Radium

Radium, discovered only a few years ago, is the most wonderful and mysterious of the elements. Radium alone has the power within itself to produce heat with no help from outside and though it is so very rare, there is enough heat produced from radium in the earth to equal and offset the heat the world has been losing for many years.

Mr. and Mrs. E. B. Penland and two grandchildren, Gertrude and Frederick Robins, left this morning for Moro, Oregon, for a visit with relatives. Miss Gertrude will stop off at Warrendale and visit an aunt until the return of the party.

Tennesseans Have Delightful Time

Last Sunday the members of the Tennessee association of Linn and Lane county held their fourth annual picnic at the Brownsville city park with a large number of former residents present.

J. R. Fox, president of the association, presided, and much of the success of the meeting was undoubtedly due to his untiring efforts to arrange a program that would be pleasing to both young and old.

The crowd commenced to arrive about 10:30 and the renewing old friendships and the meeting of new friends took up the time until noon.

In the meantime the women had been busy and the long tables had been set and were fairly groaning with their load of good things to eat.

A concert by the Brownsville band followed the dinner, and the band boys were given a rousing vote of thanks as a token of the appreciation of the visitors for their kindness.

The address of the day was given by Houston Gamble of Lebanon. Helen Hale sang "Maid of West" with "The Rainbow Trail" as an encore. Thelma and Myrtle Fox, daughters of Mr. and Mrs. J. R. Fox, pleased the audience with a piano duet, "Mirthful Moments" followed by "On the Stage" for the encore. Mrs. Locket Talbert Carlson and Willis Hale each gave a group of readings which were well received.

Adrian Sias of Eugene sang several negro melodies, (he is good at that), and Rev. Shelly gave a short address. E. W. Sadyer played when "Irish Eyes are Smiling" and "An Old Refrain" on a hand saw. The last number on the program was a song, "I aint-a Gwine to Grieve my Lord no more," by a quintet composed of Adrian Sias, Jim Fox, Helen Hale and Thelma and Myrtle Fox, with the band boys joining in the chorus.

North Dakotans to Picnic At Corvallis Sunday, Aug. 12

The annual state picnic of former North Dakotans will be held in the Corvallis city auto park Sunday, August 12. F. S. Chamberlain is president of the association.

An elaborate program, including vocal and instrumental selections, has been worked out, which will begin at 2:30 o'clock. A basket dinner will be spread at 12:30 with coffee, sugar and cream furnished by the Corvallis members of the association.

The Corvallis auto park, located on the Pacific highway at the Mary's river bridge, in the city limits of Corvallis, is sufficiently large to care for the crowd. There is lots of shade, a natural amphitheatre and plenty of parking space. Boating and swimming are also available at the park.

Details have been worked out to insure a successful picnic. Traffic policemen will direct parking of cars and give information. Corvallis hopes for a large turnout of former North Dakotans, feeling that it has an ideal central location and facilities.—Gazette-Times.

We don't believe the weather is as warm as some think.

Plants' Digestive Functions
The green coloring matter of plants called chlorophyll acts much the same as the gastric juice on the food we eat. Digesting the carbonic acid absorbed by the leaves of the plant, it separates the oxygen from the carbon, throws off the oxygen, and the carbon, which, mixed with water, forms the starch so necessary to plant life.

BLAMES INCOME TAX AND SIX PER CENT LIMITATION

A formal statement by Thomas B. Kay charges that the income tax act of 1923, and the consequent disturbance of the state's tax levying base under the 6 per cent limitation of the constitution are responsible for the present state deficit. In the statement he takes the position that the farmers of the Grange labor income tax bill to be voted on next November have not been fair because they have failed to provide for restoration of the base and because the bill removes "practically all sources for additional revenue."

Cooperative Experts Pleased With Outlook in Th's State

By John C. Bartner.
Oregon has much to be proud of and very little to apologize for in the present condition of cooperative marketing in this state. This, at least, is the opinion of a group of widely traveled and studied specialists which has just completed a four day tour of some of the leading cooperative centers of the state's guests of the Oregon Cooperative council of which E. J. Dixon, Portland, is president.

Thirty men who had attended the fourth annual session of the American Institute of Cooperation in Berkeley, California, comprised the group which was welcomed to this state by Paul V. Maris, director of the extension service of the state college and chairman of the Oregon committee on arrangements. The men represented eastern and middle western cooperatives, educational institutions and government bureaus.

Cooperative community spirit and the evident efficient management were factors impressing the visitors here as they made the swing through the northwestern section of the state visiting plants at Eugene, Tillamook, Dundee, Springbrook, Portland, Gresham and Hood River. The fine attitude of the members and directors was especially commented upon.

That farmers in the communities where strong cooperation exists are more prosperous and more contented as a class was remarked by many who made the trip. This distinction was more noticeable in proportion to the age of the organizations. Incidentally, some of the visitors said the reputation of such Oregon concerns as the Tillamook county creamery association, the Pacific Cooperative Wool Growers, and the Hood River Fruit Growers association had permeated the entire country and even the world, and was instrumental in getting them to make the Oregon tour and study methods used here.

Oregon's "greenland" scenery made a decided hit with the visitors, many of them expressing amazement at the beauty and grandeur of the scenic highways here which they said exceeded anything encountered elsewhere.

Bonita Tussing returned to Portland Sunday after having been in Halsey to spend her vacation at the home of her parents, Mr. and Mrs. A. A. Tussing.

Mrs. George Stiffney and son Pete who with the former's parents, Mr. and Mrs. Horney, of Madison, Wisconsin, have been visiting at the Crock Isom home in Brownsville, were in Halsey Saturday morning, leaving here at noon for their home in the east. They are former residents of Halsey, leaving here in 1900. This is their first visit here since 1905. The Horney's remained for a longer visit.
