Headaches
Headaches, indigestion, sleeplessness and nervous troubles are often caused by eyestrain. An eyestrain is caused by not wearing the right glasses. Right glasses will relieve eyestrain, and trouble due to eyestrain will disappear. The first thing to do is to have your eyes examined and know what glasses will be the right ones.

Quick Optical Repair Work—Glasses or spectacles broken? Guards bent out of alignment? Temples too long or too short? Whatever your requirements, our service is prompt and highly satisfactory. Bring your repair work to us. **MEADE & ALBRO** Optometrists, 312 First st., Albany, Ore.

Hold Firmly to Beliefs and Doubt Doubts, for Constructive Character

By REV. DR. WILLIAM CARTER, Presbyterian, Brooklyn.

Young people cannot help but have their doubts, but, thank God, they cannot help but have their beliefs also. The perfectly natural thing to do is to believe your beliefs and doubt your doubts. Do not doubt your beliefs and believe your doubts.

The proper thing to do with a doubt is to starve it. The proper thing to do with a belief is to feed it.

Doubt never comforted a man, helped a man, saved a man; but belief will. Doubt is destructive, belief constructive, and it is the constructive we need in our religion or it will not amount to much.

Many foolish people believe doubt is the sign and imprimatur of highest intellectualism, but it cannot stand the test of logic or experience. Doubt is suspended animation of the mind. Belief is the active and motivating process.

New England Atmosphere With 1926 Improvements

ANY one who has ever motored through the quiet sleepy towns of New England has fallen in love with that section of the country—neat, white, unpretentious and with a touch of reserve about them. Just such a house is the one pictured here. It is equally adaptable for town or country, and by merely shifting the living and entrance porches around can be built on a wide or narrow lot without spoiling its architectural beauty.

The house is sturdily built and has an exterior of wood siding except for the unusual stucco panels that start at the level of the second floor windows. The roof is of stained shingles, preferably moss green, in keeping with the window shutters. A house of this compact style is very easy to heat, especially when the specifications call for insulation throughout with celotex, which prevents heat leakage, and keeps the house cool in the summer.

The living and dining rooms are here combined into one large room flooded with light by windows on three sides. The two bedrooms on the second floor each have double exposure and an extra large closet in which a window may be placed.

Tree Goes After Water
A self-reliant eucalyptus tree grows in western Australia. During the hot dry months it has been known to send down a root through a crack in limestone to a depth of 100 feet in search of moisture.

Close Enough
I don't try to picture what heaven is like, for anybody; but when there's plenty on the table, and more where that came from, that's purty much what I think it must be like—Atlanta Constitution.

A Shedd team comes here Tuesday to show Halsey how to play baseball.
Mrs. Grant Reynolds, laid up with rheumatism, is improving a little but her doctor says she must not leave her bed before Saturday.
Halsey succeeded in scoring 5 to Harrisburg's 25 in the baseball game at Harrisburg.
A team of horses which J. O. Northrup brought with him two or three months ago when he came from Toledo and bought the Laubner place and made it his home, has evoked much admiration in these auto and tractor days.
