## Beaverton Review

—By—  
THE REVIEW PUBLISHING CO.  
Issued Every Friday at Beaverton, Ore

Entered as second-class matter December 9, 1922, at the postoffice at Beaverton, Oregon, under the Act of March 3, 1879.

FRIDAY, SEPT. 2, 1927

### POWER COMPANY REDUCES RATES

The Portland Electric Power company announces a voluntary reduction in the rates for electric service to consumers in the Tualatin Valley Division, which serves Hillsboro, Beaverton, Ore., Elmtonia, Cornelius, Dilley, Gaston, Banks and vicinity. A new tariff setting forth the schedules has been filed with the Public Service Commission of Oregon and will be effective on and after September 1, 1927.

The new residential schedule is designed to encourage the use of domestic electric labor saving devices, including domestic electric water systems, refrigeration and ranges—all services including lighting, through one meter.

The new schedule will effect an average reduction of 12.75%. A new schedule for electric water heating in homes using electric ranges has also been filed.

The new power schedule is designed to encourage the use of electricity in industry and to take care of any large power consumers who may desire to locate in the territory. This schedule has a top step of six cents per kilowatt hour, a against seven cents per kilowatt hour at present, and goes a low as one cent per kilowatt hour for large users, as against two cents per kilowatt hour in the present schedule.

The new schedules will reduce bills for electric service for at least 95 per cent of the customers served and will increase none, according to a report issued by the company.

### LETTERS FROM OUR READERS

Roosevelt Highway, Ben Jones Memorial Committee, Toledo, Oregon. To the Editor of the Review: Your assistance is solicited in extending to the people of Oregon an invitation to be present at the dedication of the Ben Jones Bridge, across Rocky Creek, Lincoln County, Oregon, on Saturday, September 17, at 10:00 A. M.

A rendezvous will be held in Newport, Friday evening, Sept. 16, led by the Portland Ad Club. Sincerely, W. C. Belt, Chairman.

### LOCAL NEWS

The Misses Phyllis and Wilma Koenig are guests this week of the Misses Gladys and Edna Blanken.

C. H. Pearce, song writer, has returned to Beaverton for a short stay following a vacation at his summer home at Port Orford.

R. E. Hanna is improving the exterior appearance of the Whitehall Cafe, with several lines of gold enlays, which inform the world, in a rather dignified manner, of the different commodities for sale within.

Miss Fern Haines and Mrs. Gladys Tucker are at Turner this week attending the G. E. Summer Conference. Mr. Tucker expects to go down for the week end and return with them.

Alderman and Mrs. J. W. Raynard and family motored to Bandon Sunday to attend the picnic held at that place by members of the Oregon Telephone company. Before returning they visited the company's home office at Marshfield.

W. J. Dryden of Los Angeles made a short visit with Mr. and Mrs. L. R. Metzler, while on a motor tour of the Pacific coast. Mrs. Stoltz is a niece of Mr. Doering's, and a cousin to L. R. Dean, of Dean's Drug Store. The three families dined together at the Doering home on Tuesday evening.

H. L. Hopkins and bride, of Humboldt, Ariz., made a honeymoon call on Mr. and Mrs. L. R. Metzler, Tuesday. Messrs. Hopkins and Metzler are old school chums, each following pedagogy as a vocation. Mr. Hopkins is superintendent of the Humboldt schools, while Mr. Metzler in a like capacity directs the destiny of our local halls of learning.

Dr. and Mrs. Hetu were Sunday guests of friends at Vernhoort.

"Gooley" Galloway, who spent the summer with a surveying party, has returned home.

Miss Doris Osbourn of Portland spent Sunday at the Aloha home of Mr. and Mrs. N. J. Skee.

Twelve hundred Indians are busy picking huckleberries near Klamath Falls. A big crop is reported.

R. A. Owens, formerly with B. S. Kingsley when the latter conducted a store on the site now occupied by the 20th Century, before moving to Wheeler, is present location, was in quest of a grocery location. Mr. Owens said he might purchase or establish a grocery business in Portland, providing he fails to find a suitable location in a smaller center.

## This Week

By Arthur Brisbane  
**SOME DRINKING FIGURES**  
**EGYPT CONTROLS BOLL WEEVIL**  
**FARM LONELINESS BANISHED**  
**SCIENCE AND RELIGION**

America's millions, who imagine they are thirsty for light wine, beer or something stronger, will be interested in this important news. United States capital has recently lent nearly \$500,000,000 to help foreign countries develop their liquor and beer business. Even in the Far East, this country has financed liquor production to the tune of more than \$5,000,000.

Mr. Hayward Kendall, who represents unorganized drinkers that ought to be saved from themselves, says: "The Eighteenth Amendment is saving America (in cash expenditures and increased efficiency) from six to eight billion dollars a year."

The nation's purchasing power has certainly increased amazingly since prohibition came.

