## Mrs Cuevas' **Quick Recovery**

Threatened With Years of Pain and Grief Due to Crippling Rheu-matism and Run-Down Condition, San Francisco Widow Restored to Good Health by Tanlac.

Carles Sta

Tanlac scored a omplete victory in the case of Mrs. Cuevas, 2508 Bush St., San Francisco, whosays: "For three years I had been crippled. Poison in my fingers and in my fingers and hands developed into rheumatism. I was even un-

able to dress myself. My troubles brought on heart trouble. My stomach was up-set so that food did not nourish me. I lost all appetite, became weak and exhaust-

all appetite, became weak and exhaust-ed and my usual good color disappeared. "Tanlac brought health and happi-ness, the poisons in my system were ex-pelled. My digestion is as good as my appetite. I am so strong and so well, with all signs for future health that I am full of praise for Tanlac." This tonic, made of roots, barks and herbs, helps build up weak bodies, put flesh on scrawny bones, free the sys-tem of poison and relieve cause of pain. Benefit by Mrs. Cuevas' experience.

Benefit by Mrs. Cuevas' experience,

Let Tanlac give you glorious health. Get your first bottle from your drug-gist-today!

**Heals Eczema** in 7 Days or Less Or Your Money Back

Here is a surgeon's wonderful prescription now dispensed by pharmacists at trifling cost, that will do more towards helping you get rid of unsightly spots and skin diseases than anything you've ever used.

Not only does this great healing an-tiseptic oil promote rapid and healthy healing in open sores and wounds, but boils, abcesses and ulcers that are discharging are almost immediately relieved and cleanly healed.

In skin diseases its action is little less than magical. The itching of eczema is instantly stopped; the eruptions dry up and scale off in a very few days. The same is true of barbers' itch, salt rheum and other irritating and unsightly skin troubles.

You can obtain Moone's Emerald Oil in the original bottle at any modern drug store. It is safe to use, and failure in any of the ailments noted above is next to impossible Your druggist can supply you at any time

#### Your Kidneys **Must Function Properly** For You to be Well

ATE hours, rich foods and stimulating drinks are all hard on our kidneys. If their action becomes sluggish, they do not thoroughly cleanse the blood of poisonous wastes.

Such impurities may make one dull, tired and achy, with often a toxic backache, drowsy headaches and dizziness. A common symptom of imperfect kidney function is scanty or burning excretions.

Thousands have learned the virtue of Doan's Pills, stimulant diuretic in these conditions. 50,000 users have publicly recommended Doan's. Ask your neighbor!

50,000 Users Endorse Doan's: Lambert W. Cox. Westover, Md., says: "Doan's Pills proved their value to me. My kidneys acted sluggishly and the secretions were scant and scalding. There was such a soreness across my back that I couldn't bend or stoop. I was told to use Doan's Pills and shall always be glad that I did. They put me in fine shape."

Marigolds

Marigolds are ord-fashioned flowers, but none the less satisfactory in small gardens. They are exceedingly easy to grow and begin to flower in a few planted. Moreover, they will thrive in around the house. rather poor soil, having a tendency

By W. A. RADFORD Mr. William A. Radford will answer questions and give advice FREE OF COST on all problems pertaining to the subject of building, for the readers of this paper. On account of his wide experience as editor, author and man-ufacturer, he is, without doubt, the highest authority on the subject. Ad-dress al inquiries to William A. Rad-ford, No. 1827 Prairie avenue, Chicago, for reply.

When the early settlers came to the western continent they had certain ideas on home building which they had brought from Europe. In England the predominating type of architecture was known as Georgian. It called for simplicity and dignity and a certain quaintness that made hospitality the cornerstone of the home. Once established in this country the settlers began to carry out this same scheme with some modifications. This development led to what is known as colonial architecture. The colonial home is as popular today, if not more so, than a century ago, and there is no reason to believe that it will lose its hold upon the people in the years to come. For fundamentally it embodies all that goes to make the home the center of life. Its delightful simplicity, quaintness and comfort are irresistible.

