Furnaces Installed

By me are backed up by 25 years' experience in this line of work. When I install a furnace it will be one guaranteed to give satisfactory service in your particular case.

An outside furnace salesman is interested in getting your money and would just as soon sell you a furnace with only half capacity for heating your rooms.

I install the famous MONTAG furnaces, an Oregon product, made in Portland, and built especially for the needs of this climate.

Flashlight Taken of Cast At High School Operetta

Perspective of O. A. C. Memorial Union Building for Which Funds are Being Raised Among Students, Alumni and College Friends

The accompanying cut illustrates the massive size of the proposed building to be on the O. A. C. campus to commemorate the active part Oregon heroes played in the Spanish-American and World wars. The building will tower 180 feet high and will be 200 by 200 feet. The building materials used will be such as to blend with the present campus architecture and yet be distinctive. The building will house all student and alumni activities and organizations. More than half of the total \$500,000 needed for construction is now raised.

The O. A. C. Memorial union campaign to provide \$500,000 needed to construct a building which will be a permanent memorial to the college and state heroes of the Spanish-American and World wars and to house all student and alumni activities on the O. A. C. campus, has been completed among students and is moving into different districts of the state where alumni and friends of the college are located.

More than half of the sum needed was raised on the campus in an intensive drive of a week. Inspired by the record of O. A. C. and Oregon heroes in the war, the undergraduates and faculty of the college pledged more than half of the total in three days. President W. J. Kerr, who was seriously ill at the time, sent in his pledge of \$1000 on the second day of the drive. Alumni in Portland have responded with more than \$25,000 and the campaign is now reaching into the smaller cities and communities of the state.

The great Memorial union project will seek to draw together the four component parts of the college: students, alumni, faculty and friends. It will be a great gathering place for college interests, a magnet to attract students and alumni in all walks of life and a melting pot to create a college democracy, say those in charge. Loyalty of individual students and alumni, who mortgaged their future earning power to help pay back to their alma mater part of the training received, gave an impetus to the campaign that makes the total objective assured, according to campaign leaders. One freshman student from Cali-
