Cold in Head, Chest or Throat?

RUB Musterole well into your chest and throat—almost instantly you feel easier. Repeat the Musterole rub once an hour for five hours... what a glorious relief!

Those good old-fashioned cold remedies—oil of mustard, menthol, camphor—are mixed with other valuable ingredients in Musterole.

It penetrates and stimulates blood circulation and helps to draw out infection and pain. Used by millions for 20 years. Recommended by many doctors and nurses. Keep Musterole handy—jars, tubes. All druggists.

To Mothers—Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

Bucket Holds Ten Tons

At the Buffalo docks there has just been put into service the largest clam-shell bucket ever built. From the bottom of its scoop to the top of its head this monster bucket measures 18 feet 9 inches, and when lowered, ready for action, it has a spread of 10 feet, covering an area of 123 square feet. At one grab it is able to pick up 10 gross tons.

AFTER OPERATIONS

"I was three times under an operation and I was very weak and nervous and could not eat. I suffered for ten years. I learned about Lydia E. Pinkham's Vegetable Compound and my husband bought me a bottle. I felt a little better and he bought me two more. I had the Compound in my home for two years and took it all the time. Now I feel strong and can do anything."—Mrs. A. Michale, 5443 Mitchell Ave., Detroit, Michigan.

WHY WE BEHAVE LIKE HUMAN BEINGS

By GEORGE DORSEY, Ph. D., LL. D.

Can We Control Our Own Evolution?

CAN we control our own evolution? Do we want to? To what end? In which direction? Presumably we could; and this is as far as eugenics has any standing in a court of science. All the rest of eugenics is politics—based on assumptions open to opposite views or on race prejudice pure and simple.

Man could probably breed a race of human beings with the following "traits": bald, fat, long chest, short and crooked legs, left-handed, six fingered and all fingers thumbless and webbed, near-sighted, deaf and dumb, feeble-minded, curly haired, cataract, rhino, long-lived, and prolific, with a tendency to twins; at any rate, there are a few of the many so-called Mendelian traits capable of transmission. There are said to be at least thirty-four different hereditary eye defects alone, eight of which can produce blindness.

With nothing more to work with than normal variation in wild rock pigeons, man has bred over twenty races of pigeons. What could be not do with the human race if... The "if" introduces politics. And to "breed" a race of humans involves a decision as to what is desirable; a thousand-year-long dynasty of eugenic despots with such power over subjects as Herod, never hoped for or breeder of slaves dared exercise.

What are we to breed at? What is the new race to go to? Stature, low hair, blue eyes, eight fingers, toothless, one toe, fecundity, mental precocity? The list of heritable traits is indefinite. "Marry dissimilars" is probably good eugenic advice if we are not bent on handing down our own personal traits—but most people are satisfied with their traits. At any rate, the sex impulse itself generally chooses its mate, and that impulse is not primarily concerned in offspring.

Take stature. If height is the criterion for desirable citizens, early-and-often marriage should be encouraged. In Iowa, Kentucky and Missouri, made late and rare in New York, Pennsylvania, and Massachusetts; and prohibited in Rhode Island. Meanwhile, close Ellis Island to all but native Patagonians.

What shall we do with the Attic Greeks? Raise their "quota," or exclude them because they do not look like the Harvard graduate who fathers an average of only three-fourths of a son and the Vassar graduate who mothers one-half of a daughter?

If there is anything in the "continuity of the germ-plasm" theory, there should be some good germs left in a country which in 150 years produced such statesmen as Millard, Thimbletoes, Aristides, and Pericles; such poets as Aeschylus, Euripides and Sophocles; such scientists as Socrates, Plato, and Aristotle; such artists as Phidias and Praxiteles; such historians as Thucydides and Xenophon; such orators as Aeschines, Demosthenes, and Lysias. The whole earth, in no centuries before or since, declared Galton, produced such a galaxy of illustrious men.

Some of that germ-plasm may be blocking boots today on a Staten Island ferry or running a short-order restaurant in El Reno. Who knows? One thing is certain: if it is, it is more interested in a short shine or a long order than it is in eugenics.

