It costs so little to have Running Water

Perhaps you have always thought of running water as an expensive luxury.

As a matter of fact, the investment in a Fairbanks-Morse Home Water Plant completely installed is less than half the average assessment for a city water main! Furthermore, the

cost of operation is merely a few cents a day!

No matter where you live you can have all the convenience, all the health protection of running water.

There is a plant for drawing water from any source—lake, spring, stream, shallow well, deep well, cistern. These plants are furnished to operate on electric, kerosene or gasoline power, in sizes from 120 to 5,000 gallons per hour. The electric plants operate automatically. Come in and let us show you the plant that will meet your requirements.
