The Beaverton Review

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice, that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions.
HALL'S CATARRH MEDICINE consists of an Ointment which Quickly Relieves by local application, and the Internal Medicine, a Tonic, which assists in improving the General Health.
Sold by druggists for over 40 Years.
F. J. Cheney & Co., Toledo, Ohio.

The Beaverton Review

Nothing is harder on a woman's new hat than one of her enemies.

What a wife usually wants when she doesn't know what she wants is more money.

The modest man has been defined as one who is willing to be known for what he is.

We find a great many people looking for a situation—with the emphasis on the sit.

Every husband will admit that his wife showed sound judgment when she picked him out.

A sign on a road near a popular bathing beach reads as follows: "Dangerous curves ahead."

We have reached the point in life where it's a mean husband who refuses to shave his wife's neck.

Our idea of an "efficiency expert" is one of these fellow who is still living off his wife's parents.

About the only chance some men have of pleasing their wives is to die and leave plenty of life insurance.

The difference between a rent and a tear is that if you go on a tear you won't have money enough left to pay the rent.

Hate, grudge, malice, enmity, all are bad words. We should avoid them and the thoughts and feelings which they describe.

Correct this sentence: "He was a shiftless loafer before marrying, but he now is an industrious and thrifty husband."

A Detroit girl was powdering her nose when she walked into a hole in the street, fourteen feet deep. Pride goeth a fall.

Mrs. Kate Andrews, of New York, aged fifty-four, was arrested recently for speeding. These modern girls are certainly terrible.

Prohibitionists should not despair. Scientists now say that it took the Sahara desert several thousand years to become entirely dry.

Our idea of a good sport is the man who stops at the butcher shop on his way home from a day's hunt and buys enough meat for supper.

Maybe you've noticed that most of the big things in this world are done by fellows who don't care whether there is a greasespot on their necktie or not.

A man often gets stung by a mere butterfly.

The stingiest man we know about recently married because he heard that a wife was cheaper than a janitor.

Several cities aspire to be the "air headquarters" of the United States. Washington is secure in its distinction as hot air headquarters.

Cultivate friends; disregard enmity. And when you find you do not get on with people, leave them alone. You can't expect everybody to like you.

Our shiek says that he has been in only one real railroad disaster, and that was when he made a mistake and kissed the wrong girl going through a tunnel.

If you think you really must annoy those whom you regard as your enemies, try to do it by succeeding in spite of their ill wishes. This will really hurt them.

One man's definition of relatives, is that they are people who come to visit you when the weather gets so hot that they cannot stand it to stay home and cook.

If the average woman ever got a chance to marry again, she would pick a husband who had so much money that she would never need to hear the word "economy" again.

The one thing that we can't forgive a certain girl for is that once, in an outburst of admiration for us, she made the remark that we were really nearly as good as we thought we were.

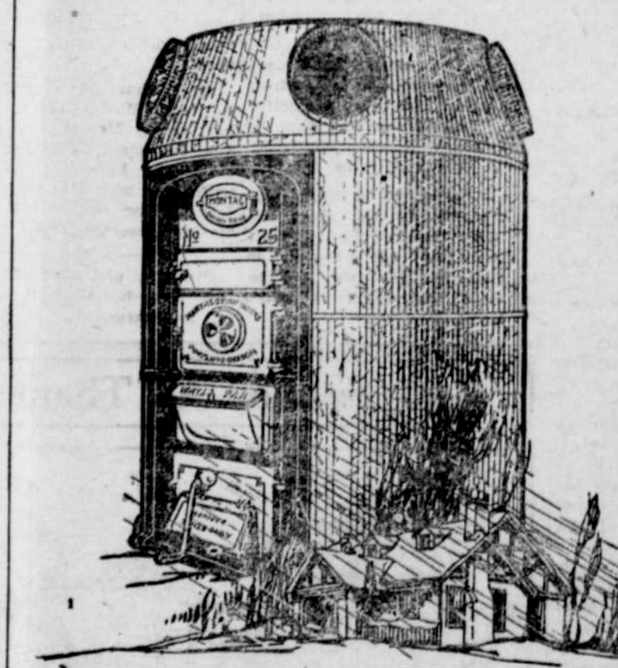
Without "Salesmanship"
—just common sense reasoning, we know you will decide in favor of the MONTAG furnace

LET us get the facts before you. Not "selling talk"—you're not interested in that. What *you* want to know is: "Will the Montag Furnace supply my home with an abundant circulation of warm moist air—*safe heat*—at a very low cost in fuel and with little care and effort? Can I rely—absolutely depend upon—a Montag Furnace?" In plain language we answer: "Yes, indeed you can!" We say so without reservation. Montag has had more than 40 years' experience in the building of heaters—*right here in the Northwest where they are to be used.* Thousands are giving home owners complete heating comfort and satisfaction.

You want comfort—economy—dependability—safe heat. You want to be able to sit contentedly in any part of your home on the coldest days. You want these things—of course you do—you have a right to them and we—as heating experts—will see that you get them when we install a Montag furnace in your home.



Buy Now!

Jack Frost is just around the corner. Pretty soon a great many home owners will be wanting a Montag Furnace installed "As soon as possible." There will be no time to wait—no time to make a careful survey to determine just the type of Montag you need. We will be "rushed to death." You want to avoid that—you want *your* furnace *scientifically engineered* into your home. Then—let us do it *now.* Come in today—or any day, this week—and let us go over your heating problems. *Buying now* doesn't mean *paying now.* You can make almost any terms you want.
