

HALSEY ENTERPRISE

Published Thursday at Halsey, Oregon
H. F. and A. A. LAKE
Publishers

Entered at the postoffice at Halsey, Oregon, as second class matter.

\$1 a year in advance. Arrearages 12 1/2c a month. Stops when time expires unless continuance is ordered.

Advertising 25c an inch; no discount for time or space; no charge for composition or changes. Announcements of entertainments, food sales, etc., whose object is to raise money, charged at regular advertising rates. Announcements of religious meetings, not exceeding four inches, free if copy is received before Tuesday.

At the P.T.A. meeting held at the school house Friday night, the necessity of a larger gathering place was most forcibly felt.

A town so conveniently located and surrounded by such wide awake rural districts as Halsey, is indeed fortunate and a building sufficiently large enough to accommodate these districts in their joint meetings is the dire needs of this city, and it is hoped that by the coming fall such a building will be a reality. The progressive sentiment will lend its support to that end.

In a minority report opposing the farm relief measure, Congressman Clarke of New York last week turning a neat alliteration, declaring that the bill would "hamper, hinder, humiliate, humble and hamstring" the law of supply and demand.

It's going to be hard on some of the candidates who have been fixed ornaments in Washington so long, to leave their happy home and Muscle Shoals long enough to go back to their former place of abode and shake hands with the boys and smile at the girls.

Sandino has annexed an American gold mine down there in Nicaragua and took four U.S. citizens prisoner. We'll have to write him a note yet.

A good many ladies are great admirers of Secretary Work, thinking he is such a lovely bridge player.

A physician declares that fits are becoming more prevalent. Due probably to the survival of the fittest.

If the farmers ever get as excited over farm relief as the politicians are, look out!

Oregon Day Program May 1st

A program observing Oregon day will be broadcast by KOAC the evening of May 1, from 7:30 to 8 o'clock. "Organization of the Provisional Government," is the subject of a talk by Dr. J. B. Horner, professor of history and director of Oregon historical research at the college. Appropriate readings and musical selections that are of Oregon or by Oregonians round out the program.

Boys and Girls

At the age of eight, Robert Wadlow of Alton, Illinois, is six feet two and one-half inches tall and weighs nearly 200 pounds.

Robert E. Lee, 4th, aged 5, unveiled the carved head of his great-

grandfather, General Robert E. Lee, on Stone Mountain, Georgia.

Clothilde Mirabella, 15, made her debut as a grand opera star in "The Barber of Seville" in New York City.

Helen Norris, a paralytic mountain girl of this state, has written a radio play which was produced by station KGO of Oakland, Cal.

Guila Bustabo, 11-year-old violin prodigy, recently made her debut as soloist with the Chicago Civic Orchestra, winning high praise.

Barbara Chisholm, 14, was acclaimed the best girl rider in the United States at a recent horse show in Aiken, S. C.

This is General Motors Proving Ground

A birdseye view of the 1245-acre Proving Ground maintained by General Motors to assure the quality and value of its cars and trucks.

1. Entrance to the Proving Ground. The group of buildings includes complete experimental and service shops, engineering offices and comfortable living quarters for resident and visiting engineers and for the driving crews. The Proving Ground personnel numbers more than 200 men.

2. The 4-mile high-speed loop. The largest in America, made of concrete, with turns banked to permit continuous high-speed operation. In addition, the Proving Ground has two concrete straight-aways 1 1/2 miles long, as level as a billiard table, and miles of brick, tar, gravel and dirt roads which reproduce every driving and weather condition.

3. The hill-test road. Test hill grades at the Proving Ground range from 7.26 per cent to 24 per cent. The grades on public highways seldom exceed 7 per cent.

4. The "bath-tub." A depressed concrete roadway which is filled with water at varying depths to reproduce flooded roadway conditions.

Here each General Motors car must prove its value

ON a 1245-acre tract near Milford, Michigan, convenient to all its car and truck divisions, General Motors has the first and largest proving ground for automobiles.

Here tests are made and facts determined to a degree impossible when cars and trucks are tested on the public highways. Here each new model of General Motors must prove itself, point by point, before it is produced for sale to the public.

More than 135 different tests are applied to each car tested at the Proving Ground.

They involve every phase of construction and performance: power, speed, endurance, acceleration, braking, steering, handling, riding comfort, fuel economy and so on. In three months a car or truck covers more miles than you would drive it in three years.

The Proving Ground is another example of how General Motors is serving the public. It is also your assurance that when you buy a General Motors product you are getting all possible quality and value at its price and the advantages of a policy of continuous improvement.

CHEVROLET. 7 models, \$495 to \$715. Bigger and better than ever before. 4-wheel brakes. Longer wheel base. Still more powerful engine. Luxurious Fisher Bodies. Shock absorber springs. New hood. New Duco colors. New instrument panel and other improvements. ALSO truck chassis: 1/2-ton, \$395. 1-ton, \$495.

OAKLAND. 9 models, \$1045 to \$1375. The All-American Six. Advanced engineering and precision construction. Longer, lower and more beautiful. Bodies by Fisher. Every convenience. 4-wheel brakes. New Duco colors. Harmonic balancer.

CADILLAC. 26 models, \$3295 to \$5500. "What," General Motors asked last year, "can possibly be done to improve Cadillac?" The result is embodied in the new models now on display, representing the high-water mark of Cadillac's long history. Sumptuous bodies by Fisher and Fleetwood. 500 color combinations to choose from.

PONTIAC. 8 models, \$745 to \$875. The lowest-priced quality "six." Improved from radiator to tail-light. For example: 4-wheel brakes, new GMR cylinder head, increased power, locking device, more luxurious Fisher Bodies. Finished in Duco in new colors.

BUICK. 16 models, \$1195 to \$1995. The largest value in Buick's famous history. Beautiful low bodies by Fisher. Getaway like an arrow from a bow. Vibrationless beyond belief. Famous 6-cylinder "Valve-in-head" engine. Sealed-in chassis.

FRIGIDAIRE—The Electric Refrigerator. General Motors has applied the processes which have made the automobile available to every family, to the production of electric refrigerators. Frigidaire is the refrigerator made by General Motors and it is now the world's largest selling product in its field.

OLDSMOBILE. 7 models, \$925 to \$1085. Entirely redesigned by General Motors, the new Oldsmobile has earned the title of "The Fine Car at Low Cost." Longer, roomier, more powerful—and the last word in styling. Fisher Bodies. 4-wheel brakes.

LASALLE. 16 models, \$2350 to \$2975. This beautiful car was designed as companion car to Cadillac. Has V-type 90 degree 8-cylinder engine which has made Cadillac the standard fine car of the world. Built in Cadillac factory. Continental in appearance.

DELCO-LIGHT Electric Plants. Provide the conveniences and labor-saving devices of the city for the farm. Electric light and power—plants, water pumps, etc. Used in more than a quarter million homes.

For the convenient purchase of these products, General Motors offers the standard low-cost GMAC Plan.
