LETTERS FROM A COLLEGE FRESHMAN

Corvallis, Ore., Sept. 25, 1926. Dear Folks:—I got your letter yesterday, but evidently you had not got mine when you wrote. What do you think of that list of things? And I'll tell you something else I need, but will probably have to get along without—that's an electric iron. They have a laundry room here and wash tubs, but no irons.

About the galoshes, I don't care what kind they are, just anything will do. I had to write a check for \$20.00 for books and gym. suit. The books were \$15.40 and the suit, \$5.20, WITHOUT shoes. I haven't got them yet. They will cost about \$1.85, I think.

My laboratory fees won't be so very much but I have a lot of incidental stuff to pay yet. The "Student Fee" is \$5.50, a term, the Memorial Union fee is \$3.00, I think and so on, forever and ever. I registered for English, zoology, history of Western civilization, Spanish, Journalism, social ethics, gym, and swimming. All but Spanish and Journalism were required. I'm carrying seventeen credits.

Got "starred" in the English exam. There were three groups, starred, regular and flunks. Starred was a grade of "B" or more. Say, Dad, send me your zoology notebooks, will you? There may be some useful stuff in them.

Got the paper (The Beaverton Review) but didn't see my name in it so was very disappointed. How's Dorothy getting along?

Does Billy look any older, now that he is two years old? We've been on the go all week. There was just one thing after another going on. Oh, say, you remember the De Moss family, those musicians? Well, I've been running around with the daughter of the man who wrote, "Sweet Oregon." She's awfully nice. She plays the violin and is taking a course in music.

Tonight is the Student Body dance. Probably, I'll go with Beulah, the De Moss girl. Well, Good-bye, and write soon to your loving daughter, Tina.

The first grade has grown so large that they have had to put part of them in the second grade room.

The seventh grade regrets the loss of Margaret Leis. She has withdrawn from our school and entered St. Mary's.

Some of the rooms have begun to put up Halloween decorations and it is rumored that there may be some Halloween parties.

Mrs. Bixby, who has been ill and absent from school since the opening day returned Monday. Mrs. Boswell substituted for her in her absence.

The eighth grade is having a spelling contest. The captains are Betty Taylor and Ronald Webb. Betty's side is ahead with 98.66% and Ronald's 96.6%.

Miss Cleo Thompson of Portland was a week-end guest of Mr. and Mrs. Guy Carr.

Mrs. H. L. Hudson accompanied by Mrs. Ray Dunbar and daughter, Patsy, left Thursday for Goldendale, Washington, to be present at the celebration of Mrs. Hudson's father's eighty-sixth birthday. Mr. William Van Vactor will be eighty-six years young, Friday.

Mr. and Mrs. W. B. Emery and family of St. Johns, Mr. and Mrs. McElroy and daughter of Portland and Mr. and Mrs. L. B. Kaiser and daughter, Miriam, were visiting at the W. P. Brooks home Sunday.

Worthy of mention in our district is the fine crop of alfalfa grown by Max Berger. This is the first year of harvesting and it has yielded five crops averaging between five and six tons to the acre. It has been pronounced the best in this county.

Friends of Mrs. B. L. Griffiths will be glad to hear that she was the lucky winner of a five dollar bill and \$10 on a savings account at the county fair. She attended the State Fair and we hope she was as fortunate in contests held there.

THE BLACK HOLE OF CALCUTTA

(Written by a fourth grade pupil, Kenneth Taylor)

Long ago in India, the Hindoos and British were fighting. The Hindoos took one hundred forty-six of the British as prisoners. They were taken to a very small room, only twenty feet square. It was not long before the men were gasping for breath. When morning came, there were only twenty-three left, out of all the one hundred forty-six men. That dreadful night is remembered and the prison room which they were in has been named, "The Black Hole of Calcutta."

-This is the Difference-

Ten percent of the farms of Oregon have electric service, all from regulated companies.

Less than three percent of the farms of Ontario, Canada enjoy the benefits of such service.

In Oregon the regulated utilities are extending their lines as fast as business conditions reasonably permit. Gradually but steadily that service to rural communities is increasing.

Ontario, served in part by the provincial government, serves the centers of population.

Government operation means political operation.

Political operation is after the votes.

The Housewives' Council "Water and Power" Amendment gives an inexperienced board absolute authority to spend fifty-three million dollars from the sale of state bonds, for which all property in the state would be mortgaged. The farmer-taxpayer helps to guarantee the debt, but the Ontario experiment shows who gets the service.
