Man proposes but woman disposes.

If we could only hear one another's faults.

Woman's face is the beauty specialist's fortune.

Man is the only animal that can be skinned more than once.

The most important automobile brake is under the driver's hat.

Vegetarians are men who are able to smoke the cigars of today.

Courtship is the period of bonbons. Marriage is the period of groceries.

"Half of life's unhappy endings could be avoided by not demanding too much."

There is a Beaverton man who claims he never sweats unless the paper doesn't come.

A hick town is a place where getting across the street isn't a sporting proposition.

Some fellows can put in half the morning filling a fountain pen or cleaning a pipe.

Home is a place where we can eat things we would be too proud to order in a restaurant.

Many a man keeps his nose to the grindstone so his wife can turn hers up at her neighbors.

Another thing that makes the motorist pity the cow is that she has two horns and can't blow them.

Considerable autoists might at least pad the bumpers with which they hit the poor pedestrians.

Most of the society buds whose pictures are printed in the papers seem to be demonstrating silk hose.

No mother ever nurses a baby with more care than a man nurses the lost dozen hairs on his dome when he finds he is almost bald.

Many a man keeps his nose to the grindstone so his wife can turn hers up at her neighbors.

Johnny—"People who drink moonshine diadem sight quicker than those who don't."

There is a perpetual Sabbath on earth. The Greeks observe Monday, the Persians Tuesday, the Assyrians Wednesday, the Egyptians Thursday, the Turks Friday, the Jews Saturday and the Christians Sunday—sometimes.

East Winds and West Wind blow, Pung, Chow is all I know; Oswatonia won't let me go. Who threw that brick?

KIDDING KIPLING A fool there was, and he saved his rocks, even as you and I; but he took them out of the old strong box when a salesman called with some wild-cat stocks, and the fool was stripped down to his socks, even as you and I.

Household Dept.

VALUABLE HOUSEHOLD RECIPES AND SUGGESTIONS

Banana Cake—One cup butter, two cups sugar, one cup water or sweet milk, three eggs, four cups flour, three small teaspoons baking powder. Mix lightly and bake in layers. Make an icing of the whites of two eggs, and one and one-half cups powdered sugar, spread this on the layers and then cover thickly with bananas, sliced thin. This cake may be flavored with vanilla. The top should be simply frosted.

Oatmeal Cookies—One cup of oatmeal soaked in two cups of milk, two cups sugar, two-thirds cup butter, one-half teaspoon of salt and soda, flour to make a dough; roll thin, cut out, and bake quickly.

Variety comes from serving common foods in a variety of ways. Do you know twenty ways of serving carrots?

Neither meat, fish, cheese, eggs, or beans are needed in a meal where plenty of cottage cheese is served.

A good one-dish meal—Arrange a baking dish of potatoes to be scalloped; lay a slice of ham three-fourths of an inch thick on top of the potatoes; and bake until both are tender.

To glorify a humble bread pudding—Spread the top, after baking, with a thick layer of good homemade jelly or jam, then pile a meringue on that and brown in the oven. The family won't recognize it.

Ribbon Cake—Two cups sugar, one cup butter, one cup sweet milk, one teaspoonful cream of tartar, one-half teaspoonful of soda, four cups of flour, four eggs. Reserve one-third of this mixture and bake the rest in two loaves of the same size. Add to the third reserved one cup of raisins, one-fourth pound of citron, one cup of currants, two tablespoonfuls of molasses, one teaspoonful each of all kinds of spice. Put the three loaves together with icing or currant jelly, placing the fruit loaf in the middle. See the top and sides.

CREAM FOR CATARRH OPENS UP NOSTRILS Tells How To Get Quick Relief From Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sneezing, sniffing, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh will be gone. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

MICKIE, THE PRINTER'S DEVIL

Nard Grungebread—Two table-spoons melted butter, two of hot water or milk. Put in a cup and add with two teaspoons molasses, one teaspoon baking powder. Mix and bake to roll out.

Ground Cake—Cream one lb. of butter with one pound crushed loaf sugar; whip eleven eggs, leaving out the whites of four; sift in one pound of flour, one cup water, a little nutmeg. Mix these well. Butter a pan and bake three quarters of an hour.

WALNUT AND FILBERT CROWERS MEET

Ninety to one hundred persons were in continuous attendance at the walnut and filbert growers' meeting at Forest Grove in the Chamber of Commerce Rooms a week ago Saturday.

Dr. R. P. Nixon was the first speaker introduced by Chairman D. G. Lilly. Dr. Nixon discussed filbert growing at length, calling attention to the essentials of successful culture. He recommended the Barcelona variety with ten per cent Duchillys and two or three White Avelines and Davians per acre as pollenizers.

