PROCLAMATION

To the citizens of the Town of Beaverton:

Having in mind the welfare of the town, its continued good name and prosperity:

WHEREAS, the City of Portland will entertain many large conventions during the ensuing months; and

WHEREAS, Beaverton being in close proximity will be visited by many of the convention delegates; and

WHEREAS, it is our wish to leave with them a good impression of our city, it behooves us, the Citizens of Beaverton, to put forth some effort to clean up our town; therefore

Be IT RESOLVED, that I. W. E. Pegg, Mayor of Beaverton, do hereby proclaim the week of May 25th as clean-up week, and ask the hearty support of our citizens in eliminating tin cans, rubbish and any unsightly conditions now existing.

W. E. Pegg, Mayor.
Geo. Thyng, Recorder. c24

Did you know?

That—an ounce of precaution is worth a pound of cure? No doubt you have just read of the fire in Portland, which cost the telephone company \$150,000.00.

DID YOU KNOW?

That—Beaverton has numerous dwellings which are open to just such fires, which even with a very much smaller loss, would be just as great to the owner.

DID YOU KNOW?

That—Beaverton has inefficient fire protection in case of a serious fire, which fires are generally caused by defective wiring? That the State of Oregon has an Electric Code for the purpose of installing electric wiring in a safe manner? Some believe that the Code is for the purpose of selling electric material for the jobbers, but such is not the case. If the law regulating the installation of electric wiring was adhered to by the average builder there would be fewer fires.

DID YOU KNOW?

That—There is but one way to eliminate this hazard and that is by employing competent electricians to do your wiring. Mr. Electro Serve is just such a person. He is bonded to install your wiring according to regulations and he is also licensed to do business in the State of Oregon.

DID YOU KNOW?

That—He who wires your house can be made to rewire without cost to you in case it does not pass a rigid inspection of the Electrical Inspector, or can be prosecuted?

DID YOU KNOW?

That—Mr. Electro Serve has established himself in Beaverton, purchased a home, and intends to remain, therefore He is Reliable? Price is a secondary consideration where quality and service are established.

I give both Quality and Service at less than Portland Prices. Why? Small overhead, and a desire to do good work at a reasonable cost to you. Try me and see.
