Announcement

THIS is to announce that we have effected arrangements with The Shaw-Fear Co., of Portland, whereby we are authorized to offer for sale all of its properties in its well known Beaverton Reedville acreage, and at the identical prices and under the same terms and conditions as the Company itself.

With our office in Beaverton, the center of a community unsurpassed in the state; our Mr. Stickney owning a home and living at Aloha in the center of the Beaverton-Reedville tract; and with facilities for showing our patrons over the lands, we are in a position to be of real service and give the reliable information desired by home seekers or investors.

This Beaverton-Reedville acreage is but 30 minutes from the center of Portland, with electric line and paved highway passing thru it; a body of land with rich soil, comparatively level, no waste, solidly and substantially developing. The new Canyon Road, which will be the finest boulevard out of Portland, will cut down the distance and time to these beautiful home sites, and add mightily to all lands in this entire locality.

We also have large listings of homes and acreage in Beaverton and vicinity. Give us a call—we can please you.

CHEVROLET

New Smoothness—New Features—New Colors....

Chevrolet again electrifies the world by increasing Chevrolet Values!

Now in the greatest year in Chevrolet history—building cars in tremendous volume to meet an ever-increasing worldwide demand—Chevrolet continues its successful policy of increasing Chevrolet values!

Now Chevrolet adds to the performance, beauty and completeness of equipment that have been winning the world to Chevrolet—

—by developing the smoothest Chevrolet in Chevrolet history, by enhancing its smart appearance and by adding features which increase the economy and satisfaction of Chevrolet purchase and ownership!

A triumph of engineering science, today's Chevrolet is the only low-priced car ever to offer every quality of smooth car performance.

Forty to fifty miles an hour as long as you like without the slightest sense of forcing or fatigue! Remarkable smoothness at every speed!

Acceleration that is a delight in traffic! Power that conquers hills—

—such are the almost revolutionary qualities attained by a superior method of mounting the motor on the chassis and by a new camshaft with scientifically determined quieting curves.

Come in! Arrange for a demonstration! Admire the brilliant beauty of the new and striking Duco colors on every model! Mark the greater convenience of the centralized throttle and spark control! Note that all enclosed models with their bodies by Fisher now carry an approved stop light as standard equipment and have a front door pocket.

Then take the wheel—and you will quickly learn that today's Chevrolet with its new smoothness, new features and new colors, is a car that only Chevrolet could build—a value that only Chevrolet could offer.

MONTAG

"Ventilated Heat"

The successful system of home-heating

Aerated heat—heat that is made up of fresh, purified, circulating air—air with the same lively zest and zip as sparkling clear fresh water.

Fresh air—pre-warmed to the proper living temperature—in constant, slow, large-volume circulation.

Warm air adequately humidified, so that your skin feels its touch *velvety* instead of dry, parched and burning.

Comfortable, warm, *humidified* air in constant, even circulation throughout the rooms and halls of your home, just as the blood circulates through your body—with the big Montag furnace the very heart of the heating system.

All the air gently moving through the house as a summer zephyr over a warm field—with no stagnant corners—with no up-rushing wind from the registers—no hot or cold streaks.

Just pure, clean air, keeping you comfortably, delightfully warm.

That's Montag ventilated heat!

now!

MONTAG PIPE FURNACE

—the most complete warm air heating system, with warm air pipes to all rooms, and two or more cold air return pipes, depending on size of home. Illustration shows only one type of Montag "ventilated heat" installation.

Some homes require Montag *Pipeless* installation. According to your need, a special Montag installation is made to fit your home.

is the time to plan for VENTILATED HEAT in your home so you will be assured of it next winter, whether your home is already built or you are just building. Montag dealers are ready to talk to you NOW. Trained crews are available to do the work NOW. Credit terms can be made of unusual advantage NOW. Get the complete Montag Furnace proposal and you'll make no mistake.
