Has Splendid Record in Planting Trees

During the last fifteen years Thomas Luther, champion planter of the American Tree association, has planted 8,000,000 trees in Saratoga county, New York. What was formerly a scarred and deforested area, victimized by ruthless lumber cutters, is now well on its way toward being the greatest private forest in the country. "For every tree planted in the United States," says Mr. Luther, "four are cut down. And for every four trees cut down in Europe, twelve are planted. We are faced by different problems, of course, but nevertheless the figures are instructive. . . . It is my ambition to spread the doctrine of practical forestry in the United States, and by practical forestry I simply mean selective cutting and conscientious replanting."

With a Thomas Luther in every state, the noble theory of conservation would come dangerously near getting a practical trial.

Study to Improve Bowling

Science has been making an analysis of bowling to determine the rate of speed of the balls, how much they curve and other interesting factors about them, says Popular Mechanics Magazine. Dr. L. W. Taylor of Oberlin college has devised an apparatus whereby the passage of a ball is registered to the hundredth of a second at twenty-inch intervals down the alley. A catapult is used to propel the ball. From facts so far learned, some of the accepted theories with regard to a ball's motion have been found incorrect, but friction seems to vary with the speed.

Umbrella Collector

A very absent-minded man, accompanied by his wife, was returning home from the theater.

As they reached the door of their suburban home the man clutched his wife's arm.

"Now who is absent-minded?" he cried triumphantly, producing two umbrellas from under his arm. "You've forgotten your umbrella, but I've mine and yours as well!"

The woman gazed at him plyingly. "Idiot!" she exclaimed. "Neither of us had one."

Teaching Value of Rice

Although Hamburg is the chief port of the world's rice shipping, the people of the city and of Germany generally consume comparatively little. Rice interests now are conducting a nation-wide campaign to increase the per capita consumption by distributing handbills showing the food value of rice and booklets telling how to prepare it.

A Correction

Mr. Laurels—Does it not move you strangely, to watch the moonlight shimmering on the lake?

Miss Gazippe—You said it! But, say you mispronounce that word. Didn't you mean, "the moonlight shimmering on the lake?"

Fair Enough

Oak Always Prized
"Sturdy as an oak." What school boy doesn't know this monarch of the forests as the symbol of strength and character? In a multitude of hallowed associations, oak has rooted itself deep in the affections of man and from the earliest days of recorded history to the present time has been highly valued for its utility and beauty with the widest range of use of any known wood.

WHAT DR. CALDWELL LEARNED IN 47 YEARS PRACTICE

A physician watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It can not harm the system and is not habit forming. Syrup Pepsin is pleasant-tasting, and youngsters love it.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for anybody's system. In a practice of 47 years he never saw any reason for their use when Syrup Pepsin will empty the bowels just as promptly.

Do not let a day go by without a bowel movement. Do not sit and hope, but go to the nearest druggist and get one of the generous bottles of Dr. Caldwell's Syrup Pepsin, or write "Syrup Pepsin," Dept. B, Monticello, Illinois, for free trial bottle.

Perfectly Sweet

"Do you think Liz minded that awful lawsuit she was mixed up in?"
"Why, my dear, I think she rather enjoyed it—I know she told me they had a grand jury!"

Lydia E. Pinkham's Vegetable Compound Helps Her So Much

Cleveland, Ohio.—"I sure recommend Lydia E. Pinkham's Vegetable Compound to any woman in the condition I was in. I was so weak and run-down that I could hardly stand up. I could not eat and was full of misery. A friend living on Arcade Avenue told me about this medicine and after taking ten bottles my weakness and nervousness are all gone. I feel like living again. I am still taking it until I feel strong like before. You may use this letter as a testimonial."—Mrs. ELIZABETH TOSO, 14913 Hale Ave., Cleveland, Ohio.

Isolate Drunkards

In northern Russia chronic drunkards are given the same treatment as persons suffering from smallpox or any other pestilence. They are confined as a menace to health and life of the community.

ATWATER KENT RADIO

Of course you're going to hear Hoover and Smith

THANKS to radio, they expect to talk directly to every voter in the United States. Where is the family that can afford to be without a good radio set in this most interesting of Presidential years?

When Smith and Hoover go on the air, you can count on Atwater Kent Radio. Its reliability, its power, its range, its simplicity of operation, as well as its clear tone, have made it the leader everywhere. It comes from the largest radio factory, where workmanship is never slighted. It is not an experiment. You don't have to take it on faith. It is the fruit of twenty-six years' manufacturing experience—six years of radio.

Nearly 1,700,000 owners know that the name Atwater Kent on radio means the same thing as "sterling" on silver. Whether or not your home is equipped with electricity, there is an up-to-date Atwater Kent model to carry on the Atwater Kent tradition of giving the finest reception at the lowest price.

The Atwater Kent electric sets require no batteries. A cord from the compact, satin-finished cabinet plugs into any convenient lamp socket and the current costs only about as much as the lighting of one 40-watt lamp.

RADIO

MODEL 40 A. C. set. For 110-120 volt, 50-60 cycle alternating current. Requires six A. C. tubes and one rectifying tube, F77. Also Model 42, with automatic voltage regulator, \$86, and Model 44, an extra-powerful "distance" set, \$106.

The Atwater Kent battery sets have won their reputation for fine performance in 1,400,000 homes—and now both models are again improved for 1929.

From the orange orchards of Southern California to the potato fields of Maine, Atwater Kent Radio is far and away the preferred choice of rural families. The nearest Atwater Kent dealer will gladly show you why, and will advise you in your selection of the model best suited to your needs.

Campaign year! You'll need good radio as you never did before!
