 Editor and Publisher

Subscription, \$1.50 per year.  
 Advertising rates on application.

The song of the mower is again heard in the land.

There are all the gun totes that the country needs but more hose totes could be used.

Some people who enjoy losing money are getting ready to bet on the coming November election.

The hay crop is being harvested. It is very good considering the dry weather we have been having.

The kids of Beaverton are opposed to oil because they have been sent too many times for strap oil.

It may be necessary to recognize Russia but she will have to behave better before anyone will want to be seen on the street with her.

It is claimed that babies born since the war are more vigorous and it would not be strange if they inherited a tendency to howl louder.

It would seem advisable to leave the taxpayers enough money so they can pay something for the support of the government another year.

The girls are all trying for slender forms and the effect it will have on their capacity for housework does not seem to be of any consequence to them.

Railroading is said to have made wonderful progress but the train is frequently unable to progress past the railroad crossing before some automobile runs into it.

In these times the congressmen had better not be seen talking to any of the capitalists as it might be thought big business was getting too influential with them.

## CUTTIN' CROSS LOTS

People in some neighborhoods are annoyed by the habit formed by the children of some families, of crossing the lawns of nearby houses. Children have a great love for cuttin' cross lots. It is perhaps a remnant of the pleasure that they get from roaming about the country and exploring unfamiliar scenes. It is very dull indeed for them to walk through the streets. But if they can block out a trail across people's yards, they feel like explorers.

Also children's time is valuable. If it is ten feet shorter to cut across someone's lawn, they feel that precious time must be saved. It may be farther across the lawns, but they argue themselves to the point where they believe it is shorter.

While everyone wants to please the children, people have usually spent a good deal of time in developing their lawns, and it is not an easy thing to raise handsome grass. Trampling feet of children makes it more difficult.

A well kept lawn is a thing of beauty of which people can all be proud, and which contributes to the charm of a town. It is for the interest of the community to work over their lawns and extract weeds and fertilize the lawns and water them if necessary. But if the kids of the neighborhood are going to trample this grass down, it is not much encouragement to householders to beautify their places.

Beaverton should warn their children that they ought not to cross people's lawns during the coming season without permission. The street and sidewalk is a perfectly good method of getting to school and playgrounds. This brings up the question of playgrounds. But playgrounds are probably done up in the city and elsewhere. It is probably a perfectly good method of playing over such land.

## CANDIDATES FOR CENTRAL COMMITTEEMAN

(Continued from last week.)  
 These articles regarding the candidates for republican central committeeman, have aroused a considerable amount of favorable comment among those who have for some time been dissatisfied with some of the conditions existing in our fair city. The fact that the other candidate happens to hold the office of Recorder should not be considered either pro or con in connection with these articles.

It is not personalities to which we take exception, neither is it the conduct of the city government. It is simply the methods used in obtaining office to which we take exception. We are reminded of a few times which struck us rather forcibly when they were read, 20 or 25 years ago. They are "Farmer Jones was honest, as far as honesty goes. He wouldn't steal your purse nor your dog nor your clothes, but in a horse-trade conscience was laid on the shelf and the other fellow had to look out for himself."

Can we as a municipality condone such methods in politics? The office holder's methods and behavior in business, in office, and in his intercourse with the public should be such as not to allow any possibility of suspicion arising as to the intentions or any methods used in dealing with the public.

## DOG POISONER AGAIN ABROAD

Again the dog poisoner is abroad in the land. Those of you who have been following these columns at all closely may remember what was said of the miscreant who poisoned the air-dale for David Righetto last fall.

The past week upwards of a half a dozen of the most highly valued dogs have succumbed to the treacherous villain who will put out poison indiscriminately.

Since the earliest stages of civilization the dog has been recognized as man's most intimate friend. There are those who will credit good judgment to the fellow who said "The more I see of people the more I like my dog."

There may arise circumstances when a man would be justified in stealing. There may be conditions under which a man in protecting his own life might feel justified in taking the life of another man. For the sake of argument we will grant that a man might run away with another man's wife and feel justified but there is absolutely no justification for the human being who will put out poison for the indiscriminate destruction of the best friend humankind has ever known.

We have no idea who the

## DRUGS EXCITE the Kidneys, Drink Water

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

## THE SILENT STRANGER

Thomson's rescue of a baby girl from a buckboard runaway is not only exciting and courageous, but incorporates three daring stunts in one. He dashes into the path of the on-running horses, grabs the bridle of one horse and swings himself between the team, climbing this bit of daring by standing on the galloping horses to furnish the scenes for some very thrilling Roman riding.

"The Silent Stranger" is coming to the Pacific Theatre Saturday and Sunday evenings.

Hazel Keener plays the feminine lead opposite Fred Thomson. Miss Keener is not only an actress of exceptional ability, but a noted beauty as well, having won many prizes in beauty contests, among these the Chicago Tribune National contest.

Fred Thomson's wonder horse Silver King, is included in the cast.

## COUNTY AGENT NOTES

Reports here it that a party or parties have made a killing in Washington and nearby counties selling a preventative for the hoof and mouth disease.

When purchasing such remedies it will be well to remember that when the medical fraternity discovers some miraculous remedy or preventative for this dreaded disease that you will not need to depend upon a peddler to get it.

Somebody paged the chap who sold the marvelous fake poultry remedy a few years ago; there is another crop ready.

Skill in spraying counts. Not only a suitable spray machine and nozzle but real skill are required to obtain best results with a given quantity of spray. Thorough covering of all foliage and fruit is essential. Skimping of spray material in Oregon orchards is usually poor policy.

**OPEN NOSTRILS! END A COLD OR CATARRH**

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.
