A school meeting to decide on the budget of the Beaverton schools for the ensuing year was held in the high school Monday evening. PRUNE PRODUCTION

Information on the cost of prune production is also needed to reduce costs on the individual farm through the use of the most efficient production practices. Also to determine the value of the prune enterprise on any farm and its economic relation to the other enterprises there.

The future of the enterprise will require more exact knowledge of costs than the past. While the number of bearing trees increased 30 per cent from 1910 to 1920, the number of non-bearing trees increased 200 per cent. With a present production of 250,000,000 pounds of dried prunes in the United States, the outlook is for twice that production within a few years.

If production were controlled or restricted by limiting the planting of new acreage or by reducing the old acreage now planted on marginal or doubtful lands, the prune enterprise would be saved much hardship. Public sentiment has already been developed against further increase in acreage at this time. Specific control of acreage, however, does not seem possible except as the natural law of supply and demand operates to eliminate the high cost producer.

Thanksgiving Prayer

The autumn, perfect as your love,
Lies over all the land;
And in each field, each glowing tree,
We see your precious hand.
And so in every wayside church,
Our grateful hearts we raise,
To thank you for your mercies, Lord,
Upon this day of days!

PROTECTING THE INVESTMENT

Abraham Lincoln humorously said of a poor neighbor's assets, "He has a wife and two children, which I should think were worth thirty thousand dollars to any man."

A family is indeed a golden investment and needs the same protection and care that any investment requires.

For three generations the editors of The Youth's Companion have felt the same responsibility to the families of subscribers as if those families were their own. In taking a subscription they have accepted a trust; they

protect yourself against the uncertainties of winter. We can assure you a good position in your own county, that will pay you well. Write us at once. Nogar Corporation, 301 Gough Bldg., Portland, Oregon.
