Famous Coast-Built STAR FOUR

More Popular in its Refinements

REFINED Star Four—a more pronounced value than the high gear champion Star of 1925—wins new plaudits, new popularity these new Spring months!

Not only refined in every part, but lowered to a new value level in price, Pacific Coast motorists look to the Refined Star Four as the master buy among low-cost cars. And an important list of Refined Star Four value points bear out the judgment of these ever-growing hundreds of Star buyers.

Refined Star Four and its comrade car, the New Star Six, are built on this Pacific Coast in a \$5,000,000 Plant at Oakland, California. Torrents of practical power for power-draining Western travel conditions!

More Value Points

- Million Dollar Motor.
- Built in four popular body styles: touring, sport touring, coupe, coach.
- Longer, lower body lines.
- Felders radiator for efficient cooling.
- Easy line traffic clutch.
- Generous cushion, full-size balloons tires engineered as a unit with self-aligning, long and flexible springs and "B" to "1" easy steering ratio.

\$636

It costs so little to have Running Water

Perhaps you have always thought of running water as an expensive luxury. As a matter of fact, the investment in a Fairbanks-Morse Home Water Plant completely installed is less than half the average assessment for a city water main! Furthermore, the

cost of operation is merely a few cents a day! No matter where you live you can have all the convenience, all the health protection of running water.

There is a plant for drawing water from any source—lake, spring, stream, shallow well, deep well, cistern. These plants are furnished to operate on electric, kerosene or gasoline power, in sizes from 120 to 5,000 gallons per hour. The electric plants operate automatically. Come in and let us show you the plant that will meet your requirements.

Irrigation Pumps, Gas Engines, Electric Motors, Platform Scales, Spraying Outfits, Automatic Water Systems, All kinds of repairing and well boring.

R. SCHUEPBACH, 1/4 miles southwest of Beaverton. Agent for

is there any difference in Gasoline? Say

Have you heard that all gasolines are the same—all out of the same spigot—no more difference between two gasolines than there is between two tadpoles?

There is a difference. One tankful of General will tell you just how great a difference there can be in gasolines.

Drive up to the Green and White Sign and say "General" to the Independent Dealer. It's just like telling him, "I want to take hills on high that I never could before—give me a new lease on life for this old car of mine. I want to see it scoot away at the traffic officer's signal like a half-back skirting the end."

And you'll get all that you ask for and then some. Every day we put into every drop of General Gasoline everything that will give your motor power, response and vigor that it never had before. "Fill up your tank and let your engine decide."
