Since it is a necessity, most desirable, and will last a lifetime, —isn't it thoughtless not to get it NOW instead of later?

A "Standard" Modern Bathroom should be considered in exactly that way. You will not question that a sanitary bathroom is a necessity, so considered by all who have regard for cleanliness and refinement. The fixtures are guaranteed for a definite number of years and there is no reason for thinking that they will not last a great while longer; is it not then a matter of economy to get the equipment at once.

An estimate on such equipment, correctly installed with first class workmanship, will be given upon request.
