City Council

Holds Meeting

Bonding Ordinance For Improvement District No. 13 Passed; All Councilmen Present

The City Council met in regular session last Monday evening with all members present. Those present were Councilmen Lewis, Beach, Sprague and Rossi, Mayor Pegg, and Recorder Thynn.

After the routine business was transacted, Paul Ringle, fire chief, asked if an addition could be made to the budget to provide for additional fire equipment, but he was informed that it was too late to get it onto the ticket this year.

The bonding ordinance for Improvement District No. 13 was read and passed regularly. This district includes all the improvement work which has been going on this summer.

Monday evening, November 23rd at the high school was set as the time and place to hold the caucus to nominate the city officers. The judges and clerks of the City Election were appointed at this time. The following were named: A. E. Story, Mrs. J. C. Huntley, Mrs. John Summers, Judges; Miss Anna Hyland and Mrs. Mable Alexander, Clerks. The election will be held in the City Hall as usual.

At this election there are to be elected two councilmen, to serve two years, vice, Beach and Rossi; one councilman to serve one year, vice, Sprague, and a Mayor and Recorder to serve one year.

HIGH SCHOOL EDITORS TO CONVENE

Dates for the annual conference of Oregon High School Editors, student body presidents and secretaries, when hundreds of students from all parts of Oregon go to Eugene to discuss their problems, have been announced for December 4-5.

Carl Dahl, Portland, has been appointed general chairman of the sixth annual meeting by Walter Malcolm, student body president.

Although the full program has not yet been announced, the general meeting of the three groups will be held, at which time Dean H. D. Sheldon will represent the University faculty and Malcolm the students in speeches of welcome. Then the groups will adjourn to separate meetings to consider their individual problems.

Round table discussions between students and faculty will feature the editors' conference. Such questions as editing high school newspapers and annuals, methods of financing publications, advertising problems, and writing news will be discussed. Experts will give technical advice on how to manage such publications.

Organization methods, debating and athletics will be outstanding topics for consideration by the Association of High School Student Body Officers.

The program also includes a banquet, style show, a musical and teas.

THEATRE PACKED AT SHOW SATURDAY

Owing to the extensive advertising campaign put on by the merchants of Beaverton in connection with the Beaver Theatre, about 650 attended the show, "The Dixie Handicap" Saturday afternoon.

One can visualize the conditions in the theatre when it is remembered that there are only a few over 500 seats.

This, however, shows what a little advertising will do, as a probably never before had as many people been in the theatre at one time as on that occasion.

BEAVERTON M. E. CHURCH

The Sunday morning theme will be "Exalting the Unseen." The Epworth League topic will be "Why am I a Christian?"

The subject of the evening service will be "The Vanity of Hero-Worship."

J. H. Irvine, Pastor.

HOW TO USE CONCRETE

There are hundreds of ways and places where concrete may be used for economy and advantage on farms—in barns, silos, fence posts, septic tanks, floors, troughs, walks, walls, and basements, storage cellars, hog wallows, manure pits, and foundations, etc.

If any farmer is interested he may secure booklets on any particular use, without charge, by writing to the Portland Cement Association, 1009 Gasco Building, Portland, or O. A. G. Corvallis. These booklets give estimates on cost, blue prints, how to mix, and much general information.

MEETING HELD TO PROMOTE CONSOLIDATION

A meeting was held at the high school auditorium Wednesday evening to consider the matter of promoting a consolidated school district in this vicinity. This meeting was called to order by the Chairman of the District Board, Dr. C. E. Mason, who called upon Mr. D. U. Cochrane.

Mr. Cochrane arose and presented some figures he had been preparing this summer, on his trips around the country, and he spoke very enthusiastically for consolidation of schools.

Mrs. Emma Bryant, County School Superintendent, came in during Mr. Cochrane's speech, and after he had finished, she was called on to make a few remarks. The substance of the address was "How you gonna do it?"

The only direct action taken at the meeting was a request that the committee appointed at a previous meeting go ahead and secure data if possible, on districts similarly situated to ours which had consolidated schools.

Local Men Visit

Van Kleek Farm

Doy Gray and other Citizens Accept Invitation to Visit Farm; Many Cattle, Chickens, Etc. Seen

Saturday Mr. Doy Gray received an invitation from J. J. Van Kleek, who lives out the other side of Kinton, inviting Mr. Gray to bring some of the citizens of Beaverton to look over his farm and stock. Two machines made the trip, leaving the Bank corner at three o'clock, returning just about dusk.

On reaching the ranch, the party found alfalfa fields of four months. Though the members of the party, with the exception of the host, were complete strangers to the cattle the cows followed them and were handled and petted by the entire group.

There were alfalfa fields of years' standing, also new seeding, just sown the past season. This looked very thrifty. The noticeable thing about it was no extra large growth made on the spots from which large stumps had been blown. A team was busy cultivating or harrowing the older seeding.

Past the alfalfa fields was a little natural amphitheatre containing several acres, which were subirrigated. Here were some of the most amazing growths of roots and vegetables ever been seen. There were carrots in rows 20 inches apart whose tops formed a solid mat a foot deep over the ground, entirely covering the soil. There were mangels of immense size. There were turnips as large as a man's head but sweet and tender as any ever grown. Every one of the party had a big feast of raw turnip.

Then came the pumpkin field with pumpkins weighing from 50 pounds up so thick on the ground one could scarcely see through to the soil, and winter radish as big as your fist and as tender as though they had been grown in the early spring.

There was a big flock of Shropshire sheep, immense covys of Barred Rock chickens, and, last but not least, a herd of Jersey cattle.

One of the noticeable things about the herd was the uniform size, which was large for Jersey cattle, though they were thoroughbreds. The host showed us several gold medal and silver medal animals, also one cow 19 years of age which would drop a calf in three or four months. Though the party was strange, with the exception of the host, these cows followed them and were handled and petted by the entire group.

Mr. Van Kleek said that there were plenty of visitors from Portland there didn't seem to be so many from Beaverton who visited his ranch. The party was unanimous in declaring that it was probably because they had no idea of the feasts in store for them rather than because Beaverton people are inappreciative.

FARM REMINDERS

Chickens use a large amount of green feed, and it is good policy to keep a good supply of green feed before the pullets when they are coming into production. Even pullets on free range will enjoy a special feed of kale.

Experiments show that pullets easily contract colds when first put in laying houses. Housing conditions kept as nearly ideal as possible, with plenty of fresh air, are good preventatives.

When pullets are above the 60 per cent mark in egg production at this time of year it is a good plan to increase the amount of grain fed in the morning. This will cut down on the amount of egg mass consumed and by holding them at 60 per cent production there is less danger of molting than where they produce at a higher rate.
