

GRAND OPENING

Monday, June 4

We will Open Up For Business

In the beautiful, substantial, and attractive New Raynard Building on the south side of the new post office location on Watson Street. This building is a great improvement to Beaverton. It has a modern, up-to-date front, is roomy and commodious and has wide shelving which will give us ample space to show our goods to the best advantage.

We have been in business in Beaverton for four years. We have and shall continue to keep in stock a standard line of Hardware and Furniture.

We do not choose to fill our store with junk and cheap merchandise because in the 30 years we have been in business we have found that cheap goods never built up a lasting business. The better grades of goods may not at times sell as fast as the cheaper goods, they generally give better satisfactory after they have been sold.

We shall endeavor to keep in stock goods that are needed in the community—whether it is a 5c article or a \$100 piece of merchandise.

It is a fact that it is impossible to have on hand every article called for. Many things we have to stock that do not turn over in five years and causes a loss on every one of such articles handled. When a customer, wanting this certain piece of goods, cannot get it in Beaverton, he is obliged to drive to another town, which means a loss to all businessmen in Beaverton. Invariably anyone going to another city for a piece of hardware will, at the same time, purchase something in some other line.

[WE ASK YOUR CO-OPERATION]

We will not fill our place of business with cheap goods. We cater to standard brands and in the thirty years we have spent behind the counter, we have found that the better grades of goods are what built up a lasting business in the long run. We may not start out as fast as some but in the different towns and states where we have been in business we generally managed to come in on the home stretch. We hope and believe that we can do the same in Beaverton. At least, we are not much worried about the past, or the Future. We look for the best and take what comes.

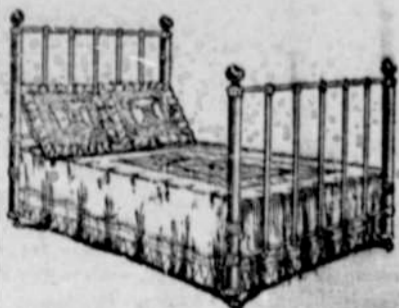

Beaverton has a great future. The location—the country—the community—and the people surrounding and in Beaverton will make this one of the best towns in Tualatin Valley. At the present, things are on the slow order, but that will happen in any town in any state and can be expected. Things will not remain so for long. Better and more prosperous times always follow depressions.

Thanking you one and all for the patronage you have given me at my old stand, and hoping to see all my old customers—and many new ones—at my new location in the modern, up-to-date store building with the copper-colored front, on the west side of Watson street just south of the postoffice.
