LOCAL ORCHARDS**

The following is a copy of a
letter just received from a
committee of the American
Pomological Society.

There were sixty-two people
in the party making this tour,
forty-three of them being com-
mercial fruit growers who own
and operate 5,160 acres of or-
chard, an average of 120 acres
per grower.

American Pomological Soci-
ety, 256 N. Y. C. Station, Roches-
ter, New York, July 19th, 1926.

Mr. Wilford W. Phillips,
Executive Secretary, Hillsboro
Chamber of Commerce, Hills-
boro, Oregon. Dear Mr. Phil-
lips: On behalf of those who
were on the A. P. S. tour to the
Pacific Northwest we wish to
thank you and through you the
Hillsboro Chamber of Commerce
and the Forest Grove Chamber
of Commerce, for the splendid
trip and entertainment afforded
us Sunday afternoon, June 27th.
Everyone on the tour was
very much impressed with the
quality of your small fruit
plantations, walnut groves, and
prune orchards. The diversity
of agriculture in Washington
County, the fertility of your
soils, the abundant normal wa-
ter supply and beautiful scenery
appealed to all.

We enclose a list of those
who made the tour, and any of
these people will be glad to
furnish you with any informa-
tion relative to fruit conditions
in the eastern states.

Again thanking you for the
many courtesies extended our
party, we are, sincerely yours,
R. W. Rees, William R. Cole, R.
A. Simpson, Committee on Res-
olutions.

The latest and greatest development in motor fuel

GENERAL (?) GASOLINE

\$1000.00 in cash for a name!

This gasoline was especially developed for hydro-
planes. On May 30th it broke the world's record. Now
it is ready for your motor car—the latest and greatest
achievement in gasoline production.

\$1,000 in cash for a name

We want a new name for this new and greater gaso-
line—a name that will be fitting for a motor fuel
that is really worth a higher price but costs the same
as ordinary gasoline.

Here's what this new gasoline does!

Gives a noticeable increase in power and
pick-up the year 'round
Less carbon deposit
A noticeable increase in gas miles
No fuel knocks
No pitted valves or fouled spark plug
Lower transportation cost
No crank-case dilution

Here's why you get these results!

This new gasoline is highly volatile and perfectly
balanced. Every drop vaporizes and ignites instantly.
No acids or sulphur to pit valves and eat metal. Less
carbon-producing compound.

There is no sacrifice of gas miles for additional
power. It takes less of this new motor fuel to cover
the distance.

**Can you name it?
\$1,000 in cash will be paid!**

To the man, woman or child in Washington, Oregon,
British Columbia or California (excepting employees
of the General Petroleum Corporation and their
families) who submits the name that is chosen by
the judges as being the best, \$1,000 in cash will be
paid.

Every General Independent Dealer is now pumping
this new and greater gasoline that is worth a pre-
mium but costs no more. Try the new gasoline.
Then submit your name for the thousand-dollar
prize.

Entry blanks from dealers

You may write your name on the coupon at the
corner of this advertisement, or any General Inde-
pendent Dealer will gladly supply you with addi-
tional entry blanks. Ask for them the next time you
buy gasoline.

Drain your crank-case and fill up with Parabase. It's
your insurance for as perfect a motor at the end of
the run as at the beginning. For Fords use Para-4rd.
