PLUNDERER OF SOIL IS ROBBER

"Man has no right to skin the earth and squander our common heritage. A man who plunders the soil, whether it be plowland or rough and rocky mountain land, is a robber. He takes that which does not belong to him and he withholds it from generations yet to be born," says Gifford Pinchot leader in the forest conservation movement.

THE PERFECT MAN
There is a man who never drinks,
Nor smokes, nor chews, nor swears,
Who never gambles, never flirts,
And shuns all sinful snares.
—He's paralyzed.
There is a man who never does a thing that is not right.
His wife can tell just where he is,
At morning, noon, and night.
—He's dead.

STORE CREDIT COSTS 25 PER CENT.

In a survey of 500 farms made by the North Carolina Experiment Station, it was found that over 40 per cent of the total credit needs for the farmer is for short term loans, either through the bank or through merchant advances. Only one-sixth of this amount comes from banks and the rest from stores or landlords. For store credit farmers are paying over 25 per cent interest, and only a little better than half of the farmers realized this fact. The bank rate of interest at the same time was only a trifle above 6 per cent. Practically all merchants would be delighted to go over to a cash basis.

The remedy lies in the production of more food and feed and in the discontinuance of shipping in hay and grain with their attendant high freight rates and dealers' profits. This means the establishment of better working relations between bankers and farmers, for there is great opportunity for educating the farmer along the line of bank credit.—Banker-Farmer.

UNDER NATURAL LAWS

Great changes are occurring in the agricultural situation. Crops and crops are giving way to renewed hope. We all rejoice that this is happening. It is being brought about through the immutable and inalterable natural laws. It is as difficult to legislate prosperity as to attempt by law to make folks honest. Agriculture in the last analysis operates under about the same basic laws as any other business.—F. B. Doty, Agricultural Commissioner, American Bankers Association.