A large number of questions were directed to Dr. Nixon on filbert growing and were answered to the satisfaction of those gathered. In the course of the discussion Dr. Nixon displayed the statement said to be in circulation that the Barcelona needs no pollenizer. It is the unanimous opinion of experienced growers that only failures would follow the planting of Barcelonas without the proper pollenizers.

Home K. Kruse, a filbert grower of Clarkamas County, next spoke on filbert culture. He mentioned that filberts needed deep, rich land, either hill or valley land just so that it is well drained. He stated that the West thus far had no competition in filbert growing as Eastern points are reported as being badly affected with filbert blight. He called attention to the 28,000,000 pounds of filberts imported annually into the U. S.

In preparing land for filberts, Mr. Kruse said "Prepare the land for filberts just as you would prepare it for a 100-bu. per acre crop of corn."

Mr. Groner was the first speaker of the afternoon session, speaking on "Income and Production as Related to Walnut Growing." Mr. Groner stated that walnut orchards do not bear in proportion to age but in proportion to size; in other words, all orchards do not develop the same. Much depends upon the kind of land and care given by the grower. No crop of walnuts should be produced until the trees are five years old, according to Mr. Groner, as early crops retard the growth of the trees. Mr. Groner suggested growing inter-crops such as clover, rape, corn, squash and turnips in the walnut orchards but that eight feet each side of the row of trees should be cultivated. This practice, he said, he did not consider injurious to the trees, and provided an income while waiting for the trees to come into bearing.

SAGE TEA TURNS GRAY HAIR DARK It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wych's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair. Everybody uses Wych's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a strand or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

During the noon hour a committee consisting of John Thornburgh, Dr. Nixon, D. G. Lilly and Ferd Groner, considered the report of the walnut and filbert growers' division of the recent Economic Conference held at G. Falls. This report was adopted as a guide for Washington County with the following addition: "The committee calls attention to and deplores the planting of unreliable filbert and walnut stock. Only the best varieties of proven walnut and filbert stock should be planted."

REPORT OF COMMITTEE ON NUT GROWING

The nut industry of Oregon will be confined to markets in the United States due to the low production cost in foreign countries. The United States is producing but a part of the requirements for the nut trade. With the high quality and good yields possible to obtain in Oregon and by the aid of marketing organizations at hand, it would seem for future planting of nuts that:

1. For some time to come there will be a place for a moderate planting of walnuts and filberts in the State of Oregon.

2. The districts and locations should be as follows: WALNUTS: In the Willamette and Umpqua valleys.

In general the planting to be placed on a rolling foothills with soil at least 5 or 6 feet deep, fertile and well drained. Their elevation above 1000-1200 ft. is hazardous. The air drainage in such that will insure protection against late spring and early fall frosts.

FILBERTS: In the Willamette Valley. Other districts have not been tested out sufficiently to warrant recommendations. Soils to be 4 feet deep, fertile, and well drained. The extreme elevations possible are unknown.

3. Varieties should be as follows: The following recommendations are made from evidence at hand and will stand until superior varieties are developed. Seedlings absolutely not to be recommended.

WALNUTS: Franquette variety grafted on Northern California Black walnut (Juglans hindii) to be used.

FILBERTS: Barcelona should be the main variety with efficient cross pollination.

Uniform grades should be established for both walnuts and filberts by the proper authorities.

BANK OF BEAVERTON Will be pleased to serve you No account too small to receive our careful attention. Interest at 4% on Savings accounts \$25.00 will start a checking account which will give you a nice record of your business and a check makes the best kind of a receipt for bills paid.

Fletcher's CASTORIA MOTHER! Fletcher's Castoria is a harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, prepared to relieve infants in arms and Children all ages of Constipation, Wind Colic, Diarrhea, To Sweeten Stomach, Regulate Bowels, Aids in the assimilation of Food, promoting Cheerfulness, Rest, and Natural Sleep without Opiates.

ties of the state and these grades then enforced. Grading should be done by local associations, and marketing through some sort of central agency devoted entirely to nuts.

5. The Oregon Agricultural College is requested to publish as soon as possible bulletins containing the latest available detailed information on the nut industry. Prospective planters, particularly, are urged to avail themselves of this information before making final arrangements for planting.

WANTED and FOR SALE

For Sale—Imperial Mammoth White Pekin Duck eggs, for hatching, \$2.00 a setting. B. F. Dudley, Beaverton, Box 83. Residence near car shops. Adv P 12-13

For Sale—First class loose horse hay, timothy and clover. Chas. Bernard. Adv P 11-13

SULPHUR SOOTHES UGLY, ITCHING SKIN The First Application Makes Skin Cool and Comfortable. If you are suffering from eczema or some other torturing embarrassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist. This sulphur preparation, because of its germ destroying properties, seldom fails to quickly subdue itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Bowles Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.
