Awarded the Contract for C-T-C Tires

Here is an exact reproduction of the massive tread on those big oversize C-T-C hand-built low inflation cords which we have secured as the very best tire the market affords.

C-T-C cords are built by a group of nationally known tire experts who have put into them the last word of tire science, resulting in a tire that will travel farther, stand rougher treatment and skid less than any tire you have ever used. They have the strength to carry reasonably low inflation safely and "conserve the car."

There is also a C-T-C hand-built Ballon tire for extreme low inflation, which fits any standard wheel and rim.

C-T-C tubes add mileage to almost any casing. Don't spend a penny for tires and tubes until you examine C-T-C's. They DON'T COST MORE.

U.S. Royal Cords

UNITED STATES TIRES ARE GOOD TIRES

HERE'S the standard of value in cord tire equipment—made in all high-pressure sizes from 30 x 3 1/2 inches up and in Balloon-Type for those who want low-pressure tires and don't want to change wheels and rims. Also U. S. Royal Cord Balloon Tires for 20, 21 and 22 inch rims.

All made of latex treated cords—a new and patented process of the United States Rubber Company—that adds great strength and wearing quality.

U. S. Tires are the only tires in the world made of cords solutioned in raw rubber latex
