Style note—There's to be a little change in men's pockets this Fall.

We think that a college education is too often stunted by too many stunts.

Sometimes it seems that if it were not for taxes there would be no politics.

When a girl gets herself into deep water there is usually a man at the bottom.

Prohibition may not prohibit, but it surely plays thunder with the quality.

We recommend a mustard plaster for the man who likes to wear smart things.

It isn't a sign that a man is king in his own home just because his wife has crowned him.

It is said that the kiss is losing its "kick," but where does the kick come in, anyhow?

Law enforcement may be rather effective even though poor in quality, as the modern liquor is.

The world's work must be done by some of us. We can't all be politicians and efficiency experts.

There is objection to the new two-dollar bill, but it is said that it WILL buy a dollar's worth.

It is said that a daily cold bath will prolong life, but who wants to live if he has to freeze to death in order to do it?

When you see a woman standing with her husband in front of a store window full of fishing tackle, he is the boss.

VALUABLE HOUSEHOLD RECIPES AND SUGGESTIONS

Good Desserts May Be Made From One Recipe

Perhaps you will wonder just what a Master Recipe means. Well, it is to cookery what a master key is to a building—it opens not a door, but the means of preparing a great variety of appealing dishes.

This method of cooking adds new interest to the daily task of planning and preparing the meals. The very simple, inexpensive Master Cake Recipe given below can be used, with some slight variations, for more than a dozen distinctive desserts. It is easy to mix, requires very few utensils, and can be baked in most cases in fifteen minutes, and never requires over half an hour.

Your need may be cake for the lunch box, breakfast coffee cake, individual cream cakes for a company luncheon, fruit cobbler for dinner, or cookies for the children. This Master Recipe can be used for each one of these dishes, and for a great many other desserts also. Surely it is interesting to be able to make two decidedly different desserts for two days at one time.

Suppose you decide to have cottage pudding for dinner tonight and cream cakes for tomorrow, or perhaps nut cake for the children's school lunch-box. Prepare the Master Recipe. Use half of the batter for the pudding (will serve six persons). If nut cup cakes are wanted, add one half cupful of finely chopped nuts and bake the cakes in shallow, well-greased muffin pans in the oven with the cottage pudding. If you want cream cakes for tomorrow's dinner, omit the nuts, baking the cakes in the muffin pans.

When baked remove from pans and set aside until the following day. The cakes may be iced if you wish, or used plain. Split half way through the center and fill opening with sweetened, flavored whipped cream. If cakes are not iced, sift powdered sugar over the top.

The following suggestions are only a few of the attractive, easily made desserts, that can be made from this one Master Recipe. Next week we will print others equally attractive. Other Master Recipes will also follow.

Master Cake Recipe—(Note: All measurements are level and flour is sifted once before it is measured. One-half pint measuring cup is used.) Two cups

flour, two teaspoons baking powder, one-half cup milk or water, one-third cup melted shortening, one teaspoon vanilla extract, one teaspoon lemon extract. Measure sifted flour and sift again with baking powder; beat eggs until very light, then gradually add the sugar, beating it in with the egg beater. When creamy add flour alternately with liquid, mixing until smooth. Add the flavoring and melted shortening, beating until the batter is smooth. This amount of batter makes two large layers or one medium-size loaf cake.

Walnut Cup Cakes—Prepare the Master Recipe and add one-half cupful of finely chopped nuts after the batter is mixed. Pour into well-greased muffin pans and bake in a moderate oven (360° F.) about 20 minutes. Cool and ice, placing a walnut meat in the center of each cake.

Cottage Pudding—Prepare the Master Recipe. Pour into a well-greased shallow pan and bake about 15 minutes in a fairly hot oven (375 F.). Serve with a vanilla sauce.

Vanilla Sauce—One cup boiling water, one-third cup sugar, one tablespoon flour, one teaspoon butter, one teaspoon of vanilla flavoring. Mix sugar and flour until well blended; heat water in a small saucepan; add sugar mixture and stir until sauce has thickened, then add butter. Add flavoring when ready to serve. This sauce can be made and kept hot in a double boiler until needed.

BANKERS HELP

Mason County, Mich. bankers are backing the county move to "replace scrub stock with purebred cattle. The plan as outlined by the county agent is to purchase young purebred sires and place them wherever a farmer is found who is willing to undertake the proposition. The bankers will advance the purchase price and take a note for one year without interest. The idea is to make it as easy as possible for the farmers to procure thoroughbreds.
