You can always give richer, deeper, more brilliant colors to faded or out-of-style dresses, coats, draperies, etc., with Diamond Dyes. And the color stays in through wear and washing!

Here's the reason. Diamond Dyes contain the highest quality anilines money can buy. And it's the only dye that lasts! They are the very life of dyes.

Plenty of pure anilines make Diamond Dyes easy to use. They go on easily without spotting or streaking. Try them next time and see why authorities recommend them; why millions of women will use no other dyes.

Diamond Dyes for the same price as ordinary dyes; 15c. at any drug store.
