and sugar. Add the egg without beating and the milk. Use two tablespoonfuls of the flour to coat the chopped nuts. Then add the nuts and the sifted dry ingredients to the liquid mixture. Stir this thoroughly and add the vanilla. Drop the batter by teaspoonfuls on a greased baking sheet or an ordinary baking pan inverted. Bake in a quick oven (about 375 to 400 degrees Fahrenheit).

Rocks.
1 1/4 cupfuls light-brown sugar 1 teaspoonful of cinnamon
1 cupful butter 2 cupfuls raisins, chopped
2 eggs, well beaten 1 cupful English walnut meats, chopped
1/4 teaspoonful soda in a little hot water 1/2 teaspoonful of salt
2 1/2 cupfuls flour

Cream the butter and sugar, add the eggs. Sift the dry ingredients, reserving some flour to roll the raisins and nuts. Mix all together, place by teaspoonfuls on a greased pan and bake in a hot oven. As flour varies so much it would be wise to bake a sample, and if it runs add from one-eighth to one-quarter cupful more flour. Sometimes, however, when drop cakes spread out too much in baking, the fault is that the oven is not hot enough rather than that the mixture is too soft. Drop cakes need a rather hot oven so that they set quickly and

Reliable Recipe Given for Lemon Pie Filling
Here's a reliable recipe for lemon pie filling. Mix three tablespoonfuls of cornstarch with one cupful of cold water and one-eighth teaspoonful salt; place over the fire and stir constantly until thickened and the cornstarch thoroughly cooked—about ten minutes. Add three-fourths cupful of sugar, four tablespoonfuls lemon juice, grated rind of half a lemon, one tablespoonful butter and three egg yolks, well beaten. Cook for one or two minutes over steam. Pour into a cooked pastry shell and cover with a meringue made by thoroughly beating the egg whites and adding the sugar and a little salt. Bake at a low temperature (250 degrees Fahrenheit) for 20 minutes, then raise the temperature until the meringue is a light brown.

Using Waffle Iron
An electric waffle iron should never be greased. If your waffles stick perhaps you have not put enough melted butter or other shortening into the batter. One or two extra tablespoonfuls of melted shortening in the batter will often keep waffles from sticking in an electric iron. Also when the waffle is brown and crisp and ready to take out of the iron, thrust a fork firmly into it and lift the waffle straight up. If you work around the edges with a knife attempting to loosen it in that way, the waffle will break and be almost impossible to get out whole.

LIFE'S LITTLE JESTS

UP TO HIS NECK
Two girls were talking things over. "What's your brother, Tom, doing?" asked one.
The other smiled and replied, "Oh, he's head over heels in love."
"No, not really?" exclaimed the other. "I never thought he was that kind."
Tom's sister smiled as she answered: "And neither did he. But you can never tell. You see, he's reading manuscripts on a popular magazine."

Claims Everyone Can Now Have Good Health

Los Angeles Business Man Suffering Months From Constipation, Indigestion and Run-Down Condition Regains Health with Tanlac

Mr. Harry Franklin, a well-known Los Angeles manufacturer with offices at 918 Broadway, says: "My experience proves that nearly everyone can now have good health. After many months of indigestion and constipation, months that ended by my being in a badly run-down condition, I regained good health; new strength and calm nerves. . . . Thanks to Tanlac. "Imagine not being able to eat without suffering from tormenting pains and the burning sensation of indigestion. The poisons caused by sluggish liver and constipation ravaging my system, left me tired and draggy all the time, with no energy for my work. "Then I turned to Tanlac, determined to give it a fair trial. From the first bottle it helped me. Within a few weeks I found myself with more energy than I had known in months, a fine appetite, good digestion—I feel that I could eat nails without harm—I am so built up in every way. "I now enjoy robust health and work all day at top speed without tiring. But I have not stopped taking Tanlac, for it is the one way to continued good health, to top strength and energy. My wife, too, highly praises Tanlac. She is inclined to be delicate and has found that Tanlac

has preserved her health and strength for many years. Everyone should take this wonderful tonic. "Tanlac has helped thousands of Californians. It is Nature's own remedy made from roots, barks and herbs according to the famous Tanlac formula. The first bottle usually brings wonderful relief from pain. Keep up the treatment and you grow stronger, healthier, more robust. "Don't neglect your health, don't suffer from pain needlessly, begin taking this wonder tonic now.
