FRIDAY, JUNE 8, 1928

An especial word of commendation should be spoken for E. Stipe who always gets his towing car out and brings the hose cart to the scene of a fire. He carries no title as Fire Chief and at times there is need of some one at a fire who has the right to speak with authority. If it is not out of order, we should like to nominate Mr. Stipe for the position of Fire Chief.

It is estimated that during May and June 60,000,000 girls will be told that they are the "only girl in the world."

Salem will vote May 18 on \$50,000 airport bonds.

Athens farmers will plant a carload of inoculated bean seed.

The Stafford Pickle factory of Aurora is running full force.

The Oerding mill at Coquille will invest \$50,000 in cut-up plant.

A \$100,000 new paper bag plant at St. Helens is ready to run.

Klamath Falls will sell \$300,000 worth of sewer construction bonds.

IMPORTANCE OF STUDY OF OUR U. S. GOVERNMENT

The study of American government is important because anyone who is to become a voter or taxpayer, has to know his duties and rights. Every loyal citizen whether young or old should have a desire to know the political and civil functions of their government.

American government not only makes known to the people their rights, privileges and duties, but also tends to teach the citizens so they can easily understand the functions of the government; it tends to promote a spirit of peace. By papers and magazines, it circulates the chief topics of the day, political, national and foreign, so those who read them may not only know the laws but may know the conditions and doings of our political organizations, and what the foreign progress is.

Thus American government promotes a spirit of progress, loyalty, and harmony which every citizen should do his best to promote. And this can best be done in schools where the children are growing up to be the future citizens of the government and therefore it should be one of the chief subjects of the school curriculum.

LETTERS

From Our Readers

Oregon (By Ore., May 31, 1928. (To the Editor): Please permit me to express to you, and through you to the republican voters of Washington county, my deep appreciation for the support accorded me in the recent primary election. My vote in your county was gratifying to me, and I know full well that I should not have found so many friends had it not been for the endorsement of your newspaper. It is an absolute impossibility for a candidate to contact each and every voter personally, and I am sure that there is only one other so effective. And that is a newspaper. I had no campaign so planned that where I had no newspaper support I depended upon it at all. I am sure that if I did make as much of a campaign campaign over the state as I could in Portland, where I had no newspaper support, I could not have succeeded in making a constant showing all over the state. The reports appear to show that I was the first of several in number of votes for this office in every county except one, and in that county I had no newspaper representation whatever, and did not visit there.

My success is a distinct tribute to the influence of the upstate press. A number of my editor friends have been so kind as to say that their faith in me and their knowledge of my ability and integrity gave them something to work on, and while of course I felt that I was fully qualified for the position, and that the press would not have supported me had I not been, I know that the cooperation and support of the newspapers of Oregon was the essential factor in winning the nomination. In times of elections, candidates naturally turn to their friends for support. Fortunately for me, a great number of my friends were in the newspaper business and their support was more influential than any other group could have been. I was nominated without a doubt as the result of the support of the newspapers, but I am not a "newspaper" candidate and there was no collusion between publishers to put me over. Neither did my former connection as an officer in the editorial association have anything to do with my victory; I was supported in many instances by editors who had never been members of the association.

I am very grateful for the splendid majority accorded me, am deeply appreciative of the confidence shown in me by the electorate of Oregon, and thank you most sincerely for the fine support you gave me. As secretary of state it will be my objective to give the people of this state a clean, conscientious administration of their affairs, free from politics and showing every courtesy possible.

Very truly yours,
Hal E. Moss, Republican nominee for Secretary of State.
