

**OLD FOLKS SAY
DR. CALDWELL
WAS RIGHT**

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice.

He treated constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, a combination of senna and other mild herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle will last several months, and all can use it. It is pleasant to the taste, gentle in action, and free from narcotics. Elderly people find it ideal. All drug stores have the generous bottles, or write "Syrup Pepsin," Dept. B3, Monticello, Illinois, for free trial bottle.

To Cool a Burn

Braking Time

Pearl White, the former movie star, was about to sail for her Paris home after a visit to America, and in answer to a reporter's questions she said:

"It's safety first with the movie stars nowadays. Why, if they have to skip a rope they hire a double. It wasn't so in my time."

"Yes," Miss White ended, "our movie stars aren't what they were ten or fifteen years ago. Some of them, in fact, are quite two years older."

Pigeon Made Time

A pigeon bent a telegram from Hinsdale to Sanford, Maine, in a 100-mile race of the Sanford, Maine, Racing Pigeon club. A telegram from Hinsdale stating that the pigeons had started was delivered in Sanford twelve minutes after the first bird had arrived.

Should Sunday clothes make you feel more religious, by all means wear them.

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

DAIRY FACTS

PREVENT LOSS BY CLEAN HANDLING

Souring Is Caused by Bacteria After Milking.

Clean production, prompt cooling, and frequent deliveries will prevent the souring of milk and will put dollars in the pockets of dairy farmers.

"This souring is caused by bacteria which get into the milk after it is drawn from the cow and can only be prevented by the most careful handling," says John A. Arey, extension dairyman at North Carolina State college.

When first drawn from the cow, milk contains very few if any of the bacteria and the contamination comes from outside sources. Chief among these are the cow's body, the hands of the person doing the milking, the air and the containers.

Mr. Arey states that all of the sources can be eliminated by seeing that the cow's flanks and udder are thoroughly cleaned before milking, that the milker's hands are clean, and that all vessels or containers have been cleaned and sterilized.

These containers should first be rinsed in lukewarm water and then scrubbed with a heavy brush in water to which has been added a strong alkali solution. They should then be sterilized with live steam or some chemical made for that purpose. All utensils in which the seams are not well flushed with solder should be avoided as these crevices are hard to clean and furnish a harboring place for bacteria.

The milk should be cooled as soon as possible after milking, placed in the containers in which it is to be delivered and stored in a refrigerator or cooling tank. Only by taking these precautions can the dairymen prevent the milk from souring and be sure of delivering pure, sweet milk to the market, states Mr. Arey.

Give Dairy Cows Silage With Their Winter Feed

Corn silage is the best and most economical way of providing cattle with the succulence necessary in dairy feeding, says the New York State College of Agriculture at Ithaca, New York. Some way must be provided to carry pasture conditions over into winter feeding and silage is the best form of succulence to be provided.

Good legume hay with a succulent feed furnishes a combination of protein, minerals, and succulence which comes as near as possible to pasture conditions. This palatable and bulky feed is good for the digestive tract, and is economical as a source of carbohydrates. Corn silage stimulates the appetites of the animals so that they do not easily go off feed; they consume larger amounts of roughage than when fed on hay alone.

Get Cow Into Condition During Its Dry Period

Largest profit during the milking period may be expected only from cows that have been gotten in good condition during the dry period. Cows that are thin at calving time never have an opportunity to do their best.

Silage and a legume hay are the best foundation of a ration for the heifer or dry cow. The fitting ration should be fed liberally (from 7 to 12 pounds per day) for a period of four to six weeks before calving excepting that when within a week or ten days of calving it is best to change to a lighter and milder laxative ration. Equal parts of corn or hominy feed, wheat bran, ground oats, and from 10 to 25 per cent of linseed oil meal approaches the ideal as a grain mixture for the preparation period.

Dairy Facts

It doesn't pay to overfeed. Over feeding usually leads to digestive disorders that play hob with the calf.

