Tuesday Luncheon Great Success

Rufus Holman of Portland Was Principal Speaker, Encouraging Community Cooperation.

Between thirty and thirty-five business men of Beaverton attended the business men's luncheon at the Little Brown Jug Tuesday noon. It was somewhat of a surprise to everybody there that there were so many different business men in town and their surprise increased when they began to consider the number of business places that were not represented at the luncheon.

Rufus Holman, formerly a candidate for Mayor of Portland, was the principal speaker. His talk was along the line of "Community Cooperation." One thought that he left with his hearers was that if you sent your dollars out of Beaverton your children will be forced to follow and look for the jobs in the places where the money is spent.

The former Mayor, Mr. Otto Erickson, acted as toastmaster and introduced Mr. Pegg, the present Mayor, who gave a short address of welcome. Following Mr. Pegg, Mrs. Brown of the Service Lumber Co. was introduced. She thanked the people and business men of Beaverton for their cooperation in making her business the success it is.

Following Mrs. Brown, Geo. Tuning, Recorder, gave a short talk on how Beaverton has grown since he first knew it. Mr. F. W. Gady and Mr. A. M. Hockes also responded to the request for a few words.

The principal speaker, Mr. Holman, is well known and his speech on "Community Cooperation" was listened to by so many that he shall not try to report what he said in detail. Mr. Holman is a capable and forceful speaker and all were sorry when he had finished. The speech was necessarily short as he was obliged to hurry back to Portland to attend a wedding to which he had been invited.

The meeting was a great success and many favorable comments have been made about it. There are a few things, however, that probably should have been done that were not. We feel that each man there should have been allowed to stand on his feet and tell his name and business as there were very few indeed who knew every person present. The shortness of the time was the principal reason why this could not be done.

FREIGHT LOSS AND DAMAGE REDUCED

Cooperation of shippers and railroad employees has resulted in a thirty-five per cent reduction of loss and damage to less-than-carload freight handled by the Southern Pacific Company, since 1921. Practically one-half of this reduction was made during 1924.

To encourage carefulness in handling freight the company quarterly awards a banner to the division standing highest in loss and damage prevention work. The Jackson Division won the banner for the last quarter to 1924. The San Joaquin Division ranked second and the Los Angeles Division third.

Rough handling, illegible and inaccurate marking, improper packing and loading are the chief causes of loss and damage to freight. Loss and damage prevention meetings of employees who actually handle the freight, are held regularly and shippers and carriers are discussed.

Too many folks think that they should be carefully tucked into a wheel chair, gently run onto the elevator, and then carried up to the top floor of success, without any effort on their own part.

Some folks instead of looking ahead for a better job and going after it, spend their time looking behind for someone to push them onto it.

HIGH SCHOOL TO GIVE OPERETTA

Thursday and Friday, March 26 and 27, the high school operetta, "The Maid and the Midshipman," will be given at the high school. Continuous practice has been going on, and much preparation is being made for the entertainment.

The scenes of the operetta are at the Lakeville Boat Club. Members of the club are unusually gay because of the appearance of Captain Dasher and some of his Middles, as guests. Among the middies is Billy, a jolly youth who becomes quite popular, especially with Valerie Vano, when the Spanish Count shows up. The Count disturbs the members of the club by accusing Billy of abducting a certain mysterious Anita which belongs to the Count. This turns everyone against Billy. However, Valerie thinks that Billy was unjustly accused, and they come to an understanding that Billy will be taken back to favor again if he explains everything concerning Anita. This he promises to do. He brings Anita in, and she immediately explains herself.

Those taking the leading parts are: John Livermore as Captain Dasher, M. J. Dant as Billy, Georgianna Matarkey as Valerie Vano, Rhoda Shellenberger as Mrs. Gaily. Other speaking parts are taken by Rufie Santoro as the Spanish Count, Myron Gray as Young Simpson, Cecil Emmons as Fitz, Pete Bous as Bounder, Gordon Halsman as Dawson, Art Lang as Evans.

The first night of the operetta will be called junior night because the funds are to be given over to the junior class treasury. A woman's like a vehicle when she's a little sulky. And this applies to all of them, the lean, the fat, or the bulky. And there's the newly married one who calls her husband "Ducky."

She too is like a vehicle; she's just a little buggy. Get your printing at home.

HE MET THE REQUIREMENT

A—I wonder why that young lady over there looks at me so much?

B—She has weak eyes and the doctor told her to rest them by looking at something that was green.

HOW SHE MANAGED IT

"Sh-h-h-h-h! I hid some of his things until I was completely dressed!"

County Cattle Win National Honors

G. F. Biersdorf of Hopedew Farm Won First Place For Production of Yearlings.

The first places in Jersey fat production in yearlings, senior two-year old and senior three-year old for the month of December were taken by Oregon breeders, according to the report of the American Jersey Cattle Club official testing.

First place in production of yearlings was won by G. F. Biersdorf of Hopedew Farm at Verboort, whose yearling heifer produced 60 pounds of fat in December. His senior two-year old also topped the list in that class with a yield of 77 pounds. Still another yearling in this herd took third place, giving him three winners in his herd of six cows that won places in the list of Jersey cows in the United States that produced more than 60 pounds of fat on official test. Mr. Biersdorf was second out of second place in the yearling records by his son, D. Biersdorf, whose heifer won that distinction, thus giving the three places in the yearling class to the Biersdorf Washington County herds.

The national champion senior three-year old for December was owned by H. D. Riff of Independence. Of the 561 Jersey cows in the United States producing more than 60 pounds of fat, Oregon cows numbered 39. G. F. Biersdorf had six cows, which made 67 pounds of fat, K. Biersdorf had one cow which made 52, and D. Biersdorf had one which produced 60.

When completed the wiring will be so arranged that the light will spell out E-L-E-C-T-R-I-C, then flash out and then flash the whole word on at one time.
