Vote the Republican Ticket

ELECT
FREDERICK STEIWER
U.S. SENATOR

ELECT
I. L. PATTERSON
GOVERNOR

The election of Steiwer as U. S. Senator from Oregon is of national importance. By virtue of republican control of the Senate McNary holds the chairmanship of the important irrigation and agriculture committees. If the voters of this state should go so far afield as to elect a democrat it might mean a loss of republican control of the Senate and a consequent surrender of Senator McNary's vital committee chairmanships.

Patterson is familiar with the problems that would confront him as Governor of Oregon. A farmer, he understands the problems of the farmer. A business man, he knows the needs of business. He promises fair and just treatment for all. He will seek to lower taxes through a reduction of the cost of state government. He will not follow established precedent and spend most of his time away from the state capitol.

A vote for Steiwer, the regular republican primary, nominee is a vote for republican control of national affairs.

Patterson will be your Governor, on the job, attending to the business of the state as it accrues.

Bonds! Bonds! Bonds!

Voters are urged to read Section 4 of the Housewives' Council Constitutional Amendment authorizing the State of Oregon to go into irrigation schemes and into the business of manufacturing and selling light and power:

"Bonds of the State of Oregon, not to exceed five per centum of the assessed valuation of the state, may be issued and sold from time to time to carry out the purpose of this Article and the full faith and credit of the State of Oregon is hereby pledged for the payment of the principal of said bonds as the same mature, and the interest accruing thereon as the same falls due."

Every voter should know that the assessed valuation of Oregon is \$1,058,880,736, and that the Housewives' Council "Water and Power" board could issue and sell bonds for \$52,944,000. Your property would be a guarantee for the payment of this huge debt.

Oregon's total bonded debt, including that of all political subdivisions, is now more than \$166,000,000. Its State bonded indebtedness alone per capita, \$47.08, is the highest in the Union.

As fast as this political board might retire bonds, it would have the power to issue more: and as the assessed valuation increased the amount of bonds could also increase.
