**IMPORTANCE OF CERTIFIED SEED**

Since only eight wheats—  
White Winter, Eaton, Jenkin,  
Holland, Rink, Huston, Defiance  
and Federation—are ever certified  
in western Oregon by the  
O. A. C. extension service, buyers  
of certified seed for planting  
may be sure that any lot  
of any other variety grown  
here is not certified. If they  
buy any other kind they take  
their own chances of the purity  
of the variety and freedom from  
weed seed and disease, which  
the college passes on in certified  
lots.

**"The Vine"**

This magnificent bronze by Harriett  
Frishmuth is on display in the Palace  
of Fine Arts at the Sesqui-Centennial  
International Exposition in Philadelphia  
where the 150th anniversary of the  
signing of the Declaration of Independence  
is being celebrated. This is  
but one of the many gorgeous and  
beautiful things to be seen in the Fine  
Arts exhibit. Famous artists from all  
parts of the world have sent their  
paintings, etchings and sculptures to  
Philadelphia to be exhibited during  
the exposition, which continues until  
December 1.

Let  
The Beaverton Review  
Do That Printing For You

**DOWN ON THE FARM**

Beaverton, Oregon, September  
17th, 1926. Dear Cynthia:  
Do you remember the tiny  
kittens you loved so well? They  
are half grown now, and you  
ought to see how cute they are.  
We have named them Agate,  
Spike, and Tiglith Pileser I.

Agate looks like a dark  
brown fur ball splashed with a  
few splashes of sunshine that  
have come to stay. Of mama  
cat's three children Agate is the  
most independent and disobedient.  
When mama calls pleadingly  
to come to bed she, or he, takes  
a fresh spell of playing  
and stays up entirely too  
late for one so young. I don't  
know whether Agate is a masculine  
or a feminine name. I  
wish I knew.

Spike (sex unknown to me)  
looks like she might be taken  
for a half brother to Agate. Her  
tail must be talked about.  
It is joined in the middle at an  
angle and tapers to a neat point  
hence the name. She is a high  
power catlet. To test her speed  
we attached a clothespin to her  
spiketail. In her investigations  
her speed became so terrific that  
all we could see of the darling  
was a dim blur on the landscape.  
While the rest of the family  
are asleep Spike amuses himself  
with playing with the thousand  
domesticated flies that hang  
around to look on the canning  
operations of your Aunt Mary.

Tiglith Pileser I was named  
after one of the Pharaohs of  
ancient Egypt. We have never  
had the heart to tell him why  
we gave him this name. We  
refuse to blight his young life  
by imposing the impossible  
task of trying to live up to the  
reputation of his illustrious  
namesake. Like old Tig, he is  
black. He worships snakes, too  
like old Tig. He is no sissy,  
and hates petting parties.  
Can't you come out and see  
them?

Your loving Uncle Charles.

**FARM REMINDERS**

Fruit picked in one Oregon  
orchard in the heat of the day  
registered 104 degrees, but was  
reduced by the night temperatures  
to 63 degrees. This fruit  
would have carried most of the  
day heat into the storage bins  
if stored at once. It is safe  
to say that one-half the pre-  
cooling cost and labor can be  
eliminated by proper use of  
night temperatures.

Pears with a bright color or  
blush have been found to keep  
better than fruit with a dull  
color. Some of the Oregon dis-  
tricts are noted for the amount  
of blush developed on the fruit,  
particularly on Bartlett and  
Comice pears. Experiments  
show that such fruit holds up  
much longer than the uncolored.  
It is less leathery, shows less  
willing, and retains its firm  
texture longer.

Wanted—Three dozen White  
Leshorn pullets. Must be  
good size. Will pay cash.  
J. W. Barnes. Adv p 42-43

**More of America's Huge Leather Consumption Going Into Exports**

**CHICAGO**—The feet of the  
world will soon be encased in  
American-made shoes, according to  
J. Harry Selz, president of the  
Selz-Schwab Shoe Company, who  
addressed a convention of leather  
producers here this week. In-  
creases in exports of shoes for the  
first quarter of 1925 showed an  
increase of 17.3 per cent over the  
same period of the year previous.  
"During the first four months of  
this year, 2,450,741 pairs of foot-  
wear, valued at \$5,678,754.00 have  
been sent abroad," announced Mr.  
Selz. "This is only a small part  
of the vast amount of American  
leather diverted to the shoe indus-  
try, but it is indicative of the size  
to which the American boot and  
shoe business has grown since the  
World War."  
"Statisticians tell us that the  
upper leather alone used in 1924  
would make a prodigious belt more  
than twenty feet wide around the  
world at the equator. The old  
woman who lived in a shoe," with  
all this leather at her disposal,  
need not worry over the numbers  
of her offspring for she might  
have a shoe large enough to house  
the Tribune Tower, the Wrigley  
Building, Straus Building, London  
Guaranty Building, Washworth  
Building, Brooklyn Bridge, and  
then shove the Municipal Pier  
down the toe.  
"American makers, during the  
first six months of this year, re-  
ported a production of 160,337,163  
pairs of leather footwear, as com-  
pared to 157,901,131 pairs for the  
same period of the preceding year.  
The shipments to non-contiguous  
territories of the United States,  
Alaska, Porto Rico, Hawaii and the  
Philippines, also show a pro-  
nounced increase for the present  
year," Mr. Selz pointed out.

