BETTER SHOWING MADE BY GUN CLUB LAST SUNDAY

Scores Improved and Larger Attendance at Shoot

The performance of members of the Halsey Gun Club last Sunday was somewhat better than the preceding Sunday and the score in the Oregonian Telegraphic bettered by three birds.

The personnel of the three high men changed, Norton giving way to Jess Cross. The day was bleak and cold, so much so that it was with difficulty the shooters could perform. The scores so far are very gratifying and enthusiasm among club members growing.

C. P. Moody, president of the club, had the wind taken completely out of the sails of his frail little craft when his 11-year-old son, Cedric, turned in a score of 19 to his dad's 18.

The following shows the number of won and lost events of each club participating.

Won all six, Heppner.
Won five, tied one, LaGrande.
Won five, lost one, Klamath, Portland, Echo, Coquille.
Won four, lost one, tied one, Medford, Salem.
Won four, lost two, Halsey, Huntington.
Won three, lost two, tied one, Eugene.
Won three, lost three, Roseburg.
Monitor, Baker, Astoria, Enterprise, Bend, Pendleton.
Won two, lost three, tied one, McMinnville.
Won two, lost four, Bandon, The Dalles, Hillsboro.
Won one, lost five, Needy, Seitz, Union, Prineville.
Lost all, Toledo, Arling on.

If you smoke for pleasure

People might smoke some cigarettes for a lot of queer reasons, but they certainly smoke Camels for pleasure. And they smoke more Camels by billions.

McCormick - Deering No. 8 exactly meets the average farmer's combine needs!

THE size, weight, and economy of the No. 8 are just right for the average field and average power. The 10-foot cut puts grain into the bin with amazing speed—and saves as much as 20 cents a bushel on the job—yet the machine operates to advantage in ordinary fields and can be moved over bridges and through gates with no difficulty.

During the 1927 harvest the No. 8 established itself in hundreds of new communities. Grain growers who never considered the combine method before last year saw the No. 8 at work and bought because the savings it made were too great to be ignored.

The McCormick-Deering No. 8 Harvester-Thresher for 1928 offers a number of improvements and refinements that increase its efficiency, simplicity, and ease of operation. Ask Schultz Bros. for complete information concerning the No. 8 and other McCormick-Deering Harvester-Threshers.
