Clean Reading For All The Family

CALLIOPE DANCE A CIVIC BOON

"And we'll all go 'round to Mary Ann's To tickle a tune upon the piano!"

But in Beaverton last Saturday night everybody from everywhere seemed to be singing—

"We'll all go 'round to Stipe's garage And trip the light fantastic."

They came in flocks and droves until our main and side streets were literally lined with cars. Old and young, home folks and strangers, all were enjoying the specially prepared floor, the geniality of the Stipe's staff, and the novelty of the music, furnished by the Chevrolet calliope.

What a fine thing live people are to a community, anyhow! Affairs like this, which hold forth promise of fun and excitement, not only bring people from outside to our city by the hundreds, but also bring together, socially, our own townpeople.

Life is short and fleeting! We shall not pass this way again. So why not everybody show the call-em-out spirit of Mr. and Mrs. Stipe. Congenial people always respond and the result is—as it was Saturday night—a good advertisement for our town, a happy break in the monotony of our work-a-day lives, new friendships formed, and old ones brushed up—a general stirring of the civic blood which grows sluggish without exercise.

Everything was done by the hosts for the enjoyment of the crowds and no charge was made for anything—even the cool refreshing Red Crown kickless punch, donated by the local branch of the Standard Oil Co., and served by charming ladies.

McNARY-HAUGEN BILL AGAIN

Back comes the McNary-Haugen Farm Relief bill. Agriculture in general and mid-western agriculture in particular, is at sea and the battle for Federal aid is to continue. For the sixth time this measure is to demand the attention of Congress and the President—and unless all signs fail the next Congress will again put it up to the President to give agriculture some sort of relief or assistance, else have the party face a vital issue in the 1928 election.

Concluding a strenuous two-day session, in which agricultural leaders representing various organizations from a dozen mid-western and southern states participated, the Northwestern Agricultural Conference at St. Paul last week passed a resolution demanding that the McNary-Haugen Farm Relief bill be enacted into law at the next session of Congress. Further, another resolution was unanimously adopted requesting the House Committee on Agriculture to meet before the regular session of Congress and have the McNary-Haugen bill ready for introduction when Congress convenes.

Senator Brookhart of Iowa, Congressman O. J. Kvade, of Minnesota, and many members of Congress from mid-western and southern states were among the speakers and virtually all urged unremitting effort to gain "full equality" for agriculture. It was declared the administration had "clearly repudiated the platform on which it was elected" in its failure to give relief.

So with our Flood Relief—Farm Relief; our efforts being a barrage or the ground-work for tariff revision "downward" (and scheduled immediately after election) and our usual presidential year maneuvering of our leaders, the December session of Congress promise to be merry.

LAW OF CREATION

It is easy for the superstitious to imagine that "nature" or the "demons" or whatever they choose to blame is working against this earth. There have been sunspots, a total eclipse of the sun, extraordinary weather all around the earth, floods, electrical storms, earthquakes, France and the British Isles within a few days had poured down upon them 100,000,000 tons of rain with terrific lightning and thunder. If the earth were as small as Noah thought it and as flat as he supposed it was, the 100,000,000 tons of water would have called for another Ark.

"If I ascend into heaven, thou art there; if I make my bed in hell, behold thou art there." David wrote thus in the 139th Psalm, and the latest earthquake news reminds us that if we "take the wings of the morning and dwell in the uttermost part of the sea" we shall not escape the power that rules all creation.

The Maharajah of Batlam from India is in the United States to play polo. Can you imagine rooting for a name like that?

The reason youth no longer respects gray hairs is because most of them are dyed black.

Dr. Frank Crane Says

DON'T GIVE UP

Whatever has happened to you, don't give up.

Do not admit that circumstances are more powerful than you.

Though your head be bloody it should not be bowed.

You may have had financial losses and the accumulations of years may have been swept away, possibly by the treachery of some friend. What of it? Tighten your belt and go at it again.

Your health may be impaired. What of it? Other people have had discouragements and have lived bravely through them. The world is full of unsung heroes who have met with reverses and yet keep up a brave front.

