HAPPY NEW YEAR!

A new year is born and an old year dies. It's time to hang up a new calendar, make good resolutions, and be at peace with the world. But, after all, a new year begins every day, even though the calendar may disagree. Every day affords just as great an opportunity to make good resolutions and to keep them as does January 1st. As the maker of good resolutions remembers this, it may be easier for him to keep them.

At any rate, we wish to those who make good resolutions and keep them, to those who make good resolutions and break them, and to those who make no resolutions at all an exceedingly Happy New Year's Day and a 1928 filled with days each happier than the day before.

STATE MOTOR ASSOCIATION FINISHES POSTING SIGNS

The Oregon State Motor association announces that the signing program in Washington county has been completed, a total of 110 locations having been posted.

The posts located bore a total of 1327 direction signs, and practically every necessary sign in the county has been erected, there remaining only a few suggested locations which have been added to the original program, and which will be posted during the coming spring.

The next county in which signing activities will be started will be Columbia county, and Engineer Reusswig of the Motor Association has already arranged a meeting with the engineer of that county to lay plans for immediate sign posting.

MUST OWNER SUFFER IF STOLEN CAR IS SEIZED?

The question has often been raised by motorists as to their responsibility if their automobile is stolen and used in the transportation of intoxicating liquors. Would it be forfeited to the Government without regard to the rights of the owner?

Motorists have also been desirous of knowing their responsibility if they loaned their car to a friend, or gave a "lift" to a stranger, and the car was seized while the friend or stranger carried a hip flask containing intoxicating liquor. Would their cars be held and sold by the Government?

The Oregon State Motor association in investigating the above question finds that the best legal opinion holds that the Federal Government has the right to demand the forfeiture of any vehicle seized by its agents while being used to transport or conceal illicit intoxicating liquors. It makes no difference, in law at least, whether the vehicle is an automobile, wagon, boat or bicycle, nor whether the person in control is the owner, lessee, conditional vendee or thief.

The statute giving the Government this unlimited power is known as Section 2450, Revised Statutes. Under it, when liquor is being carried or concealed, the vehicle becomes "tainted with the crime," and may be forfeited to the Government through proper proof in a libel action.

The Department of Justice appears to sense the danger of too drastic enforcement of Prohibition. While it is believed to have the right to forfeit stolen cars, it prefers to exercise some degree of common sense, in an effort to maintain public support. With respect to seizure of "liquor" cars not stolen, Federal prosecutors may elect at will to libel the automobile, or to prosecute the person arrested.

Isaac Best is confined to his home by illness.

MIGHTY CHEMISTRY NO ATHEIST GRIP INDUSTRIAL WAR OUR STANDARDS?

Dr. A. B. Lamb, who teaches chemistry at Harvard, says chemists will solve "humanity's three major problems of the future, the supply of energy, of food, and prevention and cure of disease."

Progress is swift. Twenty-seven years ago chemists solemnly agreed that in chemistry the limit of knowledge had about been reached. And since 1900 more has been learned about chemistry and its possibilities, including construction of the atom and the power locked up in it than had been learned in all the previous centuries.

The Rev. Frank W. Bible, missionary, says "Atheism is spreading in America and in the East and is literally gripping the world." He thinks the coming fight will be between Christianity and atheism, Asia becoming Christian or atheist. The first step will be a uniting of all Protestant churches.

It is difficult to understand how atheism can grip the world. With WHAT does it grip? Atheism is mere denial and foolishness. There was never a real atheist. No man can be an atheist who admits that everything of importance is beyond his comprehension, that the universe is sustained and directed by a power whose existence he feels but cannot define.

Only an idiot would really be an atheist. Only a fool or bigot would insist that others accept his particular definition of God and his right to interpret omnipotence and omniscience.

All over the world the real war is industrial war, which has no armistice and never stops. France and Germany have combined in a cosmic dye trust, good for both parties because it will make

money, and France and Germany, having interests in common, may forget about fighting. We are developing big suits here. The second and third biggest chain stores in the United States, Kresge and Kress, are planning a \$250,000,000 business. They do a business of \$195,000,000 a year. And Julius Rosenberg, all by himself, does as much.

This country, urged to recognize the Russian Government, because we do business with Russia, says no; Russia must accept our standards before we recognize Russia. The next step would be to let Russia know what our standards are. Are they represented by our dominating corporations, by our lynchings, by our bootlegging, by songs of our recent elections in the Senate for cash, by our inability to do anything but talk when powerful men steal a Government's oil supply? What are our standards, exactly?

Mrs. Taylor, talented Los Angeles musician, says she sings the wrong kind of songs, which accounts for our crime wave. Such songs as "Red Hot Mama," says this lady, "drive youth to crime." Young people sing the foolish songs, and young people fill the modern prisons. Saxophones are harmless. Jazz properly used is all right, and drive nobody to crime, if they are modest. Mrs. Taylor writes some herself. It is "Red Hot Mama" affection that does the harm.

No wonder Stock Exchange seats go up. Mr. Simmons, president of Wall Street's Stock Exchange, says there is no limit, except the sky, to New York's financial future. Securities listed on the exchange were worth on September first eighty-two thousand six hundred and sixty-seven million dollars, and have gone up many millions since.

Those millions go back and forth over the ticker from buyer to seller, and the patient broker gets his little one-cighth. A seat on the exchange ought to be worth \$10,000,000.

The Canadian Pacific Railroad, the stock of which went climbing a few days ago, is operated in a country with population smaller than that within forty miles of New York's City Hall. What makes Wall Street pay such high prices for a Canadian railroad?

How do you explain the Canadian Government's ability to operate Canada's national railroads, national telegraph and telephone systems, with a profit?

ANOTHER LIST GIVEN OF PROSPECTIVE SETTLERS

The following people have asked for general information on Oregon, and expect to settle in the State. Anyone interested may obtain the name and address of any of these prospective settlers at the Review office.

New Year's Greetings

How much longer are you going to put off buying that home, Mr. and Mrs. Rent Payer? There is no longer any good excuse why you should not own the home in which you live. Home-owning in America is as easy as paying rent—and in a short while the property is yours—and you find yourself AHEAD in the world.

We have a listing of desirable city and farm lands—every one of which is a bargain. If you are interested and will investigate you will be surprised at the reasonable terms upon which a home can be obtained. We have small or large homes—exclusive listings only—and waiting for you.

Tell us what you want in a home—and if we haven't it on our listings we will find it for you—and at the price you can afford to pay.
