# Man alive—what a difference

Once you drive up to the Green and White Sign and say "General" to the man, you'll know that this gasoline is different.

When you zoom up hills in high that have always called for a gear-shift before—when you slip away ahead of the crowd when the whistle goes—when you fairly feel that new motor life under the hood—then you'll know what we mean by a "different" gasoline.

It's always the same—this perfect motor power—every drop, every day, always as brimful of life and action as gasoline can be made.

Drive up to the Green and White sign—fill up with General. If you have never used it before you have a new thrill coming. "Fill up your tank and let your engine decide." The man who serves you with General Products owns his own station, it is his own investment—he is an Independent.