In the colonial home the entrance is one of the dominating features of the exterior treatment. It is the most important element in the facade. Usually it consists of a white door with old-fashioned knocker and narrow side panels. If covered, the hood is supported by white pillars such as those shown in the picture. This house is an excellent example of colonial treat ment and expresses very eloquently the hospitality and comfort which are found in a home of this type. There is something alluring about the white clapboard siding (white seems to be the standard color of colonial houses. although other colors can be used very

successfully), green shutters, regular windows, well spaced and small panes. An extra decorative touch can very easily be added in the form of weeks from the time the seed is lattice work about the entrance or There are six rooms in this house.

to make heavy foliage but to throw three on the lower floor and four few flowers when the ground is rich. above. The three first-floor rooms are The odor of the marigold is not very large and the living room is ideal. The old idea of a large room where the family can lounge and entertain has come back with a vengeance. No more the small ornate parlor, now it is the living room and this room is the

many farm homes of the colonial type are being built. Another feature of the colonial ouse that recommends it very strongy is its economy in cost. Because there are no frills or unusual additions, there is no extra expense for millwork. The design is more or less

#### Second Floor Plan.

standardized and the construction developed to a high degree. It gains beauty through simplicity, and because of this simplicity can be built at a cost within reason.

If you are planning on building a new home this spring, do not overook the colonial design. It affords the maximum amount of comfort, harm, and convenience. There is no oossibility of it growing old and out of date, for it has survived generations and is more popular today than ever.

### Colonial Style Homes

Are of Three Types There are probably few words as

persistently misunderstood and misused in America as the term "colonial." As applied to architecture, the term "colonial" refers primarily to the type, or rather types, of design in use during the time the American colonies were subject to the political and inspirational domination of Great Britain. The term also covers styles of home building developed by early settlers who were immigrants from other lands, many of whom adhered in America to the architectural tradi-

tions of the mother country. chronological relat The

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 25 years.

## DOES NOT AFFECT THE HEART

That Explains It First Stenog-I can read the boss' handwriting today. That's funny. I never could before.

Second Stenog-He broke his arm while cranking his car yesterday and he's learning to write with his left hand.

### **Bell-Ans Really Sure Relief**

# CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years to relieve bables and children of Constipation, Flatulency, Wind Collc and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep without oplates.

The genuine bears signature of

center of all home activity. Other rooms such as the dining room and kitchen have been made smaller and

the extra space added to the living room. In the colonial house this room is the outstanding feature. It has the old-fashioned open fireplace which is now considered quite modern. In this house the living room is 13 feet 6 inches by 20 feet 6 inches. At the rear end of the living room

is a pair of French doors opening out onto a sun parlor, 14 by 11 feet. The sun parlor is an essential addition to any home and should be provided whenever possible. The comfort it affords easily offsets the extra cost required to build it. An attractive entrance similar to the one in front leads from this porch to the garden. On the other side of the small reception hall which leads the way into the house is the dining room, smaller in size than the living room, but ample for its purpose. It is lighted from

two sides. A swinging door leads the way to the kitchen, 16 by 10 feet. On the second floor are three bed-

rooms-an alcove and bathroom. The large bedroom is 13 feet 6 inches by 17 feet, and the other two smaller ones are 11 by 13 feet 6 inches. If four bedrooms are needed this secondfloor plan can be easily changed to accommodate that number.

This is the kind of home that is being built in all sections of the country regardless of climate or location. It

the prevailing styles of England and those of the American colonies up to, and for a few years after, the signing of the Declaration of Independence adds considerably to the confusion regarding the proper recognition of that style.

To clear this situation, let us under stand that American colonial architec ture, particularly that large majority which finds its inspiration in England, may be definitely divided into three periods as follows:

Early colonial, being the type of architecture followed in this country approximately from the year 1670 A. D. to 1740 A. D.

Middle colonial, the style of 1740 to 1765.

Late colonial, the style of 1765 to approximately 1800, after which, as all new groups of civilization do, the people of the United States entered period of groping experimental architecture-for the most part a nightmare of failure until a century of such experience proved the wisdom of returning to adaptations of long-established and successful precedents in

dwelling designs. We find the early colonial styles characterized by simplicity in plan, appearance and furnishing; the middle colonial houses increasing in size and blossoming forth with the more luxurious ornamentation reflected from contemporary English styles; and the late colonial homes vieing with those of England in their adaptation of the measured details of the master architects and craftsmen of Great Britain, who in softening their own sturdy background of precedent, were then drawing freely upon the inspiration of French and other foreign designers .- Arts and Decorations.

#### Start Now to Save for a Home of Your Own

There never was a better time for you to begin to own your home than right now. You'll look back some day and count the years before you began saving for a home as years practically wasted. The average man of small or moderate income becomes a saver only as he has a definite and desirable object in view. Few people, except misers, economize just for the joy of saving, but many a spendthrift is ideal for the suburb, the small town, family has learned to economize for of even the farm. It is surprising how | the real joy of having a home,