**"Yo-ho!" Said the Indians, When They Saw Yoho Valley**

**TAKAKKAW FALLS, 1000 FT. HIGH**  
One of the outstanding beauty  
spots of the Canadian Pacific Roc-  
kies is the famous Yoho Valley in  
which there is a very comfortable  
bungalow camp facing Takakkaw  
Falls, a spectacular wall of water  
which leaps 1,000 feet from Daly  
Glacier on the mountain tops to  
join the turbulent Kicking Horse  
on its way westward. Tradition  
has it that the first Indians who  
saw this valley exclaimed "Yo-ho!"  
an ejaculation expressing astonish-  
ment. They named the falls Tak-  
akkaw, which means "It is won-  
derful!" Day and night the song of  
Takakkaw is like the rumble of  
distant thunder lulling one to re-  
freshing sleep when the day's  
hail falling over  
downward with the snow-white  
falls in endless procession are gi-  
gantic rockets of water which flash  
for an instant and are gone. Truly,  
Takakkaw is wonderful!  
Nearby, too, are Point Lacey Falls  
and Angels' Stairs, while a ride of  
a few miles on a sure-footed  
mountain pony over the pictur-  
esque trail to Yoho Glacier brings  
to view the loveliness of Twin Falls  
and Laughing Falls. The Yoho  
Valley is 11 miles from Field, B. C.,  
by automobile road and is reached,  
then by motor from Lake Louise  
and Banff. The bungalow camp is  
under the management of Col. P. A.  
Moore, Princeton graduate, ex-  
plorer and big game hunter, who  
has been in charge of the camp since  
1912. The camp is one of the  
most beautiful in the world, and  
as well as the name of every wild  
flower in this Alpine flower garden.  
The camp has a community house  
and many one and two-room bun-  
galows.  
Many other camps and rest  
houses are but a short motor or  
pony ride from Field and from the  
Yoho Valley, among them Emerald  
Lake with its chalet and burge-  
lows, Wapta Bungalow Camp, near  
Hector, B. C., Summit Lake Rest  
between Yoho Valley and Emerald  
Lake and Lake O'Hara Bungalow  
Camp on the shore of Lake O'Hara,  
which is of such matchless beauty  
that the late John Singer Sargent,  
a depicted more than a week  
long, and the lake's green water  
is a picture of the most beautiful  
of the world.

**KINTON**

(Continued from Front Page)  
of Portland, and Miss Sadie  
Miller of Hillsboro.

There was another "working  
bee" at the church last Friday,  
and more good work was done  
in beautifying the grove and  
church grounds, which aids  
greatly to the property.

Miss Hazel Halse, who has  
been a guest of Mr. and Mrs.  
Harold Cutting for the past  
week, has returned to Tigard,  
where she is visiting her grand-  
mother, Mrs. Alice Cutting.  
Mr. and Mrs. W. C. Hall and  
daughter Mary Katherine, of  
Salem, were Sunday guests of  
Mr. and Mrs. D. R. Sloan, who  
are occupying the Hall house  
here.

George Kimber, who has been  
in the east, and his daughter,  
Miss Vera Kimber, who has been  
in Grants Pass, are visiting at  
the home of Mr. and Mrs. War-  
ren Wilson. The Kimbers are  
former residents here.

More new cars have recently  
made their appearance on our  
roads. R. Teufel has a Buick  
six, Mr. Shannon has a new  
car of a popular make, and Jake  
Faix has traded his old Ford  
for a roadster of the same  
make.

William and Joseph Wenzel  
went to Rainier Sunday, where  
they were visitors at the home  
of their sister, Mrs. Kurt  
Braune. Joseph will remain  
for the school year, where he  
is attending the Rainier high  
school.

A Salem truck delivered two  
water tanks in town last Fri-  
day. One was for S. H. Pom-  
roy, the other for W. C. Hall.  
They will be set up as soon as  
possible. These will greatly im-  
prove the water systems on  
these ranches.

A family dinner was served  
at the home of Mr. and Mrs. C.  
Vandermost last Sunday. Those  
present were Mr. and Mrs. C.  
Munson and family of Linnton;  
Mr. and Mrs. Willard Gorsage  
and family of Gresham; Mr.  
and Mrs. Melvyn Vandermost  
of Cooper Mountain; Miss Marg-  
aret Vandermost, and the host  
and hostess. A very pleasant time  
was enjoyed by all.

Mrs. L. S. Bierly and Mrs.  
Mrs. Ethel McCormick and  
children moved to Hillsboro last  
Saturday, where they will re-  
side during the school year, and  
Miss Grace McCormick will at-  
tend Hillsboro High School.  
This family will be greatly  
missed as they have been res-  
idents here for many years. We  
will all look forward to their  
return to the Bierly home at  
the close of the school year.
