

Plenty of Power for the Hard Jobs

Everyone who has seen this compact, light weight tractor at work marvels at its power. We want you to see it—watch it in the field or at the belt—you will be surprised at the power of the

John Deere Model D Tractor

This 15-27 H. P. tractor weighs only 4,000 pounds—power ordinarily wasted in moving excess weight in the field is applied to the drawbar of the John Deere.

The John Deere is hundreds of parts simpler—it's the tractor of fewer and sturdier parts. Fewer moving parts reduce friction, one of the biggest power thieves in any engine. Belt pulley is mounted di-

rectly on crankshaft—no power loss.

All operating parts of the John Deere are automatically oiled and completely housed in a dust-proof case—oiling is positive, dust and sand cannot get in to cause friction, loss of power, and undue wear.

John Deere one-piece frame holds all units in permanent alignment.

The great power of the John Deere will surprise you. Drop in and see this sturdy tractor next time you are in town. Let us arrange a demonstration.

GOOD SHOT'ING IS MADE BY HALSEY GUN CLUB MEMBERS

Results Below That of the Sunday Before But Satisfactory

Members of the Gun Club who are taking an active interest in the state-wide contest being staged by Oregonians, were well pleased with the result of the event Sunday and while the score was under that of a week ago it was good. Usually the better shots are bunched and scores always run higher when this is done but Sunday the rail was filled as the contestants arrived. The afternoon was windy but visibility was near perfect and the club came out of the fray with the honors going to the same trio which made the clean break the Sunday before, namely: Drinkard, T. Hover and W. L. Norton.

If you smoke for pleasure

—here it is—taste, rich fragrance and mellow mildness. Camel is the cigarette that introduced the world to "smoking for pleasure."

You know in advance what the job will cost

when we service your Chevrolet!

We use genuine Chevrolet parts in all our repair work—parts made by the Chevrolet Motor Company, and subjected to the regular factory tests for quality and precision.

When you bring your Chevrolet to us for servicing, the work you want done is itemized on a standard repair order—and the charge for each operation is written in an opposite column.

This order must have your signature before any work is done—and no additional operations can be performed without your consent. Consequently, you know in advance what the job will cost—not just an estimate, but the exact amount.

It is possible for us to give you this exact information because we have standardized parts and labor charges for 300 different operations—covering every service job possible on a Chevrolet!

Bring your car to us regularly for inspection and servicing—and make sure of the highest quality of workmanship at low cost.
