One family that keeps an attractive home place, accomplishes more for its community than a dozen who find fault with everything.

There was another young man, a mere boy, who had had to leave school early, but who meant to be educated all the same. He was a train-boy, but between train runs he spent his time in the library, digging into scientific periodicals and books. They opened the world of science and invention to his keen young mind. He has since acknowledged his gratitude to that small library of long ago.
His name was Thomas Edison.

Important Train and Stage Announcement

For your greater convenience on trips in Western Oregon a new ticket arrangement has been put into effect whereby the same tickets may be used on the stages of the Southern Pacific Motor Transport Co., Oregon Stages Inc., and the Pacific Stages.

For example, you can leave here on the stages of one line and return on the other, using the same ticket. Schedules of these companies have been coordinated, too, giving you better service than ever before.

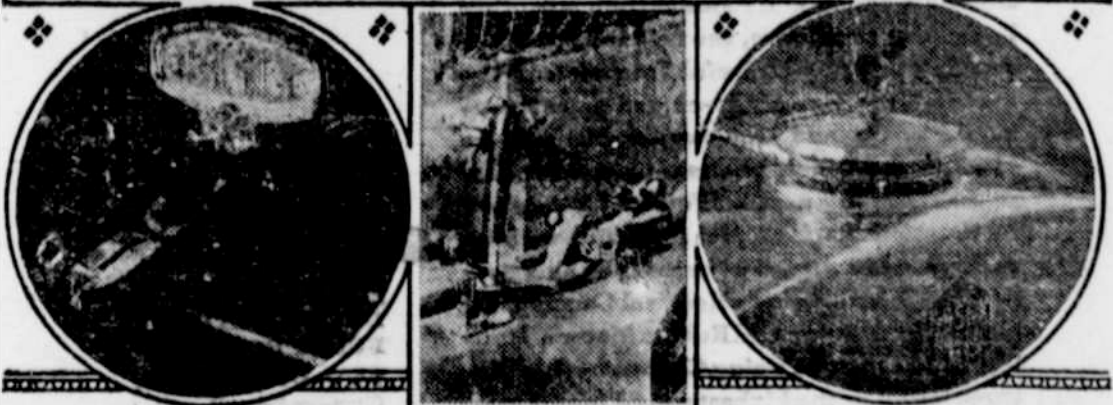

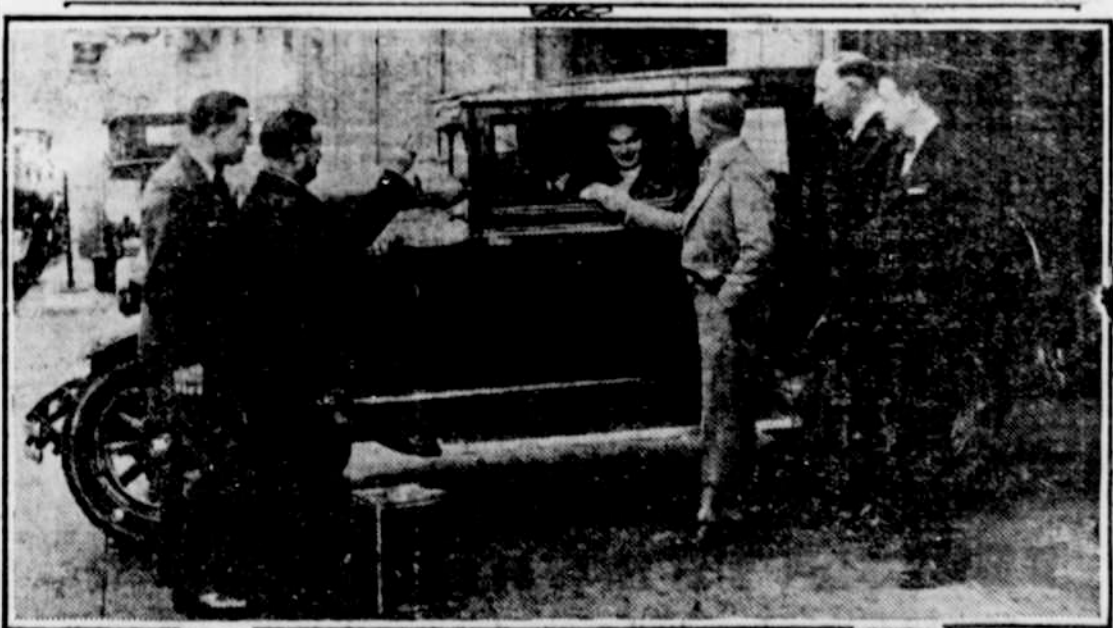

Rail tickets good on these lines

Southern Pacific rail tickets also are good for use on the "Red Tops" and "Silver Grays," and, with few exceptions, on the Pacific Stage line. If you wish, you can go by train and return by stage.

SEALED ESSEX CONQUERS THE COAST

When an Essex stock coach left San Francisco sealed in high gear, and with hood and radiator so sealed that it was impossible to touch the engine or to add oil or water, on a round trip test to the Canadian border, south to the Mexican line and back to San Francisco, the odds were heavy against it completing the run. It made the 3493-mile test successfully on the one filling of oil and water, going over all the numerous mountain grades in high gear, returning to San Francisco with the symbolized seals intact. It was held to be a sensational test, a distinct

triumph for the car and for Veedol Motor Oil, as well. The top picture shows the start with (left to right) W. C. Pettingell and Frank Wagar, Tide Water Oil Sales Corporation; Paul J. Feely and B. M. Sharpe (in the car); Roy B. Alexander, general manager of Stanley W. Smith, Inc., Hudson-Essex distributors; Leon J. Pinkson, San Francisco Chronicle, and Art Manning, San Francisco Bulletin. Below, left to right: How the gear was sealed in high; how the hood and radiator cap were sealed,
