

**PROGRESS PEOPLE PROVE PROGRESSIVE**

(By Elmer M. Goider)

Called at the Carl Hansen home and found Mrs. Hansen quite ill with an attack of flu.

I. L. Morelock was absent from home when I called. He is one of the "old-timers" around here and has always raised a large crop of fruit in his orchard.

Mr. H. P. Downing has a fine looking place. They say H. P. was born and raised right on this place along Watson road.

Mr. Floyd Brown was engaged in repairing his harness and doing various little jobs to put things in shape for a busy spring time.

Thursday, the 13th—had it been Friday, the 13th, some folks would have advised me that I'd be plumb out of luck, but as it was, luck was with me on the 13th, as that day of the month is generally one of my best, and the rain and wind didn't stop me from gathering up news items and a few other things that came in my way. And, bye-the-way, I found several people who seem to like to read county news, and I believe we can furnish them with all the "clean reading for all the family."

Mrs. J. W. Thomas was quite ill with la grippe, but I hope she is better now.

Freda Thomas came home from school the afternoon that I called as she was ill—coming down with a cold or the flu.

Mrs. Robinson has been ill over a year. She has just returned from a hospital but did not seem to be much better.

Mabel Hansen, the daughter of Mrs. Carrie Hansen, returned from a Portland surgical hospital recently much improved

in health, after being under the care of Dr. Coffey of Portland. She had a nervous breakdown caused by a fall some time ago.

Mrs. Elizabeth McGowan has about recovered from a severe attack of the grippe. She was sick more than a week.

Now we are going to get to business—to tell you about the store business at Progress. H. F. Eliander and wife started up here last March. They have developed a wonderful business. They handle General Gasoline, and oils and have a service station at the corners of the Scholls-Ferry and the Tigard roads, a station that has a very good appearance. Mr. Eliander does about all his own hauling from Portland and he has practically no overhead expenses. As a result, figures on competing very closely with the chain stores and if anything he is underselling them on some articles. He handles nearly everything you could expect to find in a general store, and a considerable more besides. If a fellow happens to want more than one thing is sure, when you go in there you are waited on promptly—service, mind you!

Mr. Harry Cooper of Salem has rented the William Hilgers blacksmith shop and is doing a good business here because he does excellent work. Mr. Hilgers has been ill with a cancer, but Dr. Coffey of Portland has been treating him and they say he's coming along okay.

Going to be out this way again soon and see some more of the progressive folks of Progress. You folks who subscribe for The Review are going to get a lot of good news.

OILS, OIL ACCESSORIES  
ELECTRICAL EXPERT  
4028 6th Avenue, S. E.  
General Petroleum Corporation, Woodlark Building, Portland, Oregon.  
Gentlemen:  
Just a word of commendation in regard to your new General Gasoline. On a recent trip to Salem and return I covered a distance of 104 miles and used exactly 6 gallons of gas nearly 11 miles per gallon.  
This was very gratifying to me as the best mileage previous to this was 12 miles per gallon. I drive a Ford Coupe. She seemed to have more pickup and a noticeable increase of power on the hills. In short, I am thoroughly sold on the new and greater General Gasoline.  
Yours very truly,  
John E. Peterson  
45th & Woodstock Ave., Portland, Oregon.

Five more miles to the gallon with new and greater **GENERAL GASOLINE**

Here's proof that there are more gas-miles in the new and greater General Gasoline! But that's only a part of it. Read these results—more power in the new General Gasoline—less carbon deposit—no fuel knocks—no crank-case dilution—lower transportation cost. Here are the reasons—of course you get more power and a quicker start with the new General Gasoline. It is highly volatile—perfectly balanced. No acids or sulphur. Drain your crank-case and fill up with Parafin motor oil. Parafin for Fords. "It's the end of the run that counts." Write us about your unusual experiences with the greater General Gasoline. General Petroleum Corporation, 701 Matson Building, San Francisco.
