

MOUNTAIN LAKES

By

Derne Bright

O wind-blue mountain lakes adream
Beneath the sky,
Your slim wild beauty thrills my heart
Like a cry.
Cupped in the valleys' open hands—
Gold drops of dew
Tintured with dawn—O little lakes
Silver-blue!

When I am weary of the town
And the street's flare,
Your sweet wild beauty fills my heart
Like a prayer.

She found Jesus Christ as her Saviour a short time before her death, and was fully prepared for the life to come. The suffering was so intense that she prayed the Lord to take her unto Himself. A short time before she passed away, she said "Take me, Jesus, I'm ready."

GALICCHIO'S HOLLYWOODS ARE PROVING PROFITABLE

(By E. M. Golder)

If you want to visit a poultry farm that is paying the owner a nice profit, right along, call on A. Galichio, in south of Tigard. He has been in the business only a few years, but has developed a flock of a little over a thousand hens.

To be exact, he has 400 two-year-old hens and 640 pullets of last March's hatch. The pullets started laying in September and their laying percentage was 54 for that month and in December they averaged 65 per cent egg production. From all indications their percentage for January will be close to 75. The two-year-olds are averaging 55 per cent right along and hold to that.

The main poultry house on the farm is 20x70 and there is one 20x60 and the smallest is 18x10. The three brooder houses are each 10x12 feet and made right. Four 540-egg incubators are in use as the proprietor does all his own hatching system. (W. H. Hart, inventor of the system, lives near Beaverton.) Galichio is a member of the Poultry Association and is now getting 40c a dozen for his eggs.

The son is a graduate of O.A.C., having taken a complete course in Poultry Husbandry there. He is now at home with his father and mother, assisting with the work.

NOTES FROM BEAVERTON CHAMBER OF COMMERCE

(By M. H. Metcalf, Secretary)

The secretary received a request from the U. S. Forest Division to secure the names and addresses of all shingle and lumber mills in Washington county. This takes in all the different towns where mills are located. The reason for securing these names is that the U. S. Forest Division wants them for their annual report which is published and sent out to various lumber communities.

In order that the names be secured, it is requested that all companies doing this kind of business should send their names to the Secretary of the Beaverton Chamber of Commerce. When the names are received, they will be forwarded to the U. S. Forest Division.

There is no charge for having these names listed and it is hoped that the Secretary may have a good response from all who desire to have their names listed. Some of the companies may be already listed but in order that we may have a thorough check, it is requested that all send in their names. Be sure to give names and proper addresses.

The Chamber of Commerce will have a dinner served in the near future by one of the local churches. Be sure and watch for the date.

All members of the Chamber of Commerce are requested to send in their dues for the past quarter to the Secretary. The above dues are now past due and it is hoped that the members will give this matter their prompt attention.

Basket Ball Teams Beat McMinnville

Final Scores Are: Boys, 17 to 16; Girls, 15 to 3; Both Games In Favor Of Beaverton

Beaverton basketball teams both the boys' and the girls' won their game Tuesday evening when the fast aggregation from McMinnville came out our way hunting for scalps.

Your reporter did not arrive on the battle ground until the girls' game had been finished and the boys were almost half through with theirs. But from what we saw, we believe this one of the best, if not the best, game ever played on the local floor. Everybody on their toes, all the time, and rooting for good plays no difference which side made the good play.

At the half, the score stood 9-5 in Beaverton boys' favor. McMinnville came into the last half determined to win and was able to score an occasional field goal but mostly failed in trying for goal after a foul.

Beaverton made two field goals and one point from foul and at the end of the regular time the score stood fourteen all. The referee gave them two more minutes to play and then the score was sixteen all.

In the next two-minute playing, McMinnville failed to put the ball through the basket and when one of the local boys got his chance, he scored.

This is a very inadequate account of the game but we had expected that a party who was on the ground would write it up for us but we didn't get any copy—so there you are—or is it there we are? Anyway it was a mighty good game and those who didn't see it missed a lot more than they probably think.

Boys' score: Beaverton 17, McMinnville, 16.
Girls' score: Beaverton, 15; McMinnville, 3.

ED. ROBERTS RAISING THANKSGIVING TURKEYS

(By E. M. Golder)

Mrs. Ed. F. Roberts, who lives in the Ducham district south of Tigard, has 132 Giant Bronze turkeys that she raised last season. She expects to raise 600 or more this year, and is equipped for it. She has not suffered any losses with the poulters at all and she attributes her success to her method of letting the birds live as close to nature as is possible.

She keeps Rhode Island hens to hatch the eggs, and Barred Rocks for the family egg supply and for table use. She puts a good many eggs on the market but raising turkeys is the principal business on this 28-acre farm. She has an incubator but the hens seem to be hard to beat for hatching the turkey eggs.

The team from Lane county took the affirmative side and the Brush College Grange in Polk county took the negative side. The judges decided in favor of the negative.

Mr. Paul Naris presented the winners' with a beautiful silver loving cup.

Mrs. B. K. Denny, of the Beaverton Grange was in attendance.