Could anyone, even Francis Galton himself, from the hill behind Athens in the year 600 B. C., have predicted that within a hundred years the little Rhode-Island-sized state of Attica would begin to bud genius so fast and so big that the world has not stopped wondering about it yet?

Could Galton have predicted Lincoln? Could Ellis Island? Can Ellis Island spot the Jukes from the Alt-mans, or have the faintest idea when it holds up a Steinmetz—or an Edward Bok?

What carries eugenics into politics is that the Jukes are neither figs nor thistles, and we do not yet know just how feeble a mind has to be before it has to be locked up to protect those who have minds and refuse to use them.

Many Jukes have 'oo much brain to be segregated, not enough to carry a rifle to the front. Selection. That kind of selection is a modern specialty. The sound-minded able-bodied get shot, the priests and scholars will not marry, and the ambitious women and the selfish men transmit their names but not their germs.

In civilization now breeding a "pure" dumb-bell type—no teeth, no lower jaw? Cigarettes may save the lower lip, and chewing gum may save enough of the lower jaw to support a chewing gum. But a full and sound set of teeth these days is about as primitive as a perforated olecranon fossa of the humerus.

Evolution produced a human brain, our only remarkable inheritance. Nothing else counts. Body is simply brain's servant. Treat the body right: of course; no brain can function well without good service. But why worry more about the looks, color, and clothes of the servant than the service it performs?

(By George A. Dorsey.)

One Way Out

Teacher—Would you say I feel bad or I feel badly?
Pupil (after deep thought)—Oh, I feel terrible.

Not Sense of Inferiority

Diffidence is not due to an inferior complex any oftener than it is due to an objection to the invasion of personal reticence. Some people who fear others who try to become intimate with them are diffident.

For COLDS

We all catch colds and they can make us miserable; but yours needn't last long if you will do this: Take two or three tablets of Bayer Aspirin just as soon as possible after a cold starts. Stay in the house if you can—keep warm. Repeat with another tablet or two of Bayer Aspirin every three or four hours, if those symptoms of cold persist. Take a good laxative when you retire, and keep bowels open. If throat is sore, dissolve three tablets in a quarter-glassful of water and gargle. This soothes inflammation and reduces infection. There is nothing like Bayer Aspirin for a cold, or sore throat. And it relieves aches and pains almost instantly. The genuine tablets, marked Bayer, are absolutely harmless to the heart.

"Hello! Hello! How Much Does Happiness Cost?"

Only the price of learning a simple health rule, this smiling youngster finds!

"HAPPINESS just radiates from our baby since we began giving her—"

What was it that Mrs. Fred E. Schmitt of 2023 Stone Street, Falls City, Nebraska, discovered, which she could give to her baby that made her happy, well, strong and buoyant?

Not a medicine; not a drug of any kind; just harmless bodily lubrication. Only that, and nothing more. Mrs. Schmitt's discovery that little Barbara kept well when she was made regular as clock work is the same discovery as has been made by millions of other people, who are enjoying the happiness of health because they use Nujol.

Babies, old folks, people in the prime of life—all alike need to have the bodily poisons (we all have them) regularly cleaned out. Nujol just gently, naturally, normally lubricates the action of your body which needs lubrication as much as any other machine.

Please remember that Nujol contains no drugs; is non-fatening; is not absorbed in any way by the body; can form no habit; cannot hurt you, no matter how much you

"Happiness is on the other end of your phone too," says little Barbara.

take. All it can do is keep you internally clean, and make you continually feel better. Colorless, tasteless as pure water, Nujol will make you see the bright side of life; it will help you to get the most out of your life; it will make you wake up in the morning feeling fit, and help you to do a good day's work with a smile.

Millions of people have discovered this fact—why don't you? You can buy Nujol in sealed packages at all drug stores. It costs but a few cents, and makes you feel like a million dollars. Get a bottle today and see how brimming zestful health will boost your day's happiness.