Inch board overlays or cork brick floors under cows insure against many udder troubles which arise from cold concrete floors.

Experiments at different experiment stations show that ground corn is worth 16 per cent more than whole corn when fed to dairy cows.

Slimy, stringy, andropy milk are all caused by bacteria. Such bacteria may come from water or ice, and cows after wading through surface water may carry these bacteria on their bodies to the barn.

Sweet clover pastures seem to give best satisfaction to dairymen who supplement the pasture with silage, hay or grain.

Grooming cows will directly or indirectly prove profitable. It improves the quality of the milk and affords satisfaction to the owner.

Particular care must be taken of milk and cream. They should be kept in a cool place in earthen or glass containers, and should be covered as not to absorb any sort of odors.

WHEN IT LOOKS DARK to any weak, nervous or ailing woman, Dr. Pierce's Favorite Prescription comes to her aid.

Women in every walk of life today say Dr. Pierce's Favorite Prescription is a reliable medicine. It is made from roots and herbs, sold by druggists, in both fluid and tablets.

Mrs. Helen Simpson, 571 E. 8th Ave., Eugene, Oreg., said: "When a girl growing I suffered from functional disturbance and was weak and nervous. I got so thin and pale that my people thought I was going into a decline. My mother had taken Dr. Pierce's Favorite Prescription when she was a girl and it benefited her so much that she gave it to me and after taking this medicine I grew well and strong and developed into womanhood without any more trouble."

Send 10c for trial pkg. tablets to Dr. Pierce's Invalids Hotel, Buffalo, N. Y.

Not the Garden Variety

A young Italian not long from the land of Mussolini is a waiter in a downtown restaurant. Recently a customer sat down to dinner and inquired as to the bill of fare.

"Well, Joe, what tonight?"

"We have dock," the waiter replied.

"Dock? You don't mean dock like we used to dig out of the garden?"

"No, dock—like a goose—only dock!"—Indianapolis News.

Not even the featherweight likes to be called down.

How to Avoid INFLUENZA

Colds Nothing you can do will so effectively protect you against Colds, Influenza or Grippe as keeping your organs of digestion and elimination active and your system free from poisonous accumulations.

Nature's Remedy (R) Tablets does more than merely cause pleasant and easy bowel action. It tones and strengthens the system, increasing resistance against disease and infections.

Banana and Wisdom

"Fruit of the wise" Linnaeus called the banana, says the Nature Magazine, because tradition has it that when Alexander the Great crossed into India he found the pundits discoursing under the shade of its giant foliage.

Covetousness is a sort of mental gluttony.—Chamfort.

When Food Sours

Lots of folks who think they have "indigestion" have only an acid condition which could be corrected in five or ten minutes. An effective anti-acid like Phillips Milk of Magnesia soon restores digestion to normal.

Phillips does away with all that sourness and gas right after meals. It prevents the distress so apt to occur two hours after eating. What a pleasant preparation to take! And how good it is for the system! Unlike a burning dose of soda—which is but temporary relief at best—Phillips Milk of Magnesia neutralizes many times its volume in acid.

Next time a hearty meal, or too rich a diet has brought on the least discomfort, try—

PHILLIPS Milk of Magnesia

SAFE! SURE!

From Baby Days to Manhood His Mother Guarded Him

"My son, now a grown man, still uses Glessco for coughs and colds. When a baby I overcame a cold for him which had hung on all winter," writes a grandmother from Maine.

From baby days to old age coughs and colds can easily be broken up and stopped—croup can be relieved without vomiting and whooping cough eased and lightened—good health guarded by Glessco—a physician's prescription, time-tested and proven. Ask any doctor—any trained nurse—about its beneficial properties. Try it in your own home and know how quickly, safely and surely it acts. Then keep it always at hand for every member of the family. Contains no opiates. Your druggist or general store has Glessco.