In 1919 there were in America 6,500,000 automobiles. Now there are 20,000,000, and not enough. The country spends half a billion a year on radio, many millions for washing machines, vacuum cleaners, electric refrigerators. Workers in America spend more lavishly than the rich in Europe.

Mr. Kendall thinks it would be a national calamity if the outputting of money were diverted from automobiles and radio to wine and beer.

While the boll weevil continues spreading in the United States Cairo telegraphs that: "Thanks to vigorous Government measures, the area affected by the boll worm has been considerably circumscribed."

Egyptian acreage affected by the pest has been reduced from 80,000 to 5,000 acres. What Egypt can do this country certainly ought to do. We have the scientists, the money and the boll weevils. What is the matter?

This new scientific extra papers, like a Dempsey-Tunney fight, but will be important long after Dempsey and Tunney cease to be important. Pennsylvania State College has discovered that the vitamin B, so important to life, is manufactured by the cow in her stomach in great quantities.

Scientists cut a little door into the "rumen," or second stomach of the cow, and deprived her of all food containing vitamin B. Nevertheless, in a little incubator that second stomach the cow produced the precious vitamin B in profusion.

They may mean to child life as much as the admirable light bulbs, impure milk made by Nathan Straus.

In cities people go crazy more frequently than they once did. Excitement, bootleg liquor and other things help. In New York State one person in every twenty-five has been in the insane asylum, according to the American Psychiatric Association.

There is less insanity than formerly among women on farms. Loneliness, that used to drive them insane by the thousands, has been softened by telephone, radio, parcels post, and, above all, the automobile.

President Vinson tells young people of Western Reserve University that no conflict exists between science and religion; they occupy different fields. He wisely remarks that science, without religion, would lead to hopeless materialism, just as religion, when it denies the plain truths of science, leads to fanaticism and superstition.

## Our Practical Pattern

No. 1152

Smart, indeed, will your new dress be if you choose this clever pattern and reproduce it on a figured silk with saffron for the trimming. The very newest touch of all is seen on the large applique motif of the satin on the front of the waist.

See how "Parisian" it makes the whole dress! The new rayon materials would make up nicely in this model. May be obtained in sizes 16 to 44. Size 36 requires 2 1/2 yards of 40-inch material and 1 1/2 yards of satin for skirt and trimming. No dressmaking experience is needed to make Design No. 1152 if you use these patterns, which are individually hand-cut of heavy paper.

## INDUSTRIAL REVIEW

A new six-room school has been completed at Marcola. Grater Lake visitors up to August 15 numbered 50,000.

The Sutherland oil prospect well is below 2000 feet, with gas showing.

Klamath county will ship a thousand cartloads of potatoes this year.

The California-Oregon power plant at Prospect approaches completion.

The Tillamook First National Bank has purchased the Cloverdale Bank.

Rogue River orchards will ship 6,000 tons of pears to Oregon plants.

The Clifton schools are making plans for a new \$6,000 gymnasium.

Cosco county has added \$2,500,000 to its taxable values by forest recruise.

Klamath county's new timber cruise adds 893,000,000 feet of taxable timber.

The Corvallis Creamery has opened a cream and ice cream plant at Roseburg.

The Portland Electric company will serve 50 new customers at Deer Island.

Several carload shipments of green prunes have left Sutherlin for Eastern markets.

The new \$175,000 Hood River high school is finished and will soon be in use.

Heavy shipments of dairy cattle continue to leave Gold Hill enroute to California.

Federal reclamation project in Malheur county will store 700,000 acre-feet of water.

The Southern Pacific will build new station at Marshfield costing about \$20,000.

Important hydraulic mining prospects have been opened on Slide Creek, Coos county.

New post office and store building at Redport has been completed at a cost of \$25,000.

The general contract for the Gray memorial chapel at Clatsop Plains has been let for \$16,768.

A new city well at Coquille yields 200,000 gallons a day, a quantity sufficient for city use.

Bids have been asked on 12 miles of roads in Gilliam, Jackson, Josephine and Umatilla counties.

Reports from Klamath Falls state that the Northern Pacific plans to build a drawbridge on Lake Ewauna.

The steamer "Mexican" has left the Astoria harbor with a load of 20,000 cases of salmon, the largest shipment in port history.

The Terminal Ice & Storage company has bought the Lawrence warehouse at Salem, for \$60,000, and will spend \$125,000 in a plant.

Mr. and Mrs. Lou Koenig and family of Woodburn were visitors at the home of Steve Blanken Sunday.

## ANNOUNCEMENT OF Electric Rate Reductions

Applicable to its Tualatin Valley Division, the Portland Electric Power Company announces reductions in rate schedules of all classes of service, subject to the approval of the Public Service Commission of Oregon, to be made effective September 1, 1927.

These reductions are due in a large degree to the generous use of its Service by the people of Washington County. The new rates are designed to permit further use of electricity in the homes and industries at especially low rates.

Your electric company further acknowledges its duty of continuing to extend its service to all communities and farms in Tualatin Valley. The Portland Electric Power Company desires to continue to merit the confidence and patronage of its customers.