Keep your flag flying. The bankrupt merchant or the disillusioned youth may see no escape but suicide, but those who are wiser tackle the problem again.

There is no great teaching that does not instruct us that we can rise upon our faulty past and climb the stairs to a finer future.

Nothing more erroneous was ever preached than that for you or any man or woman there is no hope.

If you have sinned, or if you have made mistakes, rise up! Shake off the past and face the future. There is no man living but what has committed some errors. We can allow the burden of life to plunge us into despair or we can shake it off and seek other fields.

The world is wide and if there is any one thing that both religion and philosophy teach us it is that we can rise upon the wreck of our dead selves and enjoy that which remains.

About Your Health

Things You Should Know

vitamin content."

Then why tangle the layman up with a profundity which we cannot even demonstrate ourselves? When a man or woman talks to me about vitamins and hormones, I feel sure that I am up against the eleventh page of the Sunday newspaper. This is embarrassing to both the patient and myself. There are enough well known facts in the hands of the faithful physician, that he does not need to confuse the patient with calories, vitamins and hormones. The more the patient is befuddled with endocrinology and metabolism, the more likely is he to be suspicious of good plain, sensible food.

Nobody but a fool would take away from the sinewy manual laborer, the fried beefsteak which is required to keep him physically fit for his job—even if frying does kill all the miracle-working vitamins supposed to reside in the succulent protein. But it is entirely anagrams, milk and wholegrain bread are among the richest in

by John Joseph Calne, M.D.

PLAIN COMMON SENSE

We hear much about "vitamins"; I overheard a vociferous diet expert recently broadcast from a local station, a discourse on the subject; said he in substance: "Nobody has ever seen a vitamin, nor has any one ever tasted one; we do not know just what they are, like, whether liquid or solid; but we do know this; that anagrams, milk and wholegrain bread are among the richest in

and a blood pressure of 190, on the same sort of fuel. One man's antidote can, in truth, be another man's poison! Science abounds in mathematical precision; common-sense is exercise of that most wonderful endowment of the sane—judgment. And judgment may save life, though the geometric line from somewhere to nowhere be forgotten.

BEN FRANKLIN SAID

Old Ben Franklin said . . .
 "A Penny Saved is A Penny Earned."

BEN must have had the saving possibilities of such a store as this in mind when he spoke.

WE carry the best of everything in the grocery line and only try to make a fair margin of profit. If you are too busy to call, phone us and we will take exacting care of your needs.

STIPE'S GARAGE

This Week

By Arthur Brisbane

WILLIAM HOWARD TAFT. FATHER PLAYS BEAR. AND REASON TO BE THANKFUL IF I HAD SOME MUSH.

Justice Taft says he likes the law better than the White House and, nearing his seventieth year, announces he will not retire. He certainly should not retire, for he owes to the public many future years of good effort. His mind and his smile are as young as ever, and every well informed man in the United States, big or little, would gladly submit any issue to the judgment of Chief Justice Taft.

In six hours New York's National Guard laid out an airplane base, ready for use, with radio, telephone and all other requirements. A fine achievement.

The United States Government should take as much time as necessary to provide an airplane base for every great city.

Governors Island in New York Harbor should be given up entirely to flying, with a big dock for submarines.

The richest city, New York, containing the United States Sub-Treasury and all its gold, is unprotected from the air.

There ought to be an air field there from which swift United States pursuit planes would rise like mosquitoes from a stagnant pond, to meet any invader.

MEADOWLARK NAMED FOR OREGON STATE BIRD

Salem, July 19—The "Western Meadowlark" Monday was proclaimed the state bird of Oregon by the executive department. The bird was selected by a vote of school children.

A 1925 Chevrolet touring car, license number 21-654, and belonging to W. A. Snyder, of Cedar Mills, Box 136A, R. 2, Portland, was stolen from in front of the Beaver theater on Wednesday night, while Mr. Snyder, with his family, was attending the show.

Oh Boy, But That Is Good!

You just can't help smiling when you drink it. Drink more milk. It is a healthful and satisfying food. Milk fresh from our dairy delivered daily to your home—if you will but step to the phone this moment and tell us to call. Try us for a week or two and note the difference. Always at lowest market price.
