Aerial Signposts

For some time past the British air ministry has been considering the question of providing identification marks at points all over the country for the convenience of airplane pilots. The first of these novel "signposts" is shortly to be established near Weydown common, Haslemere, where the ministry has rented a piece of ground sufficiently large to enable the name "Haslemere" to be outlined against the turf in large white letters.

Up till now only aerodromes have been indicated by this method, but it is intended to develop the identification scheme until every town and village will have its name inscribed at a convenient spot. Airmen will then have no need to carry maps, since the whole of Great Britain, seen from above, will be one vast map.—London Answers.

"I was reading along and didn't find anything interesting for quite a spell and was about to fling the paper down when I ran onto the account of a last chance sale of Shakespeare's books—

"If I don't buy 'em now I'll never get another chance!"

"Well, what about it?"

"I ain't a-going to buy 'em; that's all."—Kansas City Star.

Drugs Excite the Kidneys, Drink Water

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.
