32,000 Pounds of Milk--One Cow

HOW would you like to ring up the farm cash register to that tune each year. Impossible? No, indeed! At the Pacific International Livestock Exposition in Portland last year, there were many producers with such records. And this year October 30, to November 6, there will be others for we understand that from all over America the greatest dairy stock known to man are booked for exhibit.

Here at the Bank of Beaverton we are doing everything within our power to encourage the raising of GOOD livestock. We believe this sort of policy is good business for our farming customers and that means it is good business for us. Tell us what you are raising in crops. We'll tell you how to convert those crops into livestock and the livestock into BIGGER dollars.

This is the \$1,000.00 name for this
latest and greatest of motor fuels

GENERAL
MOTO-CRAT
GASOLINE

HOMER M. PARSONS, of San Bernardino, California, is awarded the \$1000.00 in cash for the winning name. Out of more than a half million names received at Contest Headquarters, General "Moto-crat" Gasoline was chosen by the judges as being the most suitable for this latest development in motor fuel. The General Petroleum Corporation wishes to express its appreciation of the widespread and enthusiastic interest of motorists and dealers "from Canada down" in the new gasoline and in the contest for a name.

More than five hundred thousand names! Nearly seven tons of mail received at Contest Headquarters. Telegrams, registered letters, 'phone calls... never in the history of gasoline has there been such a widespread and instantaneous success as the introduction of General "Moto-crat" Gasoline.

No wonder!

Here's what
motorists get—

A noticeable increase in power and pick-up both summer and winter.
Less carbon deposit.
A noticeable increase in gas-miles.
No fuel knocks.
No pitted valves or fouled spark plugs.
Cheaper transportation cost.

Here's why they get it—

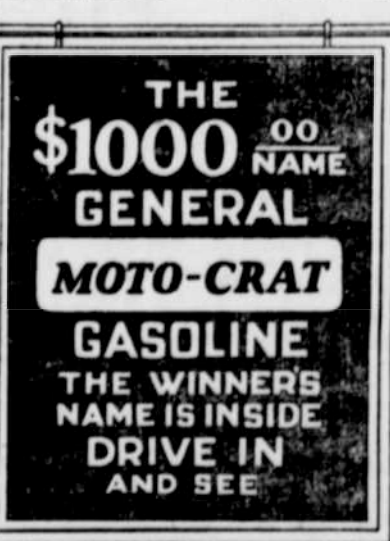

This new gasoline is highly volatile. Every drop vaporizes—it

burns clean, leaving no deposit to produce a carbon. It contains no acids or sulphur to pit valves or foul spark plugs.

This new gasoline is finely balanced. General "Moto-crat" Gasoline is the result of years of effort to produce a highly volatile motor fuel that does not sacrifice gas-miles for that additional power or sacrifice power for miles.

Every General Independent Dealer today has General "Moto-crat" Gasoline. Drive into his station and prove to yourself that there is a difference in gasolines. It costs no more.

"It's the end of the run that counts" with lubricants. Use General Parabase Motor Oils [Para-4rd for Fords]. They are your insurance that your motor will be as sound at the end of the run as it was at the beginning.

Look for this sign at service stations—the sign of the latest and greatest of motor fuels and an Independent Dealer

NAMED BY THE PUBLIC SOLD BY INDEPENDENTS
