

Pacific Cooperative Poultry Producers Continue Business

The Pacific Cooperative Poultry Producers will continue to operate as more than enough hens have been signed up to make the new contract effective January 1, 1929. To date (December 20) more than 80 per cent of the present membership have signed the new contract and in addition to this, many poultrymen who never were affiliated with the organization are signing. The association will lose some members in Clark county, Washington, due to a territorial agreement between the Oregon and the Washington associations. Under this agreement the Oregon association withdraws from the northern half of that county, and the Washington association from the southern half. This remarkable re-signup, indicating as it does that we will have more hens under contract this coming year than we had last year is testimony to the poultrymen's appreciation of the fact that the only chance they have to survive is by acting collectively in marketing the commodity which they produce, in other words, cooperating in the disposition of their product. The association is in fine financial condition, and we will close the year with a surplus of close to \$100,000.00. At the meeting of the board of directors today, the customary 6 per cent dividend on Common Stock was declared.—Eggsaminer.

Influenza Preventive Measures

Now that influenza is epidemic in this state, it is well to know how to treat this disease and how to control it, says Frederick D. Strickler of the state board of health. Both the cure and prevention of influenza depend on knowing the cause. The best way to keep from taking influenza is to keep away from people having this highly contagious disease.

When you feel an attack of influenza coming on, take a laxative and a glass of hot lemonade and go to bed early. Eat lightly, drink water freely and stay in bed until all symptoms have disappeared. Isolate yourself. Do not kiss or even shake hands. Just because some one has passed this disease on to you is no excuse for your being careless. This is not a spectacular course of treatment nor will it produce striking results, but it will cut down greatly the chances for complications, such as pneumonia and other infections, says Mr. Strickler.

The streptococcus hemolyticus is usually unable to invade the healthy body but gains entrance in persons who are run down by influenza. Streptococcus pneumonia is a very serious complication and the chances of pulling through after this infection has invaded the body are none too good.

The importance of calling in a physician early can not be too highly emphasized. Many of the complications of influenza can be prevented by proper treatment. For the sake of others it is well to remember that influenza is a contagious disease and it is up to you to keep it to yourself. Use your handkerchief and prevent spread of the disease. Sneezing and coughing spray out droplets of moisture loaded with germs and anyone nearby is certain to get a good dose of this. If you have influenza go to bed and isolate yourself, says Mr. Strickler.

Any one finding a small white and black pup please notify the Enterprise office.

1929
May all the joys of life be thine
In nineteen hundred twenty-nine.
May love and hope and peace entwine
And make thy heart a happy shrine,
With good deeds may our lives combine
As clings to oak the ivy vine,
That after us there still may shine
A record made true to the line
Of justice, truth and mercy.

They Don't All Wash Dishes At College, Says Lulu Howard

Corvallis, Dec. 26.—They don't all wash dishes. Joe College is becoming more versatile each year in earning his way from ruck to senior in the opinion of Mrs. Lulu Howard, employment secretary with the Oregon State college Y. M. C. A. College statistics for a number of years show that approximately 51 per cent of the men and 20 per cent of the women are entirely self supporting. In addition, 39 per cent more of the entire student body are partly so. The methods used by these aspiring students during the college year to supplement their summer savings are both varied and odd. George Hartley, 16-year old freshman from Portland, who says he will not be satisfied until he finishes his undergraduate work and then goes on for a doctor's degree in law, works in a Corvallis barber shop in his spare hours and then plays the drums in a campus orchestra on week end nights. James B. and Robert Brown brought a pair of cows with them to college and started producing and selling certified milk. At the start they performed all the duties from milkmaid to business solicitors, but their business has expanded to such an extent that they now hire extra student help. A representative of a shoe company, Sterling Behnke, another Portland student, carries his sample case around to the various fraternities and halls, taking orders for collegiate footwear. Fraternity men are naturally hospitable, he finds, so he accumulates many a free meal in addition to the business. From these two sources of income Behnke is making his entire college expenses. And so it goes. One student runs a popcorn stand. Another takes orders for a local photographer, others sell clothing, operate home photo finishing shops, or do a bit of tutoring on the side. They don't all wash dishes!

J. W. Mullen and Associates Take Over Sickels Mines

J. W. Mullen and associates have taken over the Sickels Silver mines in the Wallapai mountains in Arizona, according to an article in the Kingman (Arizona) Miner. The Sickels Silver property is quite important, there being a large tonnage of excellent ore on the dump and in sight in the various openings. For several years Mr. Sickels has been at work on the mines and has developed them through tunnel and shaft to a depth of about 200 feet, a large ore body being opened on the tunnel level. This ore carries values in silver and lead. The taking over of the Sickels Silver property is one of the important events of the Wallapai. Mr. Sickels who is a brother of Chaney Sickels of Halsey, is well known here and formerly lived here.

Mrs. Frank Gansleard daughter Leila have been spending the past several days at the home of the former's parents in Oregon City. Mr. and Mrs. Kenneth Cross of Albany spent Christmas in Halsey at the home of the former's mother, Mrs. E. A. P. LaFollette. John Porter and daughter, Mrs. Edith Robnett of Halsey were also guests. Mrs. Lou Browne of Portland came up Saturday evening and remained until Tuesday evening at the home of her mother and sister, Mrs. Mary Allan and Mrs. Fayette Lake. Charles Goltra and family of Albany were guests on Christmas day at the same home.
