## OUR BLESSINGS; ART OF BEING THANKFUL

**Time to Take Stock of the Good Things in Life.**

FEW of us, I suppose, often stop to analyze the things which touch us most or mean most to us. Our greatest blessings, perhaps, we sometimes try most to avoid.

If today we should each take stock of the personal blessings for which we should thank the good Lord, what would they be? Not the same for all of us, perhaps, and yet for most of us very largely the same.

For myself I am most thankful for work—for the necessity and the opportunity of regularly doing something; for the joy of the weariness that comes from mental or physical toil. One of the saddest objects in the world is a man who does not like to work, who cannot work, or who has no work to do.

Just the other day I had a letter from a young fellow who through misfortune and illness has for three years been unable to work. "Will you not pray with me," he wrote, "that I may soon be strong again, for it will be the happiest day of my life when I can go to work."

I am thankful next for opportunity. "I never had a chance," a hopeless, shiftless failure said to me only a few days ago. I am glad for my "chance," for the far-reaching daily outlook to learn something new, to do something better, to help someone who is down and to stir someone to greater ambition and greater effort.

I am thankful for health, for the strength and energy that are needed to do the work that presents itself every day, to meet the problems that sometimes seem too difficult to be solved, to accomplish the duties that multiply and crowd upon one and sap one's vitality and try one's courage. I am thankful for friends, for the joy of home and home ties, for the loving association and help of those with whom I am daily in contact and who every day make work sweeter and life more worth while.

I am thankful for life itself and for all it has meant and for all that it may mean here and hereafter.

And you who read these words will, as you read, perhaps, set down the catalogue of your own individual blessings, which, though they may not

be the same as mine, will yet be almost more real and more vital because you have turned your thoughts to them.—Thomas Arkle Clark, Dean of Men, University of Illinois. (© 1925, Western Newspaper Union.)

Ye Editor is acting in the capacity of printer, devil, ad man, composer, pressman, advertising manager, salesman, to say nothing about being the manager of the little jobs about the house that the Missus has to attend to lately, so if he forgot to mention about your company or that special social item you are interested you will please pardon him, as he is busy part of the time.

T. T. Georges, proprietor of the Troy Laundry, was in town Wednesday night. He is enthusiastic for meeting together and asking for a reduction of rates on stages to Portland. His idea was to interest someone who would run service between Beaverton and Portland. He promised us an article for the near future along the line of what other communities are doing and the fare paid for similar distances.
