

The Beaverton Review

Friday, May 16, 1935
Issued Every Friday At
Beaverton, Oregon.

J. H. Hulett
Editor and Publisher

Entered as second-class matter December 29, 1922, at the Post Office at Beaverton, Oregon, under the Act of March 3, 1879.

Subscription, \$1.50 per year.

Advertising rates on application.

New dollar bills will not last, say the bankers. That was the trouble, too, with the old ones.

Politics make strange bed-fellows, but we think that politicians always use the same bunk.

There are probably just as many poor fish left in the sea as some married women have caught.

Experience makes some people sadder and wiser, while with other people it only makes them sadder.

Swimming is ever so much better than golfing. In it you can take as many strokes as you please.

How are your teeth? Now is the time to get them in shape. The corn-on-the-cob season is rapidly approaching.

Burmese girls can't enter society without ear-plugs. And American boys can't enter it without spark-plugs.

One of the big questions now confronting many Beaverton men is "Shall I make my old buss do another year?"

Wouldn't it be awful if the magazines of this country were as naughty on the inside pages as they are on the covers?

The objection to a pistol is that you're tempted to use it when it isn't necessary, and you haven't time to use it when it is.

Some families around Beaverton never will be as happy as they ought to be until every member of the family has his own car.

If there is one business the quitter should leave entirely alone, it is advertising. To make a success of it you must be prepared to stick.

Many girls of today who are hunting husbands do not particularly care if the men are not educated. Give them the man and they will educate him.

Advice to wives: When your hubby complains because you cannot make biscuits like his mother used to, ask him if he can make the dough like his father did.

"There don't appear to be nothin' doin' on the radio to-night," remarked the Town Gossip to her better half. "I guess I'll have to try the telephone line."

We know of some stingy men around Beaverton, but we at least do not believe that there are very many wearing whiskers because they are too stingy to buy neckties.

Furnaces Installed

By me are backed up by 25 years' experience in this line of work. When I install a furnace it will be one guaranteed to give satisfactory service in your particular case.

An outside furnace salesman is interested in getting your money and would just as soon sell you a furnace with only half capacity for heating your rooms.

I install the famous MONTAG furnaces, an Oregon product, made in Portland, and built especially for the needs of this climate.

Some men are born great, some achieve their greatness, but the great majority on this earth do not have time to trouble themselves about the matter.

FARM REMINDERS

The first and best opportunity to force the growth of pigs is when they are three weeks old. At that time they start eating grain. The Oregon station recommends that a creep be constructed in the pen at that time containing a trough in which grain and skim milk can be placed. By starting this early the pigs will be eating better at weaning time and have less of a set back.

IRRIGATION INCREASES GARDEN'S YIELD

Encouraged by results of irrigation in growing vegetables, and desire to be ready to put on water when it is needed, Fleischman and Monahan are installing a four inch centrifugal pump capable of delivering 100 gallons of water per minute on their Kiger Island. Benton county, truck gardening acreage. This outfit, which will be driven by a three horsepower electric motor, replaces two 2-inch rotary pumps that were used the last two years with resulting increased yields.

Supplemental irrigation is gaining in favor with Wil-

lamette valley farmers. Bigger and better crops and greater profit per acre have followed application of water on farms where pumping units have been properly installed, or that could put on water by gravity.

Irrigating Willamette valley farms was given a boost when the agricultural economic conference in Benton, Clackamas, and Washington counties gathered data on the subject and recommended the practice.

Based on his observation of installation of pumping plant systems, Mr. Price, soils specialist of the O. A. C. extension service, advises that all farmers who intend to irrigate this year for the first time have their plans clearly in mind by June 15. The water will be available when needed. He estimates the cost of a pumping plant at about \$30 per acre.

BEAVERTON WOOD AND COAL YARD

I am the only local fir and oak wood dealer and I am the only local wood and coal yard in

"COLD IN THE HEAD"

is an acute attack of Nasal Catarrh. Those subject to frequent "colds" are generally in a "run down" condition. HALL'S CATARRH MEDICINE is a treatment consisting of an Ointment, to be used locally, and a Tonic, which acts quickly through the Blood on the Mucous Surfaces, building up the System, and making you less liable to "colds." Sold by druggists for over 40 Years. F. J. Cheney & Co., Toledo, O.

town, so if you are in need of wood come and see me.

I am getting along nicely with my 100-cord orders from Portland. All June deliveries of five cords or more will get a chopping block free, of fir or oak.

I can also use one or two more wood cutters at any time. I pay \$2.00 for fir and \$2.25 for oak, and I pay up every two weeks.
