

POULTRYMEN SEE FUTURE FAR MORE ENCOURAGING

The largest crowd ever to attend the annual poultrymen's convention at Oregon Agricultural college compared reports from Oregon and Washington and agreed that in both states the low point in the industry has been passed, though the day when slipshod methods or small volume of business will make money is also passed if it ever were here. Bad markets have squeezed out the "in and outers" leaving the situation better for the skilled breeders and egg men.

Market possibilities for large, white, light-yolked eggs are bright but not for the poorer grades. A total of 281 men and women registered, and stayed for two days of educational program, exhibits and demonstrations. M. S. Schrock, Milwaukee, was elected president and F. L. Knowlton, Corvallis, secretary-treasurer. A straw vote taken on the national election resulted in four to one for Hoover.
