THE POLITICIAN

A committee once went to a philanthropist to ask him to subscribe \$5 to help bury a poor old politician. "Here's \$50," he cried. "Go out and bury ten politicians!"

What's the matter with the politician that he is the butt of so many jokes? Is it because, unlike the doctor who buries his mistake but like the newspaper editor, he makes his mistakes in public?

That is probably part of the reason, but the basis of it is deeper. The politician, frequently unjustifiably, but often with just cause, has stood for the bluff back slapper who did most of his work by word of mouth. He has never built up a pride of calling, because his chief concern has been self-interest instead of public interest.

Way back in Civil War days, Artemus Ward wrote, "I am not a politician, and my other habits are good."

Several hundred colleges and universities hold membership in the American Alumni Council, and Miss Calkins' election is considered a very high honor for both the university and the state.

While a little cocoa occasionally adds variety to the child's breakfast, it is best to use only enough cocoa for flavor, and to have the beverage only slightly sweetened.

SIMPLE HOME REMEDY
DARKENS GRAY HAIR

Cincinnati Barber Tells How Any One Can Prepare It in 5 Minutes

Any man or woman can easily look twenty years younger by simply darkening their gray, faded, or streaky hair. This is now easy to accomplish with a recipe given by a well known Cincinnati barber.

Simply take a half-pint of water, add one ounce of bay rum, ¼ ounce of glycerine and a small box of Barbo Compound. Shake and it is ready to use. These ingredients can be bought at drug stores at trifling cost.

Applied to the hair twice weekly this delightful mixture quickly gives the desired shade. It is easy to use, is not sticky or greasy, will not color the scalp, and does not rub off. adv. c-2

If mayonnaise dressing fails to form a smooth emulsion or separates, one common method of repairing the damage is to start over again, using another egg and beating the separated mixture into it.

Another method which almost never fails is to put about two teaspoons of cold water into a bowl and beat the separated mixture slowly into the water.

The Falls City creamery building has been completely rebuilt.
