By means of a third lever, powerful pressure spring and pivoted yoke, the gangs can be instantly adjusted to keep an even depth under all conditions. When overlapping you can equalize the resistance by increasing the angle of the gang working in soft ground. This prevents crowding and insures even work.

The Model B is practically all steel; riveted construction—no bolts to work loose or drop out. Gang frames are built with double bars, rigidly braced with steel cross plates and end ties. Rear section can be furnished to make a double-action, horse- or tractor-driven harrow.

Drop in next time you are in town and examine the Model B.

## The Most Misunderstood Woman In American History

Who knows Lincoln—the Suitor—the Husband—the Father? Who knows the story of his marriage to Mary Todd and their later trials and triumphs.

Only a small group of intimate relatives have had access to Lincoln's heart and home, and now these relatives—the family of Mary Todd—have broken the silence of sixty years to write this great romance, the story of "Mary, Wife of Lincoln," by Kate Helm, her niece. The first big installment of this touching, tragic story will appear in the May number of McCall's Magazine.

Mary, Wife of Lincoln, is first of all a great romance! It is one with the romances of old that will live through the ages—a story that will awaken the sympathies and stir the hearts of all its readers.
