Entered as second class matter December 9, 1922, at the postoffice at Beaverton, Oregon, under the Act of March 3, 1879.

FRIDAY, FEBRUARY 22, 1929

Despair is the blighted fruit of hope.

An ambition to own a skyscraper is a lofty ideal.

All the world loves to laugh with or at a lover.

He is indeed stings who will not give you a smile.

Any man who works only for pay seldom does his best.

Love is the real thing until the newness begins to wear off.

A close friend is all right, until he declines to lend you money.

Speaking of women, attractive simpletons are more popular with men than intellectual bores.

Never judge a woman's smile by her teeth, both may be artificial.

There is no man so friendless as one who has lost his political pull.

A man may be able to trade his reputation for money, but he can't trade back.

Every man thinks that he is the proper one to stand around and boss the job.

Rich men have their country places, but poor men must be satisfied with farms.

The easiest road to wealth is to have a rich relative die and leave you a fortune.

A short girl gets around it by making the stripes on her skirt run in the opposite direction.

Teaching Program Of University Is Topic at Meeting

Dr. Arnold Bennett Hall Is Speaker at Session of State Institutions

UNIVERSITY OF OREGON, Eugene.—The scientific program that is now under way at the University of Oregon, by which a more accurate method is hoped to be found for rating the teaching staff, and through which new and more efficient teaching methods are expected to be found was given nation-wide prominence in Chicago recently by Dr. Arnold Bennett Hall, president of the University, who spoke before the American Association of State Universities session on this subject.

Two main objectives are sought by the experiments and research work now carried on, declared Dr. Hall. The first of these is an accurate method of determining the actual worth to the University of its professors and instructors, so that promotions and advancements can be made strictly according to merit. The second is for definite improvement in actual teaching methods, so that students may be better trained and better instructed.

Methods now in use at the University of Oregon for personnel work were described to the members present. The first consists of the preparation of a "Who's Who" of faculty members. This includes the complete educational history of the faculty members and lists of his academic performances, all available information about his family, activities in the university, salary increases and promotions and personal impressions gathered by the president from occasional personal interviews.

The second method which is a direct check on the efficiency of the faculty members, is a requirement that each instructor and professor send in his examination questions when he sends in the results, or grades of students. The third is that each faculty member must send in a statement of his objective in giving the course, at the same time that he submits the examination questions.

Art Students To Aid In Campbell Memorial

UNIVERSITY OF OREGON, Eugene.—Dean Ellis F. Lawrence of the school of architecture and allied arts, announced yesterday that the sculpture department would aid in the execution of models for the detail of the President Prince L. Campbell memorial court of the Fine Arts building. Dean Lawrence, who is drawing the plans for the building and its detail, also said that the complete plans would be ready for use in about a month.

The building is a memorial to President Campbell, but this little inner court will be especially dedicated to him, according to the dean. In a niche in a small pavilion at the end of the court will be a bust of President Campbell, done in bronze by Philister Proctor, who also executed the Pioneer statue.

The codfish lays a million eggs And the helpful hen lays one; But the codfish doesn't cackle To tell us what she's done; And so we scorn the codfish coy, And the helpful hen we prize, Which indicates to you and me, It pays to advertise.

FLASH The Lead Dog By GEORGE MARSH

Here is a tense and thrilling story of the northland wilderness. The wiles of the half-breed, the superstition of the Cree and the avarice of the white are set in grim conflict. Flash, the Ungava dog, meets Slit-Ear, Yellow-Eye and Kona of the huskies; and heretofore is conflict. It is master fiction of a region but seldom pictured and of men and animals of superbreeds.

For Sale—9 six weeks old pigs. 2 1/2 miles East of Cedar Mill store on the Cornell road. —L. Stark.

For Rent—5-room house, large attic, garage, 2 1/2 acres ground. W. H. Schidmore, 710 Lombard St. Beaverton, Ore. Adv. p-12.

change was made from the tentative dates in January at the request of the executive committee of the State Editorial Association, following a recent meeting. Reasons for the change are that the executive committee has important matters that will come to a head by February, and also that R. W. Sawyer, publisher of the Bend Bulletin, will be back in Oregon from an extended trip East in February. He is president of the State Editorial Association.

The program committee, recently appointed, is already at work and the most extensive and interesting session in the history of the conference is already guaranteed by the members.

Before You Go Away

—plan leisurely with your own Southern Pacific agent—

Avoid the hurried choice of out-of-town buying. Start on your trip confident that you are going the best way, and that no annoying complications will mar it.

Whether it is a trip of a day or a month, South or East, to San Francisco or to Europe, your resident agent can be of utmost value to you.

In buying "travel," remember the slogan of your local merchants, "It pays to buy in your own home town."

How much power is in your garden?

NATURE can do only so much with any seed. The seed itself must contain the promise and the power. You would feel convinced of the power of Ferry's purebred Seeds if you could see the great Ferry stock seed farm and trial gardens.

Here are acres and acres of specimen plants. Every plant that is mature is big, vigorous, beautiful,

and bountiful. Only the best plants are allowed to mature—all else are weeded out. Any plant that doesn't produce true to type gets weeded out. And only seeds from the plants that measure up to the Ferry standards in size, color, flavor, productivity—are the Ferry's Seeds you can buy.

In these seeds is the power to produce flowers of superb beauty, and vegetables of superior flavor and size.

Surely all the work you put into your garden deserves just these seeds. Ferry's Seeds have to be all you expect when you buy them. In addition, they are fresh. No packet of Ferry's Seeds is ever carried over by the dealer for sale the second season. Ferry's Seeds may be had at "the store around the corner." Write at once for Ferry's Seed Annual—with its good garden advice. Address D. M. Ferry & Co., Dept. H, 500 Paul Ave., San Francisco, Calif.

Your garden will have its best possible start with Ferry's purebred Seeds.

Members of the committee are Sheldon Sackett, McMinnville Telephone-Register, McMinnville; L. D. Felsheim, Bendon Western World; Don Wilson, Benton County Courier, Corvallis; Walter W. R. May, the Oregonian, Portland; Merle Chessman, Astoria Budget; Eric W. Allen, School of Journalism, chairman; Hal E. Hoss, and Mr. Cronise, ex-officio members.

One of the most important matters that will be brought up will be the proposal that a field agent be employed by the editors and publishers of the state in conjunction with the school of journalism. The duties of such a position, and the question of what type of man is wanted to fill it, will be taken up at this time.

Other topics relating to all branches of publishing and editing will be discussed under the leadership of experts. The usual meetings of the press associations, and the annual banquet will of course be important features of the conference. There will be a special section for the publishers of daily papers.
