

Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is dispelled; all sourness is soon gone; the whole system is sweetened. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant for them to take. Any drug store has the genuine, prescription product.

Cat Sounded Alarm

"Murder! Murder!" was the message an excited man telephoned to House Sergeant Butler, of the Philadelphia police. Sergeant Butler sent Sergeant Dever in a bandit chase to investigate. In a vacant house Dever found a big black cat with its head trapped in a coffee can and producing a good imitation of a terrified woman's screams. Fifteen minutes with a hack saw freed the cat.

The Right Way to Redye Fine Silks

Textile makers always use a special dye for silk or wool. They know that is the best way. The makers of Diamond Dyes are the first to enable home dyers to follow this plan.

Next time you want to dye some of your more valuable articles of silk or wool, try the special Diamond Dyes in the Blue Package. They will give these materials clearer, more brilliant colors than any "all-purpose" dye. And they are just as easy to use as ordinary dyes. Like the white package Diamond Dyes, these dyes contain an abundance of the highest quality anilines. The blue package dyes silk or wool only; the white package dyes, or tints, any material. Either package; 15c, drugstores.

After all, a prison is not maintained as a place of rest, recreation and recuperation.

Who can remember the old-fashioned dude, of whom it was said, "Every move a picture?"

Nature is still triumphant. No girl looks as weirdly lank in person as in the fashion pictures.

The biggest fourflusher around town claims it takes two of the new small-sized bills to light a cigar.

Back home when you wanted suspenders, you just walked into a store and asked for "suspenders."

We Americans look upon the orientals with pity and they gaze on us with contempt, and so honors are even.

"A western girl has made a fashionable dress out of shavings from the sawmill." Er—and about the splinters?

"Swiss cheese now yielding to scientists," says a headline. We never knew anyone else to get the better of it.

Overheard on the bus: "Did you spend the usual two weeks' vacation at home?" "Uh-huh—a very usual two weeks."

An interesting sight we haven't encountered in 15 years at least is a runaway team hitched to a watermelon wagon.

"Why do you buy more shoes, at this time? You have 11 pairs in the closet." "I know, but I need the box for a picnic lunch."

It is saddening to think that in a little while we shall begin to miss the old-fashioned dollar bill, and the new smaller ones, too.

A recipe of the week calls for candied carrots, on the theory, perhaps, that the bitterest pill can be swallowed if it is sugar-coated.

One who lives in a "house by the side of the road" these days is likely to find the deep tracks of strange automobiles in his front lawn.

Possibly the most notable instance of good judgment during the heated term has been the Swedish flyers' inability to get out of Iceland.

What profiteth a man to break out of a New York prison, where he has been seeing Broadway shows for nothing, and pay \$11 for a seat?

Another thing we have always felt to be wildly exaggerated is the importance of the matter marked in a "Marked Copy," after it arrives.

"The fall hat will be lighter this year than last," says a well known authority on male styles. It should, if the dry cleaner knows his business.

In view of our inability to do anything about the weather, perhaps the next best thing is to do something to the chump who's always reminding us of it.

We wouldn't call the name of Salmon P. Chase a household word exactly. And certainly we wouldn't call his face on the new \$10,000 bill a household face.

Perhaps the most puzzling thing about Tibet, called the Land of Mystery in a new book title, is how each new explorer who manages to get into the place is the first.

A Chicagoan, robbed of his suit of clothes by footpads, dashed into an alley and wrapped himself with a sport extra. This is a way, of course, of getting into the papers.

Considering the manner in which the reducing fad has swept through women's wardrobes, father wonders how mother and the girls still manage to require so much luggage for vacation tours.

Heard on the bus: "The other night our favorite wife accused the Young Hopeful of using some of her new sun-tan powder, but investigation developed that he had only failed to wash his neck."

An eminent dermatologist says whiskers grow just as fast in cold weather as in hot. This no doubt accounts for the many long beards among Eskimos.

"What is woman's place?" asks a correspondent. As a result of extended observation, we are able to inform him that it is any place she happens to be in, while she's there.

The scientific preparation paradi-chlorobenzine is said to be very destructive to moths. A good plan is to write the name on a piece of paper and place it in your pocket; then the moth will see it and laugh himself to death.

When Babies CRY

Babies will cry, often for no apparent reason. You may not know what's wrong, but you can always give Castoria. This soon has your little one comforted; if not, you should call a doctor. Don't experiment with medicines intended for the stronger systems of adults! Most of those little upsets are soon soothed away by a little of this pleasant-tasting, gentle-acting children's remedy that children like.

It may be the stomach, or may be the little bowels. Or in the case of older children, a sluggish, constipated condition. Castoria is still

the thing to give. It is almost certain to clear up any minor ailment, and could by no possibility do the youngest child the slightest harm. So it's the first thing to think of when a child has a coated tongue; won't play, can't sleep, is fretful or out of sorts. Get the genuine; it always has Chas. H. Fletcher's signature on the package.

To Identify Genuine Aspirin

THE increasing use of Bayer Aspirin every year is proof that it has no ill effects. It is the accepted antidote for pain. It always helps; it never harms. Quick relief when you've a headache, or cold; or are suffering from neuralgia or neuritis. Rheumatic pains yield, too, if you'll only give these tablets a chance. But you want genuine Aspirin, so look for the Bayer Cross on every tablet. The box always bears the name Bayer and the word "genuine" printed in red. Proven directions inside.

Like Rattlesnake Meat

Is rattlesnake meat good to eat? Of course the uninitiated will at once answer in the negative, says the Pathfinder Magazine. But not so with the fair students of the nature study camp of the Pennsylvania State college summer session.

Some 200 students at the camp in the valley of the Seven Sisters mountains sampled fried rattlesnake and all declare "it tastes just like chicken or frogs' legs, and once you try it you're sure to come back for more."

Sound Accurately Recorded

Transmission of light beams, through a fabric film upon which positive sound images are recorded, has resulted, the inventor of the process says, in the reproduction of sounds without distortion. Projecting the light through the fabric medium for the purpose of translating sound images into musical or vocal sounds may be conducted either with or without motion pictures, says Popular Mechanics Magazine.

Schoolgirl learns simple health measure

WITH all the talk there is nowadays about the independence of the sub-deb generation, your reporter got a great kick out of hearing a granddaughter describe how her grandmother was following a good old tried and true method of improving her general health.

"My granddaughter, Margaret," says Mrs. Zell of 6231 Catherine Street, Philadelphia, "read about Nujol, was interested in it, so sent for a sample." It seems she has been taking a tablespoon of Nujol once a day since and expects to continue this treatment. Already she has found an improvement in her general health, her system functioning normally where other remedies had failed.

That's one of the best things about Nujol. It is just as harmless for young girls, or babies even, as it is for adults. For Nujol contains no medicines or drugs. It can't upset

you because it works so easily and regularly, in a normal fashion.

Nujol was perfected by the Nujol Laboratories, 2 Park Avenue, New York City. It can be bought anywhere for about the price of a ticket to a good movie. Get a bottle of Nujol today and try it, won't you? In sealed packages.
